GRAPHICAL ILLUSTRATION OF MALTA BY NUTS CLASSIFICATION

STATISTICAL REGIONS AND DISTRICTS OF MALTA

The Nomenclature of Territorial Units for Statistics (NUTS) is a hierarchical classification which divides the economic territory of the European Union for the purpose of producing regional statistics that are comparable across the European Union - NUTS 1 to 3 levels. To meet the demand for statistics at a local level, Eurostat has created a system of Local Administrative Units (LAUs) that is compatible with NUTS.

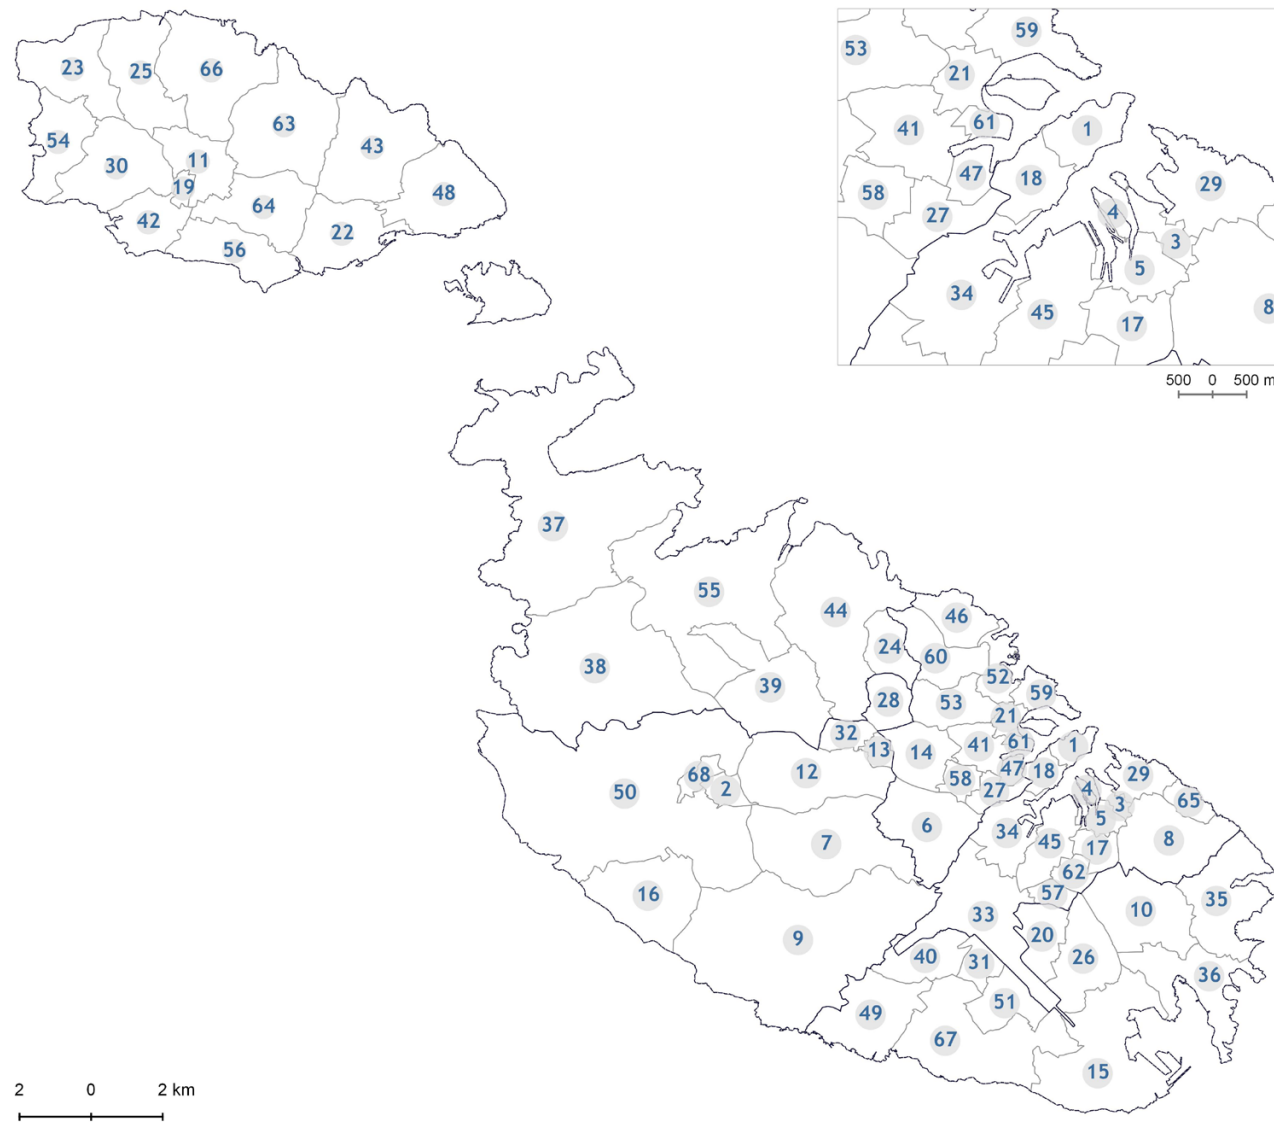

NUTS 1	MALTA
NUTS 2	MALTA
NUTS 3	Malta Region Gozo and Comino Region
LAU1	LAU2
Southern Harbour	Bormla; Il-Fgura; Floriana; Ғal Luqa; Ғaž-Ғabbar; Il-Kalkara; Il-Marsa; RaҒal Gdid; Santa Luċija; L-Isla; Ғal Tarxien; Valletta; Il-Birgu; Ix-XgҒajra.
Northern Harbour	Birkirkara; Il-Gzira; Ғal Qormi; Il-Ғamrun; L-Imsida; Pembroke; San Gwann; Santa Venera; San Gилjan; Is-Swieqi; Ta' Xbiex; Tal-Pietà; Tas-Sliema.
South Eastern	Birzebbuga; Il-Gudja; Ғal GҒaxaq; Ғal Kirkop; Ғal Safi; Marsaskala; Marsaxlokk; L-Imqabba; Il-Qrendi; Iž-Ғejtun; Iž-Ғurrieq.

FOREWORD

Regional Statistics MALTA 2023 edition serves as a compendium of indispensable regional statistics. This publication continues its legacy of providing comprehensive insights into a myriad of socio-economic and environmental facets, fostering an analytical framework that engenders a profound understanding of longitudinal and cross-sectional developments across the different levels of territorial groupings and granularity.

The publication delves into eight statistical domains, encompassing demography, education, labour market, economy (including a newly added section dedicated to residential building permits), transport, tourism, agriculture and fisheries, and resources. This comprehensive coverage ensures a seamless continuation from previous editions, enabling a holistic understanding of the socio-economic scenario. Most results in this publication have been diligently compiled, employing harmonised and consistent methodologies. Detailed commentaries, statistical tables, charts, and maps further enrich the analytical process, providing a comprehensive overview while illuminating noteworthy findings.

Furthermore, akin to its predecessor, the paramount significance of methodological harmonisation resurfaces in this edition, emphasising its profound implications in elucidating the multifaceted repercussions of COVID-19 on diverse socio-economic spheres. Despite the waning presence of the pandemic, its enduring impact remains discernible to the astute observer. Users are encouraged to exercise judicious discernment when interpreting outcomes and/or employing this data, particularly within sectors and respective years profoundly affected by the ramifications of the pandemic.

The collection and production of regional statistics in the context of the small size of the Maltese islands present various challenges, both for primary data collection and secondary data sources. Administrative data sources are crucial for the production of regional statistics, however when it comes to business and economic domains further treatments ensue to address issues related to Head Office data reporting and local units, the latter are better known as branches. In some areas, the detailed and granular format of regional statistics also requires higher prudence for statistical confidentiality.

Given these circumstances, the NSO extends heartfelt appreciation for the unwavering support demonstrated by its diverse range of data sources. Their invaluable contribution plays a pivotal role in enhancing the integrity and comprehensiveness of this publication. Moreover, gratitude is extended to the Regional, Geospatial, Energy, and Transport Statistics Unit, along with all other Units and staff members at the NSO. Such commitment and dedicated efforts have been instrumental in facilitating the collection, compilation, and dissemination of this publication.

1

DEMOGRAPHY

This chapter provides salient statistics on the regional demographic structure of MALTA. The first section comprises demographic aspects related to population size and structure, births, deaths and marriages while the second section considers the demographic and socio-economic characteristics of households. The final section provides a regional analysis of social protection beneficiaries for a selection of benefits.

1.1 POPULATION

The number of inhabitants living in MALTA, specific to the latest Census conducted on 21 November 2021, amounted to 519,562 with 480,275 and 39,287 residing in the Malta and Gozo and Comino regions respectively (**Table 1.1.1**). Persons between 30 and 39 years of age accounted for the highest share, 18.2 per cent, of the population of the Malta region with 31,863 and 18,141 persons living in the Northern Harbour and Northern districts respectively. Additionally, in the Gozo and Comino region, persons having the age of between 30 and 39 years, also accounted for the highest share that of 14.8 per cent of the population of the Gozo and Comino region (**Table 1.1.2**).

The population pyramid in **Chart 1.1.1** shows the age and sex structure of the MALTA population by region in 2021. The data indicates a symmetrical pattern from left to right, implying a nearly equal distribution of females and males across most age groups in both regions, except for the 20-29 age group in the Malta region, which appears to have more males than females and the 30-39 age group in the Gozo and Comino region, which shows a similar trend. Additionally, in both regions, the 75 years and older age group has a higher proportion of females compared to males. The population in both regions showed relatively higher concentration in the 30 to 39 years of age.

When comparing the population figures of 2021 to those of 2011, Malta region's population increased by 94,218 inhabitants. The Northern district exhibited the highest population growth rate, with a substantial increase of 47.0 per cent. Following closely was the Northern Harbour district, which saw a growth rate of 30.6 per cent. In contrast, the Southern Harbour district had the lowest growth rate, with an increase of 8.3 per cent. The Gozo and Comino region witnessed a notable increase in population, with 7,912 more inhabitants or a growth rate of 25.2 per cent when compared to 2011. (**Table 1.1.2 and Chart 1.1.2**)

CHART 1.1.1 – Distribution of population by age, sex and region (NUTS 3): 2021

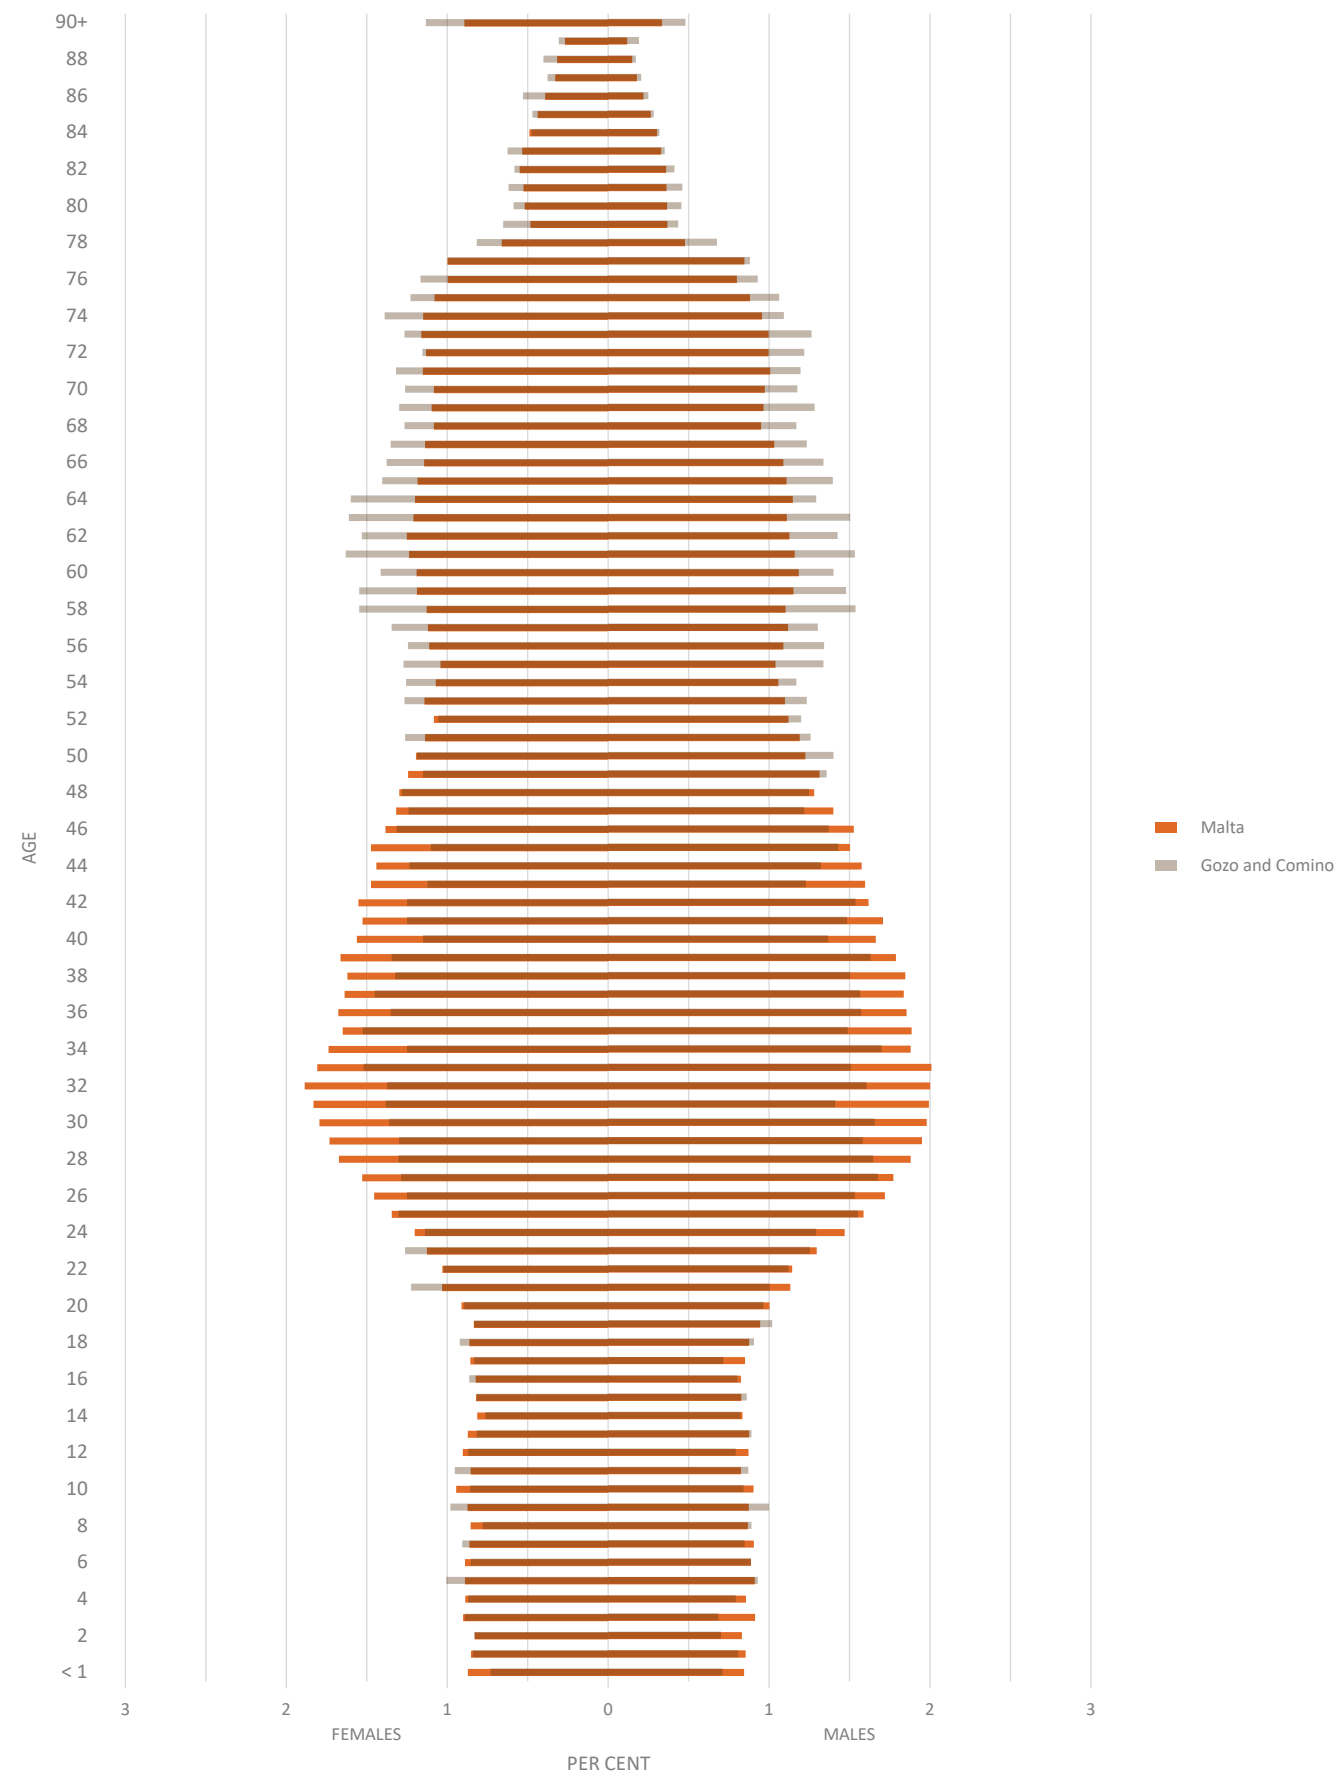

CHART 1.1.2 – Population by district (LAU 1) and selected years

Between 2011 and 2021, the highest percentage increases were observed in the age cohorts of 90 years and above, followed by the population aged 70 to 79. A similar pattern was noticed in both regions. Conversely, the age group between 10 and 19 experienced the largest decrease, with a decline of 7.2 percent in Malta region and a more significant decrease of 13.7 per cent in Gozo and Comino region. On the other hand, the population aged 0 to 9 saw a growth of 14.2 per cent in the region of Malta, while the region of Gozo and Comino recorded an increase of 20.2 per cent in the same age group. (Charts 1.1.3 and 1.1.4)

— DID YOU KNOW ?

On Census Day, 21 November 2021, persons aged between 30 and 49 years accounted for approximately one third of the population of both Malta and Gozo and Comino regions, comprising 33.0% and 27.7% respectively.

CHART 1.1.3 – Changes in population structures in Malta region by age group and selected years

CHART 1.1.4 – Changes in population structures in Gozo and Comino region by age group and selected years

During 2021, total foreign population in MALTA reached 115,449 with most foreigners being aged between 30 to 39 years (32.4 per cent) and 68,481 (59.3 per cent) being males. On a regional level, foreigners between 30 and 39 years of age comprised the biggest share in both Malta and Gozo and Comino regions, with 33.2 and 21.1 per cent respectively. In both regions, the smallest share was attributed to the elderly population (80 years and over). **(Table 1.1.3)** Almost half of the foreigners resided in the Northern Harbour district (45.4 per cent), followed by the Northern district (23.6 per cent). Foreigners residing in the Gozo and Comino region/district accounted for only 6.6 per cent. **(Table 1.1.4)**

Between 2011 and 2021, there was a substantial increase in the foreign population across both regions of MALTA. The most significant difference was observed within the 30-39 age group, with a respective increase of 31,477 individuals in Malta region and 1,477 individuals in the Gozo and Comino region. Conversely, the smallest growth within the foreign population was seen in the elderly cohort aged 80 years and over. **(Charts 1.1.5 and 1.1.6)**

— DID YOU KNOW ?

In 2011, there was approximately one foreigner for every 20 residents in Malta region, while during 2021 this has changed to one foreigner per four inhabitants. For the Gozo and Comino region, while in 2011 there was approximately one foreign resident for every 23 persons, in 2021, one in every five inhabitants is considered to be a foreigner.

CHART 1.1.5 – Maltese and foreign population structures in Malta region by age group and selected years

CHART 1.1.6 – Maltese and foreign population structures in Gozo and Comino region by age group and selected years

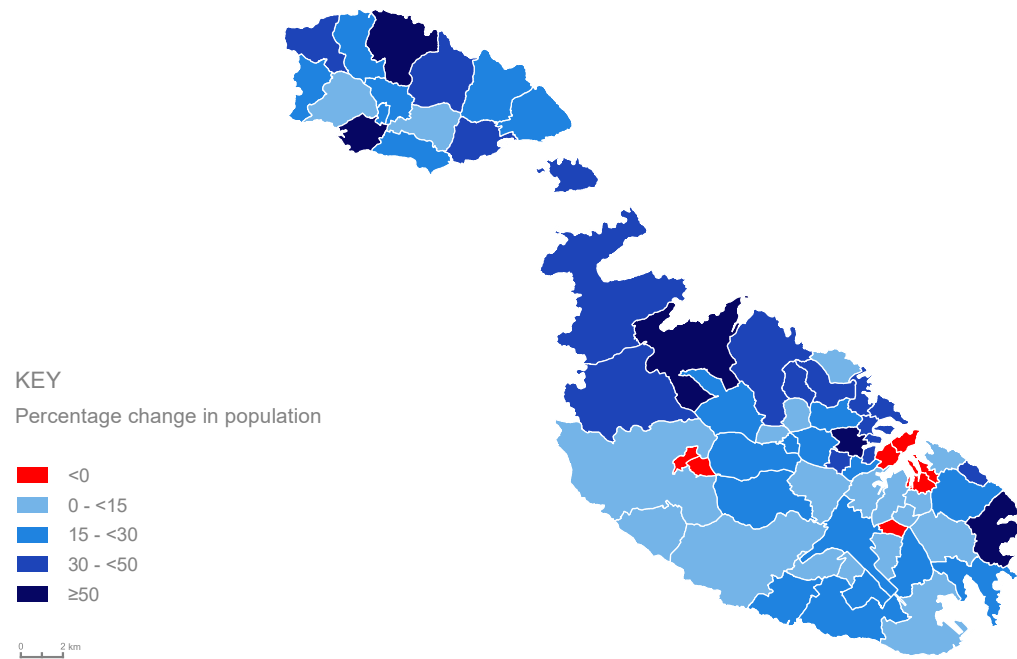

Map 1.1.1 presents information on the change in total population, comprising of Maltese and foreign residents, for selected years 2011 and 2021 at locality level (LAU 2). The highest population growth rates in the Malta region were registered in the localities of San Pawl Il-Baħar, L-Imsida and Marsaskala, while the localities of L-Imdina, L-Isla, Santa Luċija, Bormla, Valletta, Il-Birgu, Floriana and L-Imtarfa recorded negative growth rates. In the Gozo and Comino region, Iż-Żebbuġ and Il-Munxar registered the highest percentage increases in population, while Ta’ Kerċem and Ix-Xewkija recorded the lowest percentage increases.

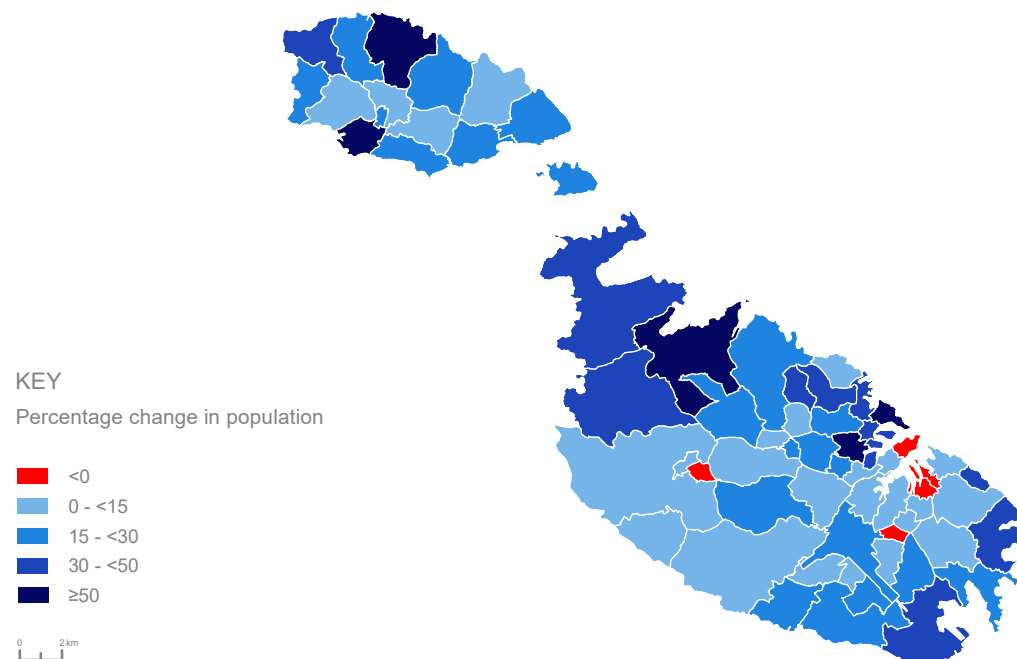

Map 1.1.2 illustrates the percentage change in Maltese population between the years 2011 and 2021 at locality level. In Malta region, San Pawl Il-Baħar registered the highest Maltese population growth rate, followed by L-Imsida and Tas-Sliema, while in Gozo and Comino region, the two localities with the largest growth were Iż-Żebbuġ and Il-Munxar. Most of the localities registered increases between 0 and 40 per cent while six localities recorded declines in the Maltese population.

Map 1.1.3 provides information on the percentage of foreigners to the total population of each locality for the year 2021. In the localities of L-Imsida, San Pawl il-Baħar and Il-Gżira, foreigners accounted to more than 50 per cent of total population, while the localities of L-Imtarfa, Santa Luċija, Ħad-Dingli and L-Imqabba amongst other localities had the lowest percentage of foreigners out of the total population residing in each of the localities.

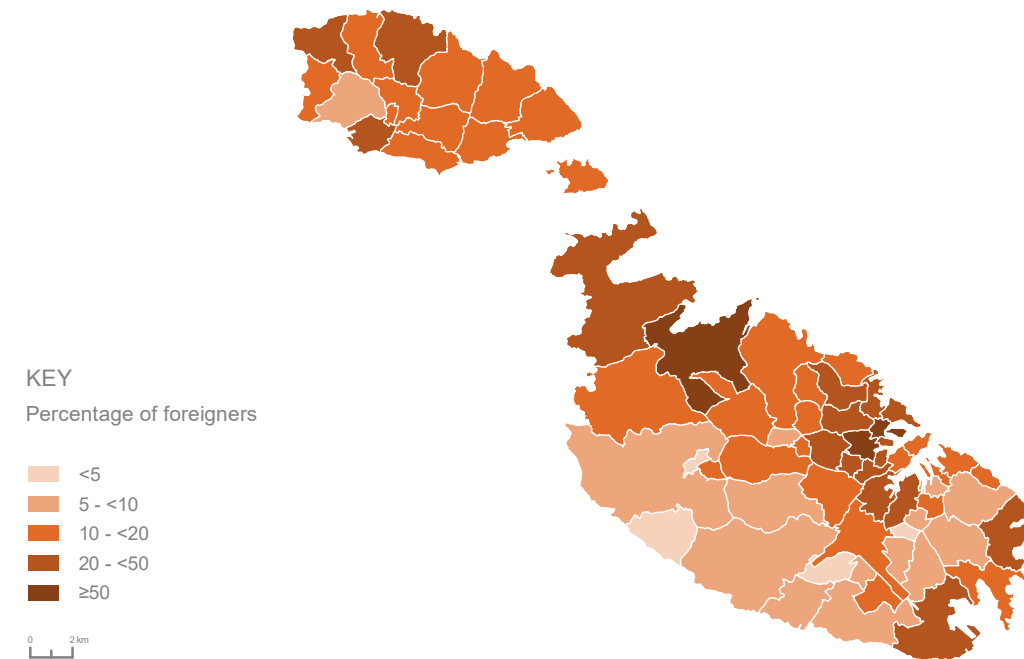

MAP 1.1.1 – Percentage change in total population between the years 2011 and 2021, by locality (LAU 2)

MAP 1.1.2 – Percentage change in Maltese population between the years 2011 and 2021, by locality (LAU 2)

MAP 1.1.3 – Percentage of foreigners to the total population of each locality (LAU 2): 2021

In 2021, there was a 0.5 per cent decline in total resident live births in the Malta region compared to the previous year. The Northern Harbour district recorded 1,173 live births, while the Northern district had 943. Meanwhile, the Gozo and Comino region saw a slight increase in births, reaching a total of 339. **(Table 1.1.6)** In terms of deaths, there were 3,788 recorded in the region of Malta during 2021, representing a 0.7 per cent increase from the previous year. The Northern Harbour district accounted for 28.4 per cent of the total deaths in 2021. Deaths in the Gozo and Comino region increased by 14.3 per cent when compared to 2020. **(Table 1.1.7)** During the period under review, the Northern and South Eastern districts experienced the largest increases in natural population growth, while the Southern Harbour district had negative growth throughout the years. The region of Gozo and Comino also had negative natural population growth in 2015 and 2021. **(Chart 1.1.7)**

In 2021, there were 2,276 marriages registered in MALTA. This reflects an increase of 1,119 marriages when compared to 2020, with an increase of 1,007 marriages registered in Malta region and an increase of 112 marriages in the region of Gozo and Comino. **(Table 1.1.8 and Chart 1.1.8)**

As of 2021, the highest old-age dependency ratio was registered in the Southern Harbour district with 35.3 per cent, followed by the Gozo and Comino region/district (33.5 per cent). This means that in these districts there were approximately three working-age adults for every person aged 65 years or more. On the other hand, the least old-age dependency ratio was at 21.5 per cent and was registered in the Northern district, implying that there were slightly fewer than four adults of working age for every person aged 65 years or more. **(Table 1.1.9)**

CHART 1.1.7 – Natural change in total population by district (LAU 1) and year

Note:
1. *Minor revisions in the registered death data of 2020.

CHART 1.1.8 – Distribution of registered marriages by region (NUTS 3) and year

Note:
1. Data from 2017 onwards includes same-sex marriages. Refer to methodological note 2.

Gozo and Comino	27.6	33.5
Gozo and Comino	27.6	33.5

Notes:

1. Totals may not add up due to rounding.

2. The old-age dependency ratio is the ratio of the number of elderly people at an age when they are generally economically inactive (i.e. aged 65 and over), compared to the number of people of working age (i.e. 15-64 years old). Refer to methodological note 4.

Source: Census of Population and Housing: 2011 and 2021

METHODOLOGICAL NOTES

1. Population figures are in accordance with the 'usual residence' definition.
2. Definitions:
 - **Usual residence** refers to the place where a person normally spends the daily period of rest, regardless of temporary absences for purposes of recreation, holidays, visits to friends and relatives, business, medical treatment or religious pilgrimage. This definition is in line with the European Regulation (EC) No. 1260/2013. The following persons alone shall be considered to be usual residents of a specific geographical area:
 - (a) those who have lived in their place of usual residence for a continuous period of at least 12 months before the reference time; or
 - (b) those who arrived in their place of usual residence during the 12 months before the reference time with the intention of staying there for at least one year.
 - **Usually resident population** refers to all persons who have their usual residence in a Member State at the reference time. Unless otherwise stated, all figures in this chapter refer to this reference population.
 - **Total population** includes both Maltese and foreign residents.
 - **Maltese population** includes Maltese residents only.
 - **Live births resident in Malta** includes all babies whose parent(s) is(are) resident in Malta at the time of birth. Therefore the definition excludes babies born to mothers who are resident abroad.
 - **Total deaths:** all registered resident Maltese and foreign deaths in Malta and Gozo. These counts exclude deaths of tourists, but include Maltese residents who die abroad and whose death is subsequently registered in Malta. This definition excludes still births.
 - **Total registered marriages:** all marriages registered in Malta and Gozo and occurring in the reference year. These include marriages between non-resident foreign spouses and same-sex marriages following the amendment to the Marriage Act which came into force as at 1st September 2017.
3. All population components are based on definitions provided for in the European Regulation (EU) No. 1260/2013 on European demographic statistics.
4. Old Age Dependency Ratio is calculated as follows:

$$\frac{\text{Number of elderly people (aged 65 years or more)}}{\text{Number of working - age people (aged 15 - 64 years)}}$$
5. This data may be subject to revision.

1.2 HOUSEHOLD CHARACTERISTICS

In 2021, the majority of households in MALTA, specifically 93.3 per cent, resided in the Malta region, while 6.7 per cent resided in the Gozo and Comino region. Within the Malta region, the most populated districts were the Northern Harbour and Northern districts. (Table 1.2.1 and Chart 1.2.1)

CHART 1.2.1 – Percentage distribution of households by district (LAU 1) and selected years

CHART 1.2.2 – Distribution of households by household size, region (NUTS 3) and selected years

In 2021, the most common household size for people living in the Malta region was the two-person, the same applies for the Gozo and Comino region. In both 2016 and 2021, the Northern Harbour district had the highest percentage share of households for all five household sizes in Malta. This indicates that the Northern Harbour district remained the most populous district in terms of households across different household sizes during 2021. On the other hand, Gozo and Comino had the lowest percentage share of households for all five household sizes in 2021. This suggests that Gozo and Comino continued to be the least populous district in terms of households across different household sizes. **(Table 1.2.2 and Chart 1.2.2)**

Since 2016, the Malta region has consistently exhibited a higher percentage of females living in households compared to males. Conversely, the Gozo and Comino region has shown a higher percentage share of males to females living in households. Additionally, when examining the districts within the Malta region, the Northern Harbour District, which is the most populous district, also aligns with the trend of having a higher percentage share of females over males living in households. During 2021, the Southern Harbour, South Eastern and Northern districts have experienced a higher percentage of male-headed households over female-headed households. **(Table 1.2.3)**

In 2021, the average household disposable income stood at €32,752 in the region of Malta, an increase of 4.5 per cent over the previous year, while in the region of Gozo and Comino the average household disposable income stood at €30,321, an increase of 0.8 per cent over 2020. The average household disposable income was highest in the Western district at €39,063 and lowest in the Northern Harbour district at €29,648. **(Table 1.2.4 and Chart 1.2.3)**

CHART 1.2.3 – Average household disposable income by district (LAU 1) and year

According to the Statistics on Income and Living Conditions survey, in 2021, 95.1 per cent of persons living in private households in MALTA who were at risk of poverty, resided in the Malta region, while 4.9 per cent resided in the Gozo and Comino region. From a district perspective, the Northern Harbour district, has consistently maintained the highest percentage share of individuals at risk of poverty since 2016. From 2016 to 2020, the Southern Harbour district had the second-highest share of individuals at risk of poverty. However, in 2021, the Northern district surpassed it to become the district with the second-highest percentage share of individuals at risk of poverty (19.2 per cent). **(Table 1.2.5)**

In 2021, the at-risk-of-poverty rates for the Malta region and the Gozo and Comino region were 17.2 and 12.4 per cent respectively. Among the districts within the Malta region, the Northern Harbour district recorded the highest at-risk-of-poverty rate at 19.8 per cent, followed by the Northern district at 19.1 per cent and the Southern Harbour district at 17.6 per cent. This represents a change from previous year, where the Southern Harbour district had the highest rate. **(Table 1.2.6)**

— DID YOU KNOW ?

When compared to 2016, the at-risk-of-poverty rate in the Malta region increased from 16.4% to 17.2% in 2021, whereas in the Gozo and Comino region, this went down from 18.3% to 12.4%.

METHODOLOGICAL NOTES

1. The Statistics on Income and Living Conditions (SILC) survey is an annual enquiry conducted by the National Statistics Office (NSO) among persons residing in private households in Malta and Gozo. This survey is carried out under EU regulation (EU. No. 1177/2003). The main scope of this survey is to enable the compilation of statistics on income distribution and indicators on monetary poverty. SILC also serves to produce reliable quantitative information on social exclusion and material deprivation.

2. Definitions:

The **gross household income** includes:

- Gross employee cash or near cash income;
- Gross non-cash employee income (only company car and associated costs included);
- Gross cash benefits or losses from self-employment (including royalties);
- Unemployment benefits;
- Old-age benefits;
- Survivors' benefits;
- Sickness benefits;
- Disability benefits;
- Education-related allowances;
- Income from rental of property or land;
- Family/Children related allowances;
- Social exclusion not elsewhere classified;
- Housing allowances;
- Regular inter-household cash transfers received;
- Interests, dividends, profits from capital investments in unincorporated business;
- Income received by people aged under 16;
- Income received from individual private pension plans.

The **total disposable income** of a household is calculated by deducting:

- regular inter-household cash transfers paid,
- tax on income, and,
- social insurance contributions

from the total gross household income.

Equivalent household size is calculated according to the "modified OECD" equivalence scale which gives:

- a weight of 1.0 to the first adult;
- a weight of 0.5 to any other household member aged 14+;
- a weight of 0.3 to each child.

The resulting figure, which is the sum of these weights, is attributed to each member of the household.

Equivalent disposable income (referred to also as national equivalised income) is defined as the household's total disposable income divided by its "equivalent size", to take account of the size and composition of the household, and is attributed to each household member. For example a household with 2 adults and 2 children aged less than 14, would have an equivalised household size of $(1+0.5+0.3+0.3) = 2.1$. If the total disposable income earned by the household is €20,000, then the household equivalised income would result in $(€20,000/2.1) = €9,523$.

The **at-risk-of-poverty threshold** is also referred to as the at-risk-of-poverty line or, simply, the poverty line. This is equivalent to 60 per cent of the median national equivalised income of persons living in private households.

The **at-risk-of-poverty rate** refers to the share of persons with an equivalised disposable income below the at-risk-of-poverty threshold.

1.3 SOCIAL PROTECTION

The selection of social benefits shows that the two-thirds pension had the highest number of beneficiaries in both regions during the years under consideration, with 92.6 per cent of the recipients being in the Malta region and 7.4 per cent in the Gozo and Comino region during 2021. In the Malta region, the children’s allowance flat rate and the supplementary allowance were the two other benefits which had the largest number of beneficiaries in 2021; at 27,924 and 21,549 recipients respectively (Table 1.3.1 and Chart 1.3.1). Yet, the corresponding outlay on these two benefits was of only 12.1 and 8.1 per cent of the total social expenditure of the selected benefits (excluding the two-thirds pension benefit), in the region of Malta. The national minimum widows’ pension and the retirement pension benefits had the highest percentage distribution of the selected social protection benefits expenditure (excluding two-thirds pension benefit), in the region of Malta in 2021. (Chart 1.3.2)

In the Gozo and Comino region, the children’s allowance flat rate benefit and the supplementary allowance followed the two-thirds pension in terms of the number of beneficiaries during 2021, benefitting 2,223 and 1,799 recipients respectively (Table 1.3.1 and Chart 1.3.1). The corresponding expenditure on these benefits was of 13.0 and 8.4 per cent of the total social expenditure of the selected benefits (excluding the two-thirds pension benefit), in the region of Gozo and Comino. In 2021, the national minimum widows’ pension and the retirement pension benefits had the highest percentage distribution of the selected social protection benefits expenditure (excluding the two-thirds pension benefit) in the Gozo and Comino region. (Chart 1.3.2)

CHART 1.3.1 – Social protection beneficiaries by type of benefit and region (NUTS 3): 2021

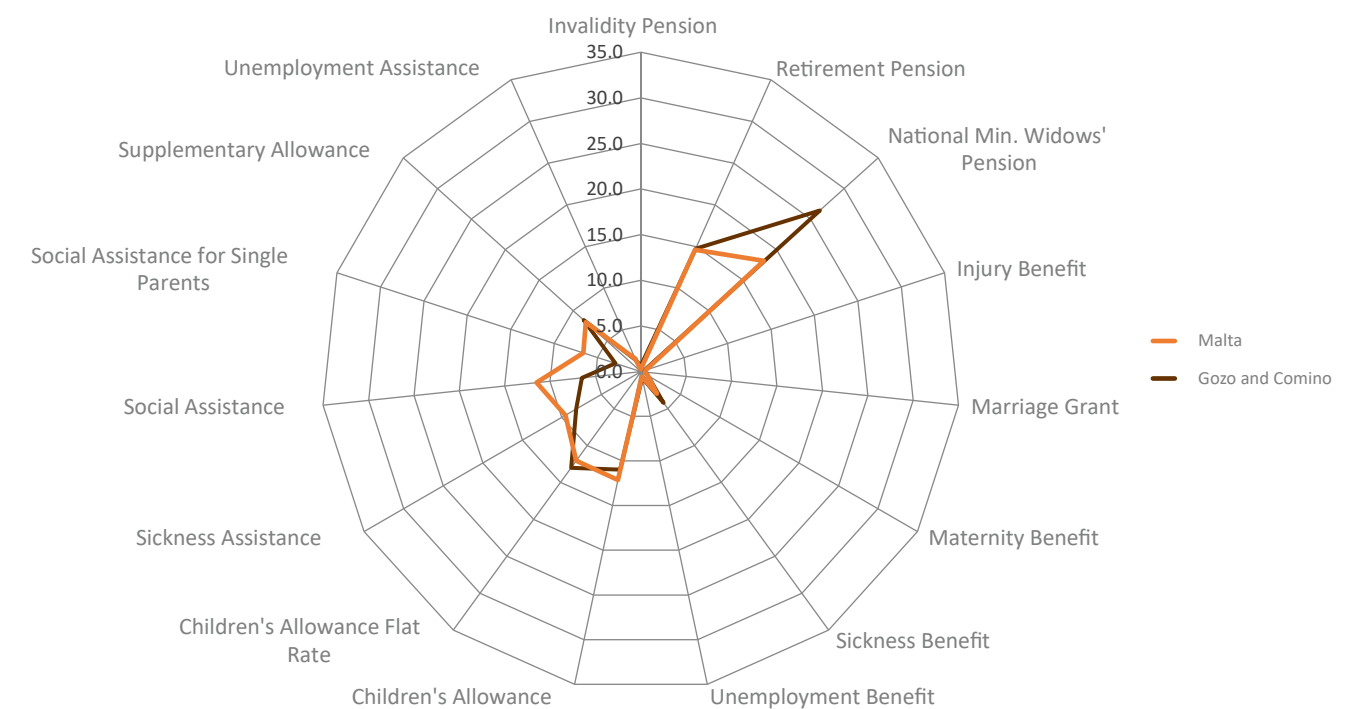

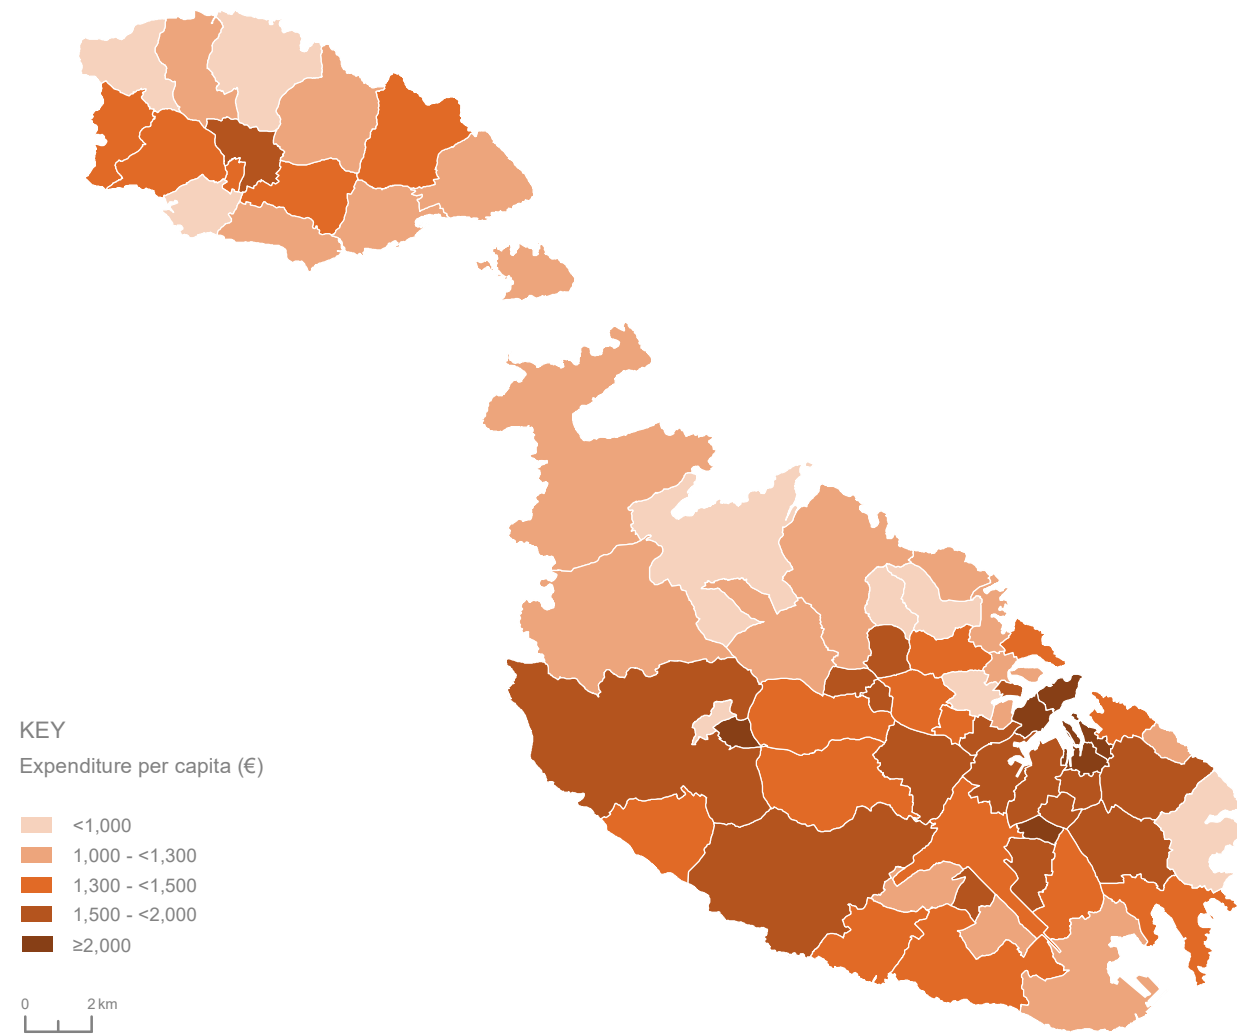

CHART 1.3.2 – Percentage distribution of selected social protection benefits expenditure in the regions of Malta and Gozo and Comino (NUTS 3): 2021

Map 1.3.1 provides information on the expenditure per capita on the selected benefits in each locality in 2021. In the Malta region, the expenditure per capita on the selected benefits was highest in the localities of L-Imdina, Santa Luċija, Il-Birgu, L-Isla, Valletta, Bormla and Floriana where the expenditure per capita was greater than €2,000 in each of the localities. In contrast, the expenditure per capita was less than €1,000 in the localities of San Pawl Il-Baħar, L-Imtarfa, Marsaskala, Is-Swieqi, L-Imsida and al Għargħur. In the region of Gozo and Comino, the expenditure per capita on the selected benefits was highest in Ir-Rabat with expenditure per capita exceeding €1,500. On the other hand, Iż-Żebbug, Il-Munxar and L-Għarb registered the least expenditure per capita of less than €1,000.

MAP 1.3.1 – Expenditure per capita on the selected benefits by locality (LAU 2): 2021

During 2021, the Southern Harbour district registered the highest expenditure per capita reaching €1,698, while the least expenditure per capita was recorded in the Northern district at €1,044.

METHODOLOGICAL NOTES

1. Table 1.3.1 provides a selection of benefits.

2. Definitions:

- **Two-thirds pension:** pension related to earnings, payable to persons who retired after January 1979. This scheme provides for a pension equivalent to two-thirds of the insured person's pensionable income. Maximum and minimum rates apply.
- **Retirement pension:** payable on reaching pension age. The rates and types of categories vary according to various statutory conditions.
- **Invalidity pension:** payable to persons deemed permanently incapable of suitable full-time or regular part-time employment. Rates vary according to different conditions.
- **National minimum widows' pension:** payable to widows, irrespective of age, who are not gainfully occupied, who are occupied but earning less than the national minimum wage and are in receipt of a service pension, or who are carrying out gainful activities but have the care and custody of children under 16 years of age. Rates may vary according to conditions outlined in the Social Security Act. Reference to 'widow' includes 'widower'.
- **Injury benefit:** This benefit is payable for injury at work or contraction of industrial disease. Maximum entitlement is limited to 12 months.
- **Marriage grant:** a one-time payment payable on marriage to persons normally resident in Malta. To be eligible a person must be employed, self-employed or self-occupied for at least six months at any time prior to his/her marriage.
- **Maternity benefit:** payable to local residing pregnant citizens of Malta in respect of the last eight weeks of pregnancy and the first six weeks after childbirth. This benefit is only payable if the female is not entitled to maternity leave from her employer, if employed.
- **Sickness benefit:** comprises an entitlement of 156 days but may be extended to 312 days in certain cases. The first three days of each new claim for this benefit are not reimbursed.
- **Unemployment benefit:** payable to unemployed persons for a period of 156 days. This benefit is considered as a short-term benefit. Subsequently, unemployed persons may qualify for long-term benefits under the 'Social Assistance' category.
- **Children's allowance:** payable to married couples, cohabiting couples, civil union couples, single parents, separated parents or returned migrants who have the care and custody of children under the age of 16 and whose annual household income is below the threshold as established in the Social Security Act (Cap. 318).
- **Children's allowance flat rate:** payable to married couples, cohabiting couples, civil union couples, single parents, separated parents or returned migrants who have the care and custody of children under the age of 16 and whose annual household income exceeds the threshold as established in the Social Security Act (Cap. 318).
- **Sickness assistance:** entitlement is subject to the satisfaction of the Director of Social Security that the claimant or a member of his/her household is suffering from a disease that can only be cured or alleviated by a special diet/regimen that incurs exceptional expenditure.
- **Social assistance:** payable to heads of households who are either unemployed or seeking employment and whose relative financial means are below those established by the Social Security Act. This benefit is also payable to single or widowed males/females who lack financial resources and who are caring for an elderly or handicapped relative on a full-time basis. Social Assistance also includes payments made to persons who satisfy the Director of Social Security that they are no longer capable of employment but do not have sufficient means to support their family.
- **Social assistance for single unmarried parents:** payable to a single parent whose income falls below a certain level. The person's earned income together with the Social Assistance entitlement for two persons should not exceed the National Minimum Wage.
- **Unemployment assistance:** heads of household who are registering under Part 1 of the Unemployment Register may be entitled to unemployment assistance after the period covered by the unemployment benefit has elapsed.
- **Supplementary allowance:** payable to households whose total income falls below the level established by the Social Security Act.

2

EDUCATION

This chapter provides a regional perspective to the natural progression of students through different levels of the education system in MALTA. The data presented is split into non-compulsory and compulsory education, covering state, independent and church institutions. Schooling is compulsory between the ages of five and fifteen and until the last year of secondary school is complete. Non-compulsory education is divided into pre- and post-compulsory; the former comprising kinder level, whereas the latter includes post-secondary and tertiary education. Students and graduates are analysed by the place of residence and location of school.

During the scholastic year 2020/21, there was a total of 85,991 students attending non-compulsory and compulsory education in MALTA. **Chart 2.1** illustrates a demographic summary of the overall student body both in terms of student age, and in terms of the student's district of residence. Most students were aged between three and 17 years, comprising 74.4 per cent of the total student body. The Northern Harbour district represented the highest share of students almost across all ages. (**Chart 2.1**)

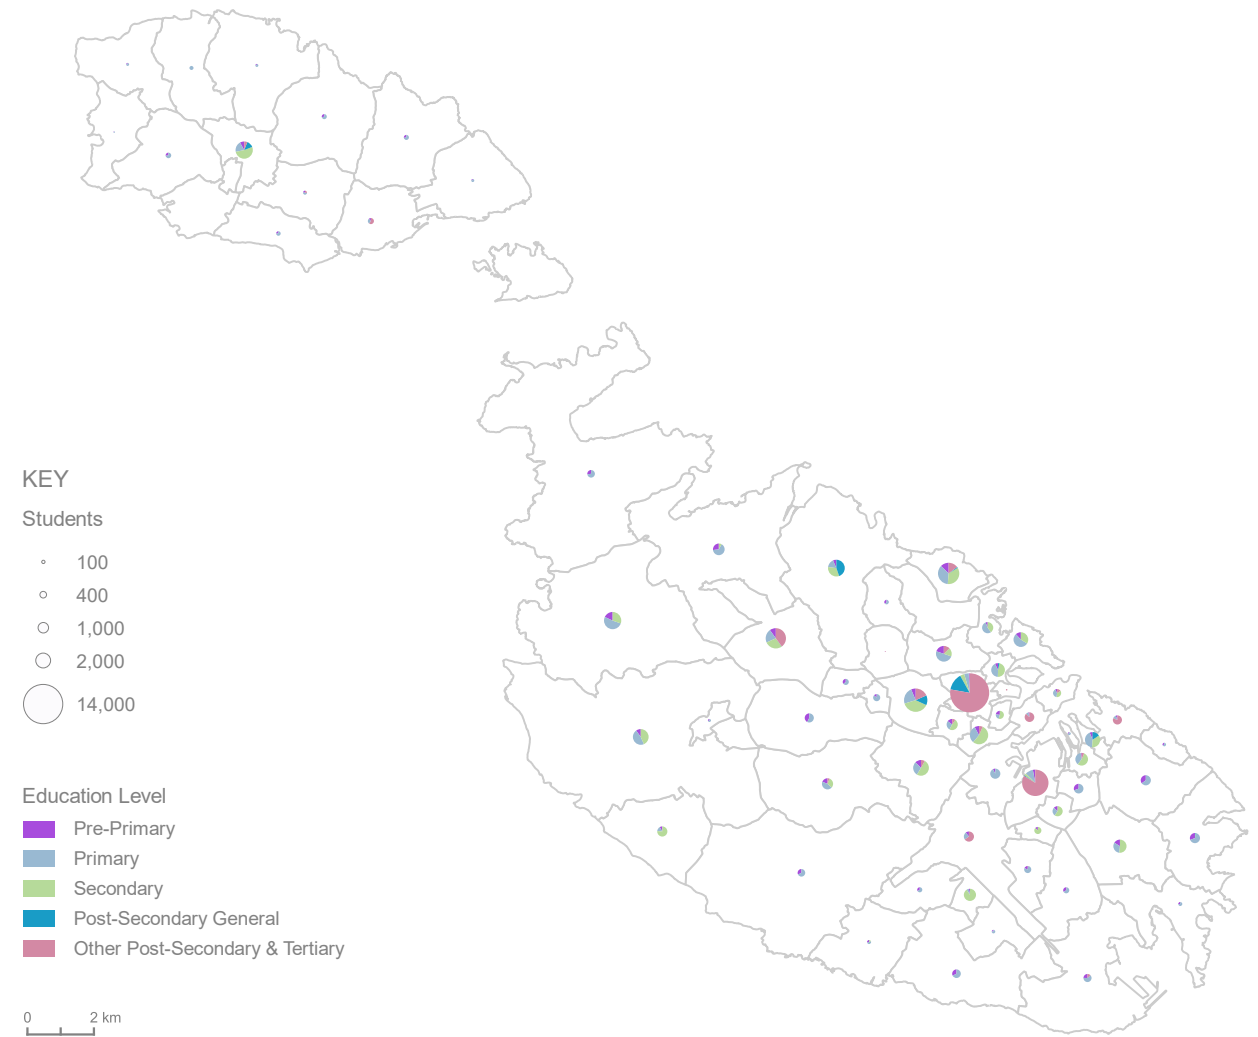

CHART 2.1 – Student body in MALTA by age and district of residence (LAU 1): 2020/21

Note:
1. Student body in the above chart refers to persons in non-compulsory and compulsory education. Data excludes students not residing in Malta or whose residence is unspecified.

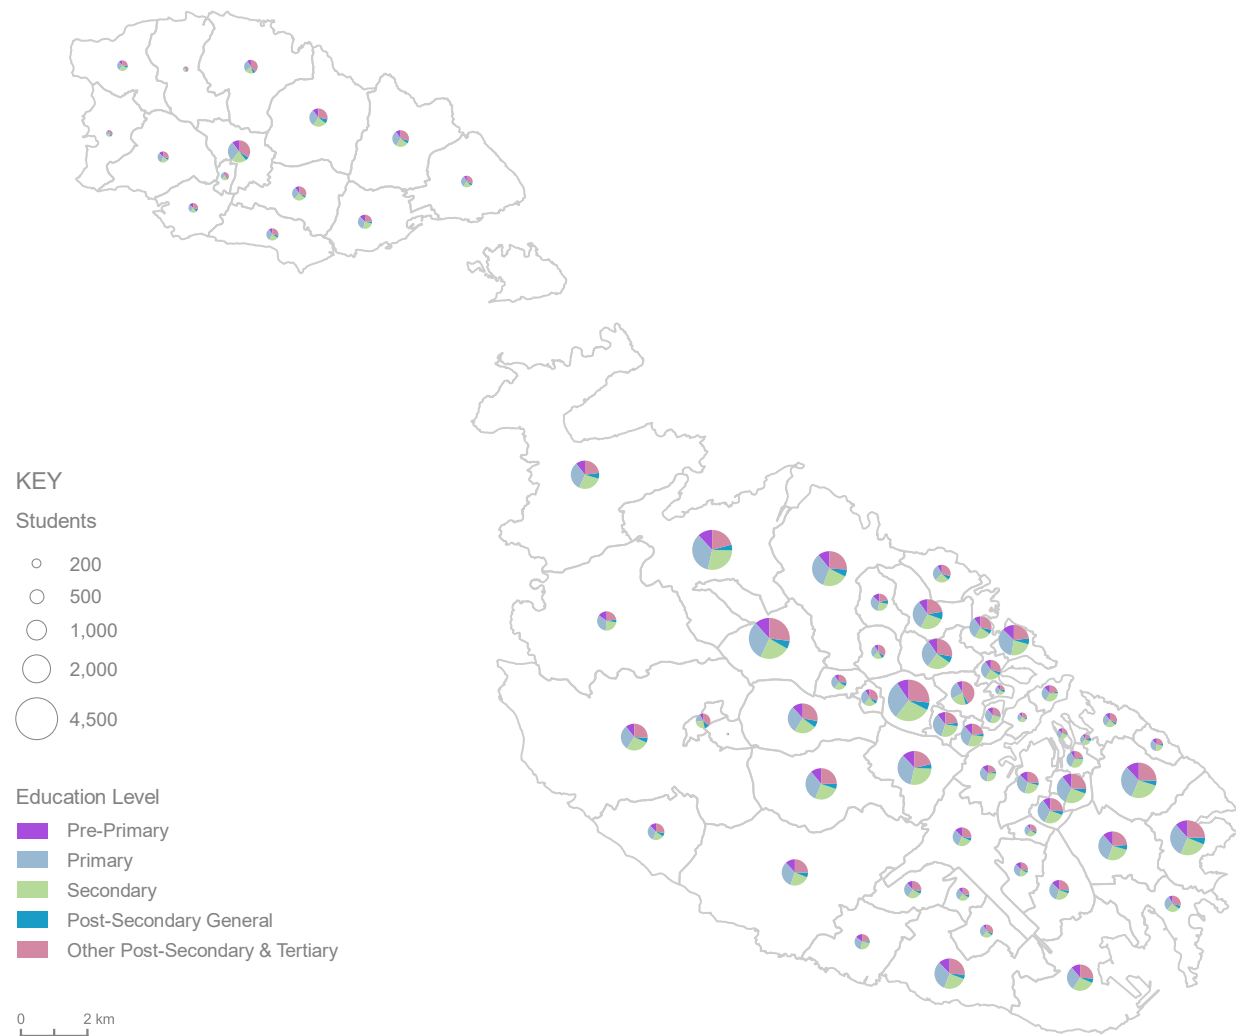

MAPS 2.1 – Student body by educational level/institution and locality of residence (LAU 2): 2020/21

MAP 2.1.1 – Locality of institution (LAU 2): 2020/21

Map 2.1.1 shows a considerable concentration of institutions in the Harbour districts which cater for students at post-secondary and tertiary levels. On the contrary, the majority of localities have institutions at primary and secondary levels.

MAP 2.1.2 – Locality of residence (LAU 2): 2020/21

Map 2.1.2 shows the student population resident in each locality by education level. The size of the circle is by and large reflected by the population size of each locality, however, the composition varies especially with respect to post compulsory levels.

PRE-PRIMARY LEVEL

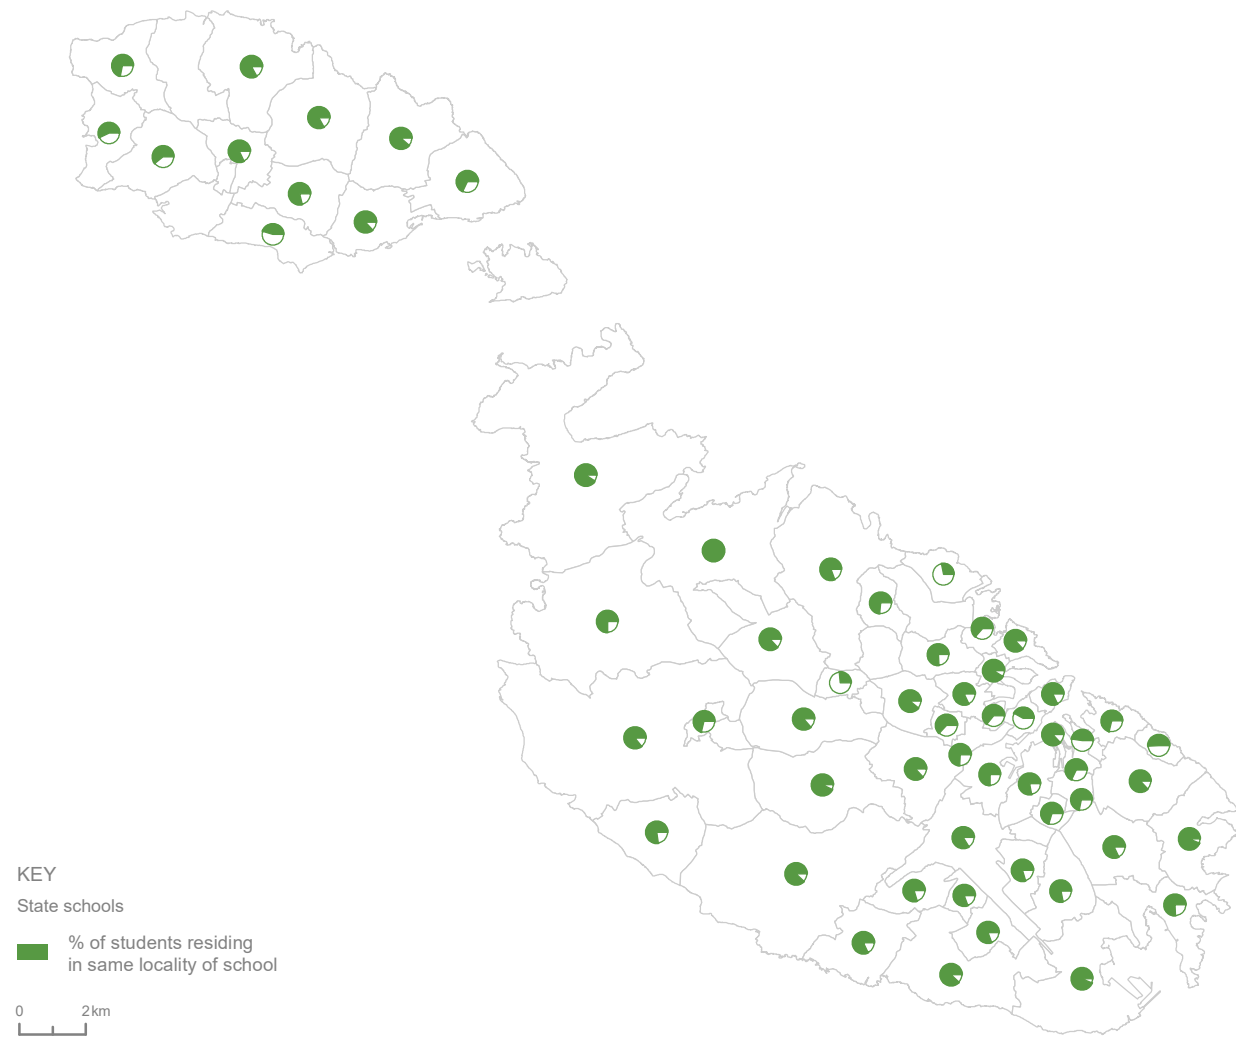

As at end of March 2021, the share of pre-primary students attending state and independent schools amounted to 72.5 and 17.2 per cent respectively, as the remaining attended church schools. The majority of pre-primary students attending state and independent schools were aged three and younger, while the majority of students attending church schools were aged between four and five years old (Table 2.6).

— DID YOU KNOW ?

In 2021, the proportion of young children between the age of three and four years who participated in pre-primary education stood at 97.3% in Gozo and Comino and 91.9% in the Malta region.

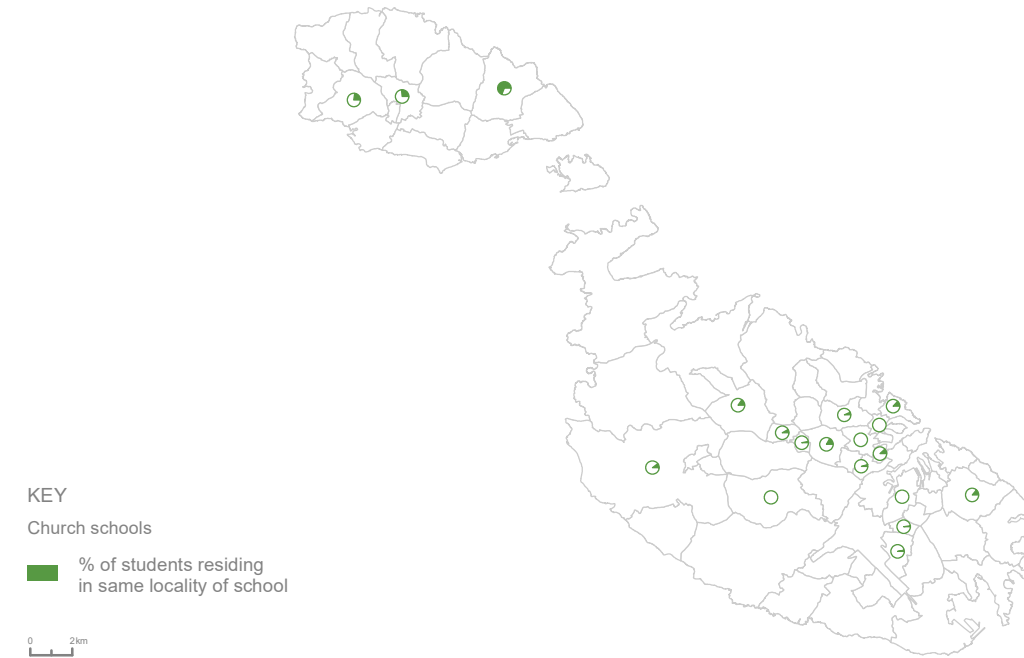

MAPS 2.2 – Pre-primary children by locality (LAU 2) and type of school: 2020/21

MAP 2.2.1 – State Schools

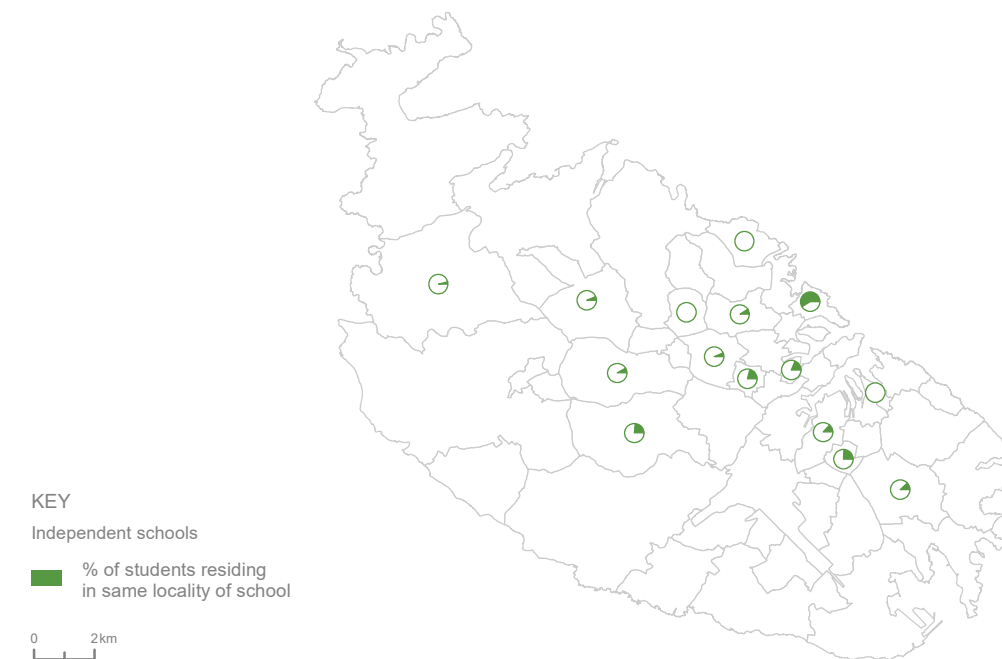

The largest proportion of pre-primary students resided and attended school in the Northern Harbour district (Table 2.1). While most students attending state schools resided in the same locality of the school, the contrary prevailed in the case of church and independent schools. Students who attended schools in the Northern Harbour district were mainly enrolled in state and independent schools at 56.1 and 29.6 per cent respectively. The choice for pre-primary education in the Gozo and Comino district was limited to state and church schools, the former comprising 69.7 per cent of the total. (Maps 2.2 and Table 2.6)

MAP 2.2.2 – Church Schools

MAP 2.2.3 – Independent Schools

Note:
1. Gozo and Comino district is omitted from the map as no presence was registered.

PRIMARY AND SECONDARY EDUCATION

Compulsory education comprises of a six-year primary cycle and five-year secondary cycle. During scholastic year 2020/21, the number of children and adolescents in compulsory education amounted to 48,731 students. State schools accounted for 56.2 per cent of the total students in compulsory education. The spread of students in compulsory education was 55.3 per cent in primary level and 44.7 per cent in secondary level of education. (Table 2.2)

The concentration of students in compulsory education prevailed in institutions located within the Northern Harbour district; with primary and secondary levels comprising 33.2 and 46.4 per cent of the total student body in primary level and total student body in secondary level respectively (Table 2.2).

— DID YOU KNOW ?

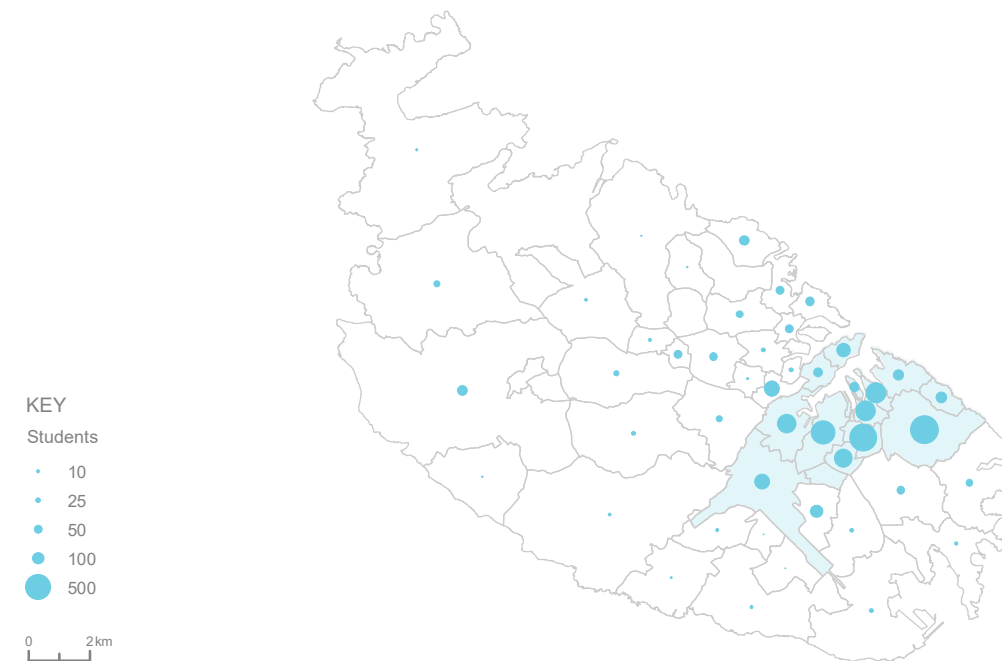

During academic year 2020/21, more than half of the total student body (56.7%) attended compulsory education, with 26,941 students attending primary level education and 21,790 students enrolled in secondary level education.

MAP 2.3.6 – Gozo and Comino

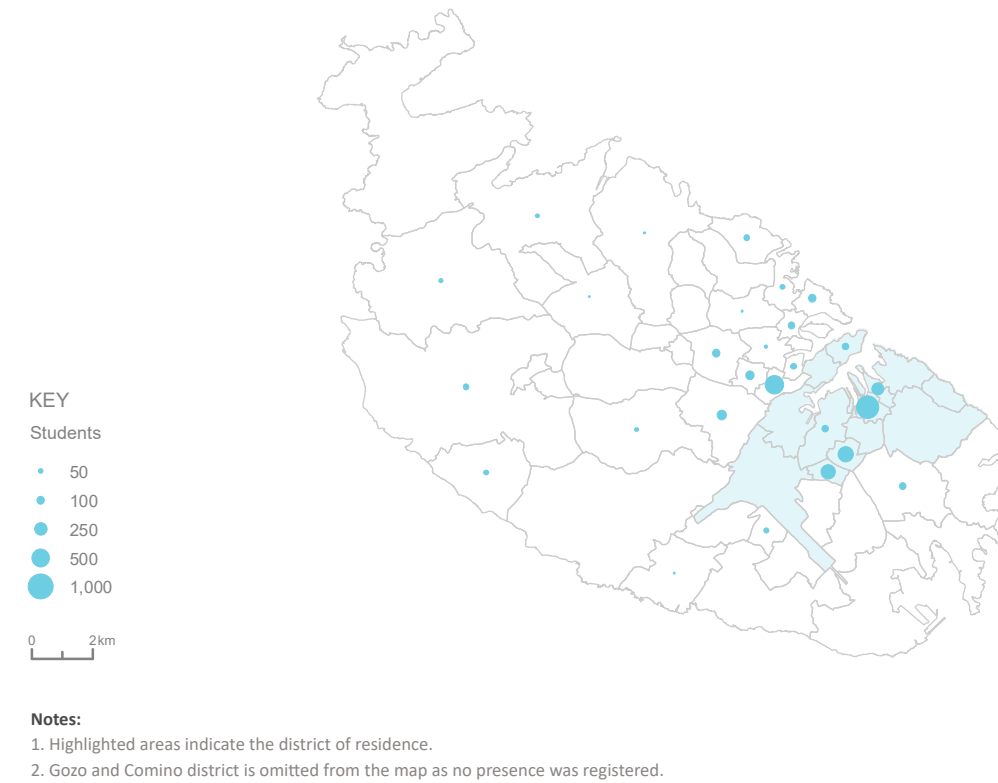

Total students enrolled in primary education were 26,941 students as at March 2021. State schools remained the most popular at 58.1 per cent of total student body in primary level. The majority of church and independent institutions were located within the Northern Harbour district (Table 2.7). Most of the students in primary education attended school in the same district of residence (Table 2.3 and Maps 2.3). The primary schools in the Gozo and Comino district dispersed almost in all localities to cater for all the students residing in this district.

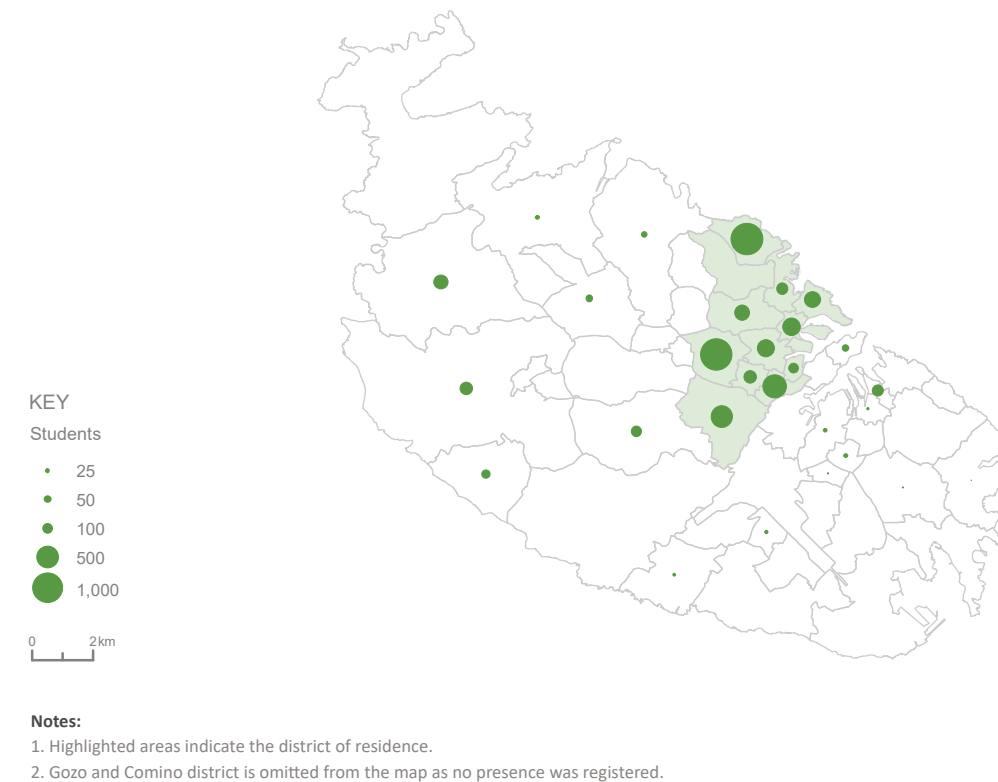

Total students enrolled in secondary education were 21,790 students. Of these, 53.9 per cent attended state schools, followed by church schools at 34.2 per cent (Table 2.8). The behaviour of secondary education students was similar to primary students, in that most students attended institutions in the same district of residence, except for students residing in the Western district, where most of them attended secondary education at institutions located in the Northern Harbour district. Gozo and Comino district catered for almost all its secondary students. (Table 2.4 and Maps 2.4)

POST-SECONDARY GENERAL EDUCATION

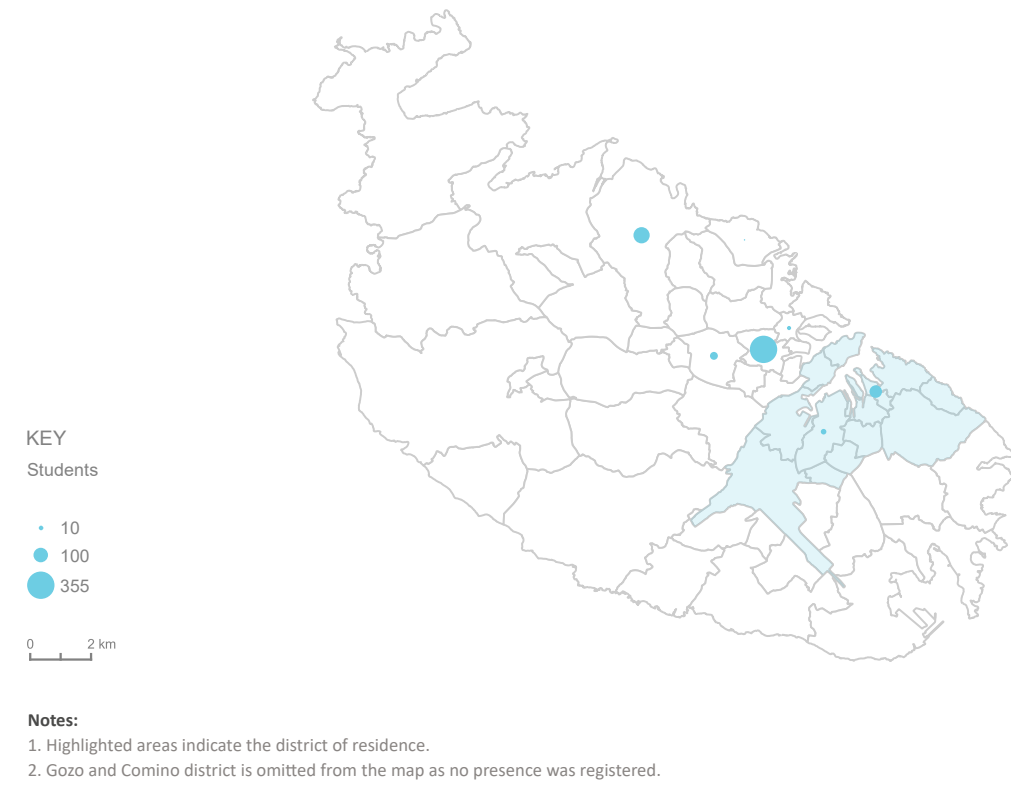

In March 2021, students in post-secondary general education amounted to 4,785, of which 76.8 per cent attended state-run institutions (**Table 2.9 and Chart 2.3**). Most students attended institutions located in the Northern Harbour district at 58.7 per cent (**Table 2.5**). **Maps 2.5** show the district of residence and the locality of the institution at post-secondary general level, illustrating that students residing in Malta region attended mostly institutions located in L-Imnsida and In-Naxxar. On the other hand, the post-secondary institution in Ir-Rabat, Ghawdex catered for the large majority of students residing in the Gozo and Comino region/district. (**Table 2.9**)

— DID YOU KNOW ?

During academic year 2020/21, the shares of students aged 18 years and over who attended post-secondary education in a state-run institution in Malta and Gozo and Comino regions were of 13.5% and 5.1% respectively.

OTHER POST-SECONDARY AND TERTIARY EDUCATION

'Other post-secondary' education refers to students following courses in Malta College of Arts, Science and Technology (MCAST), Institute of Tourism Studies (ITS), University of Malta, and public and private institutions which offer courses at ISCED levels 2 to 4. Tertiary level education refers to students enrolled at MCAST, ITS, University of Malta, and public and private institutions which provide courses at ISCED levels 5 to 8, covering short-cycle tertiary education, Bachelor's level, Master's level, Doctoral level or an equivalent level.

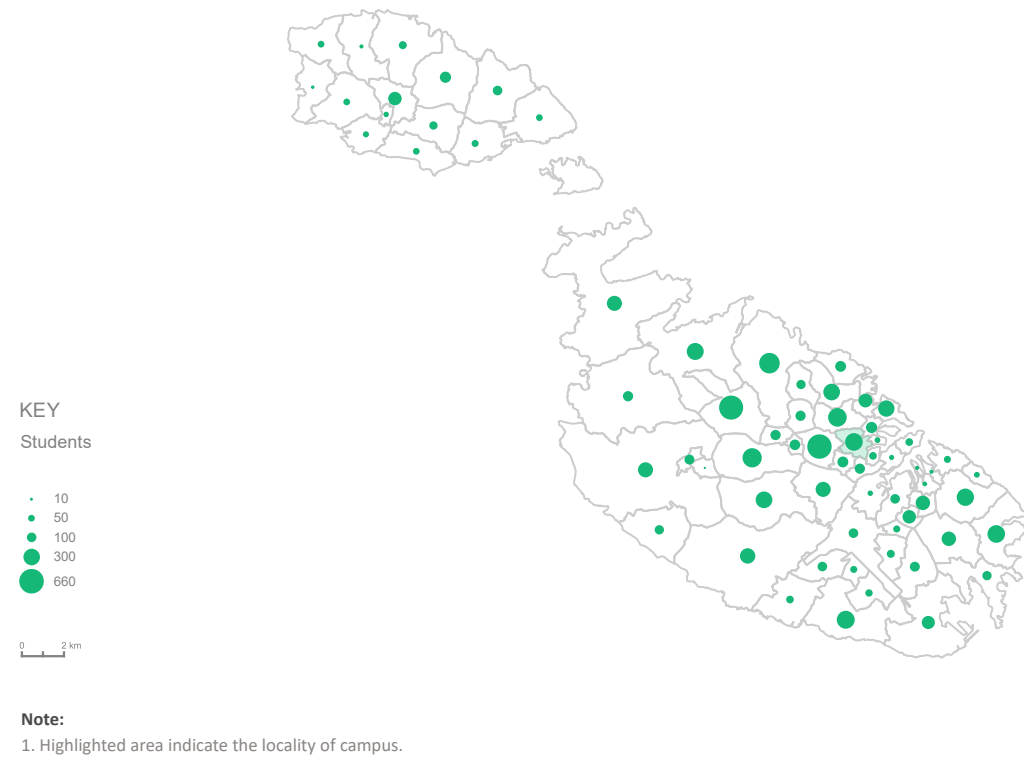

ENROLMENTS

During academic year 2020/21, the number of students attending full-time or part-time courses at other post-secondary or tertiary institutions amounted to 23,159 (**Tables 2.10 and 2.11**). This reflects an increase of 3.9 per cent on the previous academic year 2019/20. The majority of the students followed courses at the University of Malta, MCAST and ITS, with 11,081, 6,647 and 637 enrolments respectively.

Maps 2.6 and 2.7 depict the student body according to locality of residence for each of the two University of Malta campuses (L-Imnsida and Ix-Xewkija), the four vocational MCAST campuses (Raħal Ġdid, Il-Mosta, Ғal Qormi and Ġħajnsielem) and the ITS campus of Ғal Luqa. During academic year 2020/21, there were no students enrolled at the University of Malta campus located in Valletta and the vocational MCAST campus located in Il-Kalkara. The ITS campus located in Il-Qala is being omitted due to the very small number of students attending this campus. Students following courses with unspecified MQF were included in the maps, while students registered with a foreign address or whose residence was unspecified were excluded.

MAPS 2.6 – Students following courses at the University of Malta by locality of residence and locality of campus (LAU 2): 2020/21

The majority of students following other post-secondary and tertiary education were females at 56.3 per cent of the student body in scholastic year 2020/21 (excluding those students whose residence and/or MQF level was unspecified). This implied an increase of 5.0 per cent when compared to situation in 2019/20, with most of the female students following courses at MQF levels 6 and 7. The remaining 43.7 per cent of the total in 2020/21 comprised of male students, who on the contrary registered a decrease of 0.4 per cent when compared to the previous academic year (Table 2.10 and Chart 2.4).

CHART 2.4 – Students at other post-secondary and tertiary institutions by MQF level, sex and scholastic year

Notes:
 1. The above chart excludes courses with unspecified MQF level and students not residing in Malta or whose residence is unspecified.
 2. Figures for academic year 2018/19 have been revised.

Excluding only those students whose residence is unspecified, when compared to 2019/20, the majority of districts registered an increase in the number of student enrolments, except for male students in the Southern Harbour, Northern Harbour and Western districts, and female students residing in the Western district (Table 2.11). The largest share of male and female students hailed from the Northern Harbour district at 28.0 and 26.7 per cent respectively (Chart 2.5).

CHART 2.5 – Percentage distribution of students at other post-secondary and tertiary institutions by sex and district of residence (LAU 1): 2019/20 and 2020/21

Notes:
 1. The above chart excludes students not residing in Malta or whose residence is unspecified.
 2. Courses MQF unspecified are being included in the districts data.

FIELD OF STUDY

Similar to academic year 2019/20, the three most popular fields of study in academic year 2020/21 were Business, administration and law, at 24.6 per cent, Health and welfare at 16.9 per cent and Education at 12.2 per cent of total student body attending other post-secondary and tertiary education institutions. The field with the highest percentage increase in popularity between 2019/20 and 2020/21 was that of Education (18.2 per cent), followed by Agriculture, forestry, fisheries and veterinary (15.7 per cent). On the other hand, the fields of General programmes and Art and humanities have experienced the largest decreases in popularity of 30.0 and 3.2 per cent, respectively (Table 2.11).

— DID YOU KNOW ?

During academic year 2020/21, approximately one in every four students residing in Malta region attended courses related to Business, administration and law, while the most popular field of study amongst students residing in Gozo and Comino was Health and welfare (27.6%).

GRADUATES

Graduates from other post-secondary and tertiary education amounted to 8,840 during academic year 2020/21 (excluding those students whose residence and/or MQF level was unspecified), an increase of 18.9 per cent when compared to 2019/20. Female graduates outnumbered male graduates in all MQF levels, except for MQF levels 1 – 3 and 8 (Table 2.12 and Chart 2.6). The majority of graduates (31.5 per cent) obtained a Bachelor’s degree or equivalent MQF level 6, followed by MQF levels 7 – 8 at 25.9 per cent during academic year 2020/21. When compared to 2019/20, these constitute an increase of 6.4 per cent at MQF level 6 and an increase of 6.1 per cent at MQF levels 7 – 8 (Table 2.12).

CHART 2.6 – Graduates from other post-secondary and tertiary institutions by MQF level, sex and district of residence (LAU 1): 2020/21

Note:
1. The above chart excludes courses with unspecified MQF level and graduates not residing in Malta or whose residence is unspecified.

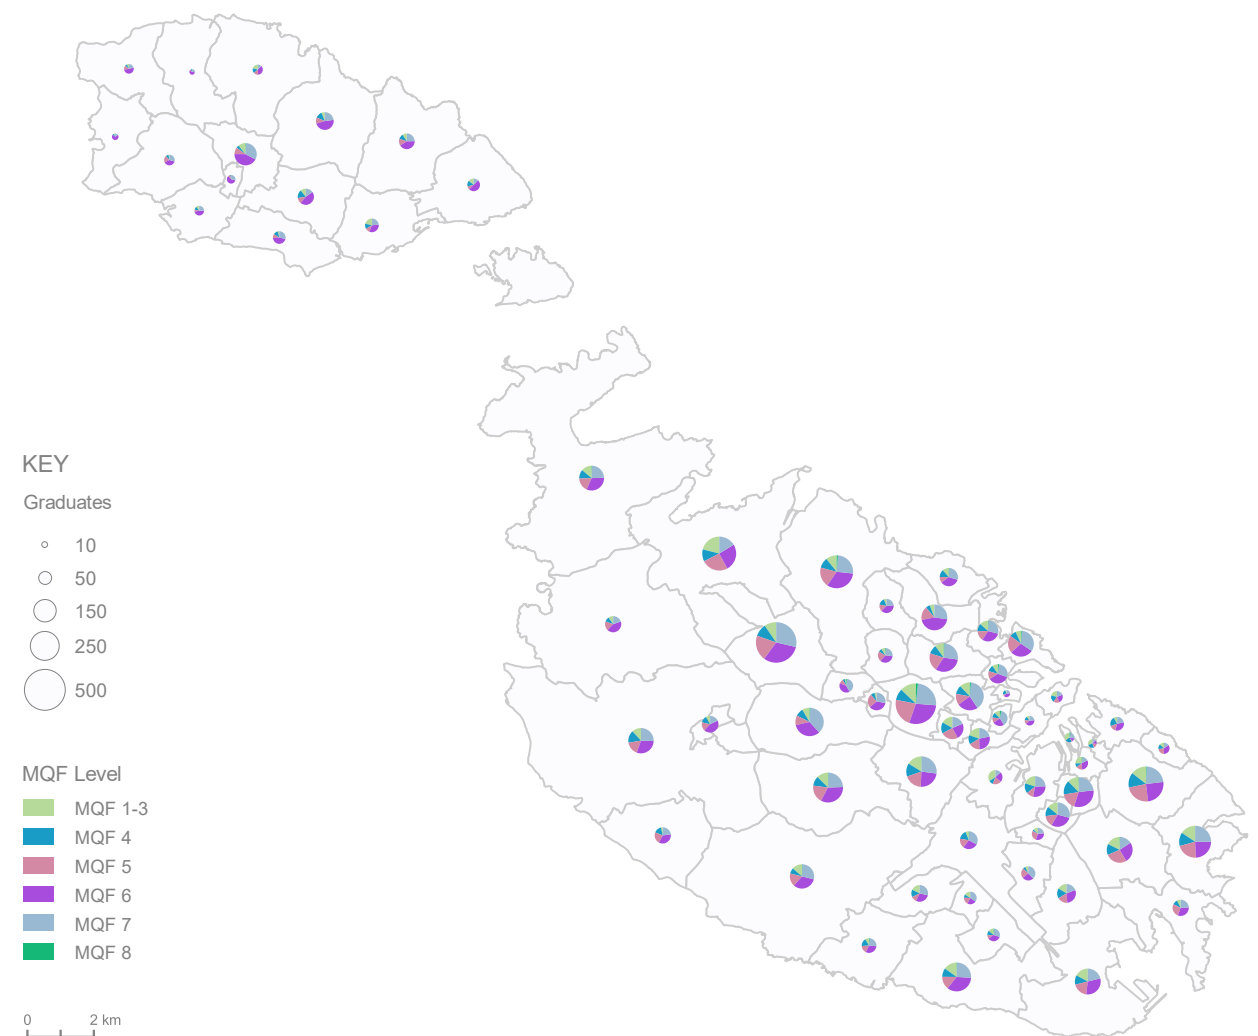

— DID YOU KNOW ?

During academic year 2020/21, the proportion of graduates relative to enrolments was highest in the Southern Harbour district (42.1%) followed by the Northern district (40.7%), whilst the lowest proportion was in the Gozo and Comino region (36.8%) followed by the Western district at 39.6%.

The majority of graduates resided in the Northern Harbour district followed by the Northern district at 27.1 and 17.1 per cent respectively. The field of Business, administration and law was the most popular field of study amongst males followed by Information and communication technologies. On the other hand, the field of Education was the most popular amongst female graduates followed by Business, administration and law (Table 2.13).

Map 2.8 shows the graduates from other post-secondary and tertiary institutions by MQF level and locality of residence. The map shows that the six most popular localities of residence of graduates were, Birkirkara, Il-Mosta, Ħaż-Żabbar, San Pawl il-Baħar, In-Naxxar and Marsaskala. Graduates whose residence and/or MQF level was unspecified were not included in the map.

MAP 2.8 – Graduates from other post-secondary and tertiary education by locality of residence (LAU 2) and MQF level: 2020/21

REGIONAL AND DISTRICT ANALYSIS OF GRADUATES PER 1,000 POPULATION

Chart 2.7 illustrates graduates from other post-secondary and tertiary education. To facilitate regional analysis and feature situations in smaller districts, comparisons were conducted per 1,000 inhabitants to standardise relationship between graduates and population across the different regions and districts. Variations in educational attainment across districts prevailed mostly in MQF levels 6 and 7, with variations narrowing down at lower MQF levels and uppermost level.

CHART 2.7 – Graduates per 1,000 population by MQF level and district of residence (LAU 1): 2020/21

The share of graduates at MQF level 6 per 1,000 inhabitants was highest in Gozo and Comino and Western districts at 8.3 and 6.7 respectively whereas that for MQF level 7 was highest in the Western and South Eastern districts at 5.5 and 4.5 correspondingly. The lowest share with regards to MQF level 6 was in the Northern Harbour with a share of 4.5, while that of MQF level 7 was in the Northern district at 3.8. Uppermost share in respect to MQF level 8 was registered in the Northern Harbour district at 0.1 per 1,000 inhabitants.

Charts 2.8 and 2.9 depict the share of graduates per 1,000 inhabitants by MQF level and region for females and males respectively. Females outperformed males in all MQF levels, except for levels 2, 3 and 8. The highest gender discrepancies were recorded in MQF levels 5 and 6 respectively.

CHART 2.8 – Female graduates per 1,000 population by MQF level and region (NUTS 3): 2020/21

CHART 2.9 – Male graduates per 1,000 population by MQF level and region (NUTS 3): 2020/21

The region of Gozo and Comino observed the highest gender discrepancy particularly at MQF levels 6 and 7. In addition, female graduates in Gozo and Comino region surpassed those in Malta region across MQF levels 6 and 7. In the case of males, the share of male graduates per 1,000 male population is higher in Gozo and Comino region at MQF level 6.

METHODOLOGICAL NOTES

- Education statistics are processed by the National Statistics Office (NSO) on an annual basis in accordance with European Regulations (EC) 452/2008 and (EU) 912/2013. These regulations establish the basis of information to be collected from educational institutions at all levels of education and all economic sectors. By adhering to these regulations, all education statistics collected and processed by the NSO are comparable to other European countries following the same regulatory standards.
- Data collection is carried out during the second half of each academic year. The reference period for the information provided is the end of March of the reference academic year.
- All information required for pre-primary to secondary state administered educational institutions is obtained from register data provided directly from the Ministry for Education, Sport, Youth, Research and Innovation (MEYR). Questionnaires for pre-primary, primary and secondary non-state, and for post-secondary and tertiary educational institutions are sent via email.
- Provision of education for early years in Malta consists of the non-compulsory and compulsory sectors. For the purpose of this publication, the non-compulsory sector at the lower levels comprises pre-primary education for three to four-year-olds, Kinder 1 and Kinder 2. Children who attend a childcare centre are being excluded from the total children in pre-primary level. Compulsory education is sub-divided into a six year primary cycle (five to 10-year-olds) and five years of secondary education (11 to 15-year olds).
- Student figures in primary and secondary levels include students attending special schools.
- Data includes students enrolled in formal education with a minimum duration of one semester of full-time study (or the equivalent in part-time) which are delivered in Malta. This publication excludes short courses (duration of less than the equivalence of one full-time semester), and courses not delivered in Malta.
- For the purpose of this publication ‘post-secondary general level’ refers to students enrolled at ISCED level 3 in Sixth Forms: Junior College, Sir M.A. Refalo, Giovanni Curmi Higher Secondary, St. Edwards College, St. Martin’s College, Verdala International School, QSI International School of Malta, Malta Crown International Boarding School (known as Russian Boarding School Malta Crown Ltd prior to 2021), De La Salle College, St. Aloysius College, St. Thomas More College, ALP+, GEM16+ Education Programme Centre.
- For the purpose of this publication ‘other post-secondary’ refers to students enrolled / graduates in MCAST, ITS, University of Malta, and public and private institutions offering courses at ISCED levels 2 to 4.
- Tertiary level refers to students enrolled / graduates at MCAST, ITS, University of Malta, and public and private institutions offering courses at ISCED levels 5 to 8.
- For the purpose of this publication, the public and private institutions which offer courses at ‘other post-secondary’ and tertiary level are: Advenio eAcademy, Agency for the Welfare of Asylum Seekers, Aġenzija Żgħażaġh, American University of Malta, Avanza Academy, Beautytech Hair and Beauty Academy, Central Mediterranean Business School (previously Academy of Business Leaders Malta), Centre for Child Development, Education and Care Studies: CDEC, College of Remote and Offshore Medicine Foundation, Domain Academy, EAPTI - Gestalt Psychotherapy Training Institute Malta, EEC-ITIS Malta Tourism & Languages Institute, European Institute for Medical Studies (EIMS) H.E.I., European Forensic Institute Limited, European Graduate School, Future Focus, GBSB Global Business School, Global College Malta, Global Connect Academy, Global Institute of Theology, Idea Leadership and Management Institute, IFT Malta, IJF Academy Foundation, Institute for Education, International School of Beauty Therapy, ITS, Jobsplus, Johane Casabene Dance Conservatoire, Learning Works Ltd, Learnkey Institute, London School of Commerce, Malta Business School, Malta City College, Malta Institute of Management, Malta Leadership Institute, MCAST, Middlesex University Malta, MISCO Consulting Ltd, MX Institute for Higher Education Ltd, Online Live Casino Academy Ltd, Outlook Coop, Pegaso International, Queen Mary University of London Malta Limited, Saint Martin’s Institute of Further Education, Saint Martin’s Institute of Higher Education, SMC Education Group Limited, St Gabriel’s Institute, STC Higher Education, Support & Supply Management Group Ltd, The Hair Tuition Centre, Transcontinental Institution of Higher Education, UCM United Campus of Malta Higher Education Institution Foundation, and University of Malta.
- Definitions:
 - Formal education** is an institutionalised, intentional and planned type of education which is provided by public organisations and recognised private bodies. It consists primarily of initial education designed for children and young people before their first entry to the labour market. It also includes other types of education such as vocational, special needs and adult education provided they are recognised as part of the formal education system by the relevant national education authorities.
 - Graduates** refer to students who successfully complete an educational programme during the reference year and are awarded a qualification.
 - Compulsory education** covers education from primary to upper secondary levels - from Year 1 to Year 11. Schooling is compulsory between the ages of five and fifteen and until the last year of secondary school is complete (as established by Chapter 605 of the Laws of Malta - The Education Act).

- General education programmes** are designed to develop learners’ general knowledge, skills and competencies, as well as literacy and numeracy skills, often to prepare students for more advanced education programmes at the same or higher MQF levels and to lay the foundation for lifelong learning.
- Vocational education programmes** are designed for learners to acquire the knowledge, skills and competencies specific to a particular occupation, trade or class of occupations or trades. Vocational education may have work-based components. Successful completion of such programmes leads to labour market-relevant vocational qualifications acknowledged as occupationally-oriented by the relevant national authorities and/or the labour market.
- Age** is calculated as at 1st January of the reference academic year.
- Fields of study**
ISCED Fields of Education and Training classifies educational programmes and related qualifications by fields of study. A field is the broad domain, branch or area of content covered by an education programme or qualification.
ISCED Fields of Education and Training 2013 classification:
00 Generic programmes and qualifications
01 Education
02 Arts and humanities
03 Social sciences, journalism and information
04 Business, administration and law
05 Natural sciences, mathematics and statistics
06 Information and communication technologies
07 Engineering, manufacturing and construction
08 Agriculture, forestry, fisheries and veterinary
09 Health and welfare
10 Services
- Malta Qualifications Framework (MQF)**
The level descriptors of the Malta Qualifications Framework (MQF) were originally introduced by Legal Notice 347 of 2005. These represent neutral reference points to be used for all qualifications, be they academic, vocational, formal, informal and non-formal. The level descriptors are useful for education and training providers, and for employers. The MQF is structured as follows:

MALTA QUALIFICATIONS FRAMEWORK			
[(Regulation 3(1))]			
1. The Malta Qualifications Framework shall be represented as follows:			
8	DOCTORAL DEGREE		8
7	MASTER'S DEGREE POSTGRADUATE DIPLOMA POSTGRADUATE CERTIFICATE		7
6	BACHELOR'S DEGREE		6
5	UNDERGRADUATE DIPLOMA UNDERGRADUATE CERTIFICATE	FOUNDATION DEGREE HIGHER VOCATIONAL EDUCATION AND TRAINING DIPLOMA	5
4	MATRICULATION LEVEL ADVANCED LEVEL INTERMEDIATE LEVEL	VOCATIONAL EDUCATION AND TRAINING DIPLOMA	4(d)
3	GENERAL EDUCATION LEVEL 3 SEC Grade 1-5	VOCATIONAL EDUCATION AND TRAINING LEVEL 3	3(c)
2	GENERAL EDUCATION LEVEL 2 SEC Grade 6-7	VOCATIONAL EDUCATION AND TRAINING LEVEL 2	2(b)
1	GENERAL EDUCATION LEVEL 1 SCHOOL LEAVING CERTIFICATE	VOCATIONAL EDUCATION AND TRAINING LEVEL 1	1(a)

- Locality of Residence** refers to the locality where the student is recorded to reside, according to the LAU classification.
 - Locality of Institution** refers to the locality where the physical campus is registered, according to the LAU classification.
- More information relating to ISCED, ISCED Fields of Education and MQF may be accessed at:

3

LABOUR MARKET

This chapter analyses the situation of the regional labour market for the years 2019 to 2021 by sex. It presents regional employment by industry NACE A*10/11 by place of residence and by place of work. Full-time employment is subdivided into private and public sectors whereby the former is further divided into self-employed and employees. Part-time employment is also segregated into self-employed and employees. Analysis on unemployment and average annual basic salary is provided at district level.

TOTAL EMPLOYED PERSONS IN MALTA AND GOZO AND COMINO REGIONS (NUTS 3)

In 2021, total employed persons (full-time and part-time as a primary job) in MALTA amounted to 276,521, an increase of 4.4 per cent when compared to the previous year. The shares of the Gozo and Comino region by place of residence and place of work stood at 6.9 and 5.5 per cent respectively.

Employed persons in Malta region (by place of work), exceeded the total number of employed persons resident in Malta region (by place of residence). The contrary prevailed in the case of Gozo and Comino region. The difference represents the net balance of commuter workers across the respective regions. Commuter workers were predominantly Gozo and Comino residents working in the Malta region, accounting to 3,614 employed persons during 2021. This implied that approximately one out of every five employed persons resident in Gozo and Comino region worked in the Malta region and 52.4 per cent were females. (Tables 3.1 and 3.2)

In 2021, the highest proportion of employed persons in MALTA were in *wholesale and retail trade; repair of motor vehicles and motorcycles; transportation and storage; accommodation and food service activities* (G, H and I) and the *public administration and defence; compulsory social security; education; human health and social work activities* (O, P and Q) at 25.0 and 23.0 per cent respectively (Tables 3.1 and 3.2).

Malta region had the highest proportion of employed persons in the *wholesale and retail trade; repair of motor vehicles and motorcycles; transportation and storage; accommodation and food service activities* (G, H and I), while in the Gozo and Comino region the majority worked in the *public administration and defence; compulsory social security; education; human health and social work activities* (O, P and Q) (Tables 3.1 and 3.2).

— DID YOU KNOW ?

During 2021, the largest share of employed persons in Malta region worked in the *wholesale and retail trade; repair of motor vehicles and motorcycles; transportation and storage; accommodation and food service activities* (G, H and I), of which 64.2% were males. In the Gozo and Comino region, most of the employed persons worked in the *public administration and defence; compulsory social security; education; human health and social work activities* (O, P and Q) with the majority of them (56.5%) being females.

FULL-TIME EMPLOYMENT IN MALTA REGION

By place of residence

In 2021, Malta residents who worked on a full-time basis reached 226,430, an increase of 4.1 per cent when compared to 2020 (Table 3.3). The private sector amounted to 79.9 per cent of the total, while the remaining worked in the public sector (Chart 3.1).

CHART 3.1 – Full-time employment by region (NUTS 3), sector, location and selected years

By place of work

Full-time employment in Malta region in 2021 stood at 230,034, reflecting an increase of 4.0 per cent over 2020. Full-time employment in the private sector accounted for 79.4 per cent of the total, the remaining 20.6 per cent being in the public sector (Table 3.4 and Chart 3.1). The males who worked in the private sector accounted for 50.0 per cent of total full-time employment in Malta region (Chart 3.2). The highest proportion of full-time employment in Malta region was registered in the *wholesale and retail trade; repair of motor vehicles and motorcycles; transportation and storage; accommodation and food service activities* (G, H and I) which accounted to 23.7 per cent of the total (Chart 3.3).

CHART 3.2 – Percentage distribution of full-time employment in persons by region of work (NUTS 3), sector and sex: 2021

CHART 3.3 – Percentage distribution of full-time employment by region (NUTS 3), industry and place of work: 2021

FULL-TIME EMPLOYMENT IN GOZO AND COMINO REGION

By place of residence

In 2021, Gozo and Comino residents with a full-time job totalled 16,784, reflecting an increase of 5.9 per cent when compared to 2020. The private sector accounted to 64.5 per cent of the total (**Table 3.3 and Chart 3.1**).

The largest share of Gozo and Comino residents with a full-time job in the public sector was in the *public administration and defence; compulsory social security; education; human health and social work activities* (O, P and Q), amounting to 81.4 per cent of total public sector. On the other hand, the largest proportion of full-time employed Gozo and Comino residents in the private sector worked in the *wholesale and retail trade; repair of motor vehicles and motorcycles; transportation and storage; accommodation and food service activities* (G, H and I), accounting to 30.1 per cent of total private sector (**Chart 3.4a**). In addition, both the males and females who were Gozo and Comino residents and worked full-time were predominantly employed in the *public administration and defence; compulsory social security; education; human health and social work activities* (O, P and Q) (**Chart 3.4b**).

CHART 3.4a – Full-time employment of Gozo and Comino residents by sector, industry and place of residence: 2021

CHART 3.4b – Full-time employment of Gozo and Comino residents by sex, industry and place of residence: 2021

By place of work

In 2021, full-time employment in Gozo and Comino region amounted to 13,180, an increase of 7.2 per cent when compared to 2020 (Table 3.4). Full-time employment in the private sector accounted for 69.7 per cent of the total and the males who worked in this sector accounted for 44.3 per cent of total full-time employment in Gozo and Comino region (Charts 3.1, 3.2 and 3.5).

CHART 3.5 – Full-time employment in Gozo and Comino region by sector, sex and year

The largest share of full-time employment in the private sector was in the *wholesale and retail trade; repair of motor vehicles and motorcycles; transportation and storage; accommodation and food service activities* (G, H and I) at 32.9 per cent. In the public sector, the share of *public administration and defence; compulsory social security; education; human health and social work activities* (O, P and Q) accounted for 76.4 per cent (Chart 3.6a). Full-time males in the Gozo and Comino region were predominantly employed in the *wholesale and retail trade; repair of motor vehicles and motorcycles; transportation and storage; accommodation and food service activities* (G, H and I) while the females were mainly employed in the *public administration and defence; compulsory social security; education; human health and social work activities* (O, P and Q) (Chart 3.6b).

CHART 3.6a – Full-time employment in Gozo and Comino region by sector, industry and place of work: 2021

CHART 3.6b – Full-time employment in Gozo and Comino region by sex, industry and place of work: 2021

FULL-TIME GOZO AND COMINO RESIDENTS WORKING IN MALTA REGION

In 2021, Gozo and Comino residents employed on a full-time basis in Malta region totalled 3,209, of which, 57.3 per cent worked in the public sector and the remaining worked in the private sector (Tables 3.3, 3.4 and Charts 3.7a-b). The males who worked in the private sector accounted for 26.1 per cent of the total full-time employment of Gozo and Comino residents in Malta region while the females who worked in the public sector accounted for 34.9 per cent of the total (Chart 3.7b).

CHART 3.7a – Full-time employment of Gozo and Comino residents in Malta region by sector, sex and year

CHART 3.7b – Percentage distribution of full-time employment of Gozo and Comino residents in Malta region by sector and sex: 2021

During the same year, 92.9 per cent of those working within the public sector worked in the *public administration and defence; compulsory social security; education; human health and social work activities* (O, P and Q) while 27.1 per cent of those in the private sector worked in the *professional, scientific and technical activities; administrative and support service activities* (M and N) (Chart 3.8a). In addition, both the full-time males and females who were Gozo and Comino residents and worked in Malta region were predominantly employed in the *public administration and defence; compulsory social security; education; human health and social work activities* (O, P and Q) (Chart 3.8b).

CHART 3.8a – Full-time employment of Gozo and Comino residents in Malta region by sector and industry: 2021

— Did you know ?

During 2021, approximately one in every six full-time employed males resident in Gozo and Comino region worked in the Malta region, whereas a quarter of the total full-time employed females who resided in the Gozo and Comino region travelled to Malta for work.

CHART 3.8b – Full-time employment of Gozo and Comino residents in Malta region by sex and industry: 2021

PART-TIME EMPLOYMENT OF GOZO AND COMINO RESIDENTS

The percentage distribution of the part-time employment differed throughout all economic activities. In 2021, total part-time employment of Gozo and Comino residents amounted to 5,795 of which, 58.0 per cent were part-time secondary employment and the remaining were part-time primary (Table 3.3). The largest share of part-time employment of Gozo and Comino residents was registered in *wholesale and retail trade; repair of motor vehicles and motorcycles; transportation and storage; accommodation and food service activities* (G, H and I), contributing to 31.9 per cent of the total. This featured in both part-time primary and secondary (Chart 3.9).

CHART 3.9 – Percentage distribution of part-time employment of Gozo and Comino residents by type, industry and place of residence: 2021

EMPLOYMENT IN JOBS

In 2021, jobs by full-time private sector employees in Malta and Gozo and Comino regions accounted for 53.1 and 37.0 per cent of total jobs respectively. Full-time self-employed jobs in Malta and Gozo and Comino regions accounted for 8.9 and 12.5 per cent of total jobs respectively. Total part-time employment in Malta and Gozo and Comino regions was of 64,195 and 5,390 respectively, accounting for 21.8 and 29.0 per cent of total jobs within the respective region. The differences in the distribution of jobs (by sector, type and sex) by place of residence and place of work were mainly attributable to the significant amount of Gozo and Comino residents working in Malta region (Tables 3.3, 3.4 and Charts 3.10 and 3.11).

CHART 3.10 – Percentage distribution of part-time employment in jobs by region of work (NUTS 3), sector and sex: 2021

CHART 3.11 – Percentage distribution of employment in jobs by region of work (NUTS 3), sex and type: 2021

PERSONS REGISTERING FOR WORK, BY DISTRICT (LAU 1)

In 2021, the largest share (26.6 per cent) of unemployed persons resided in the Southern Harbour district, amounting to 310 persons, followed by the Northern Harbour district (23.2 per cent). The largest proportion of unemployed persons featured in the 50 years and over age bracket, accounting to 33.9 per cent of the total. In terms of unemployment duration, all districts had the highest proportions in the 0 to 12 weeks cohort. (Tables 3.5, 3.6 and Chart 3.12)

CHART 3.12 – Percentage distribution of registered unemployed by district (LAU 1), age and duration of unemployment as at end December 2021

AVERAGE ANNUAL BASIC SALARY, BY SEX AND DISTRICT (LAU 1)

The average annual basic salary for employees was estimated at €19,755 in 2021. Average annual basic salaries varied both by sex and district of residence; for males the average annual basic salary was of €20,610 whilst for females this was recorded at €18,684. The highest average annual basic salary for males was registered in the Northern Harbour district whereas for females this was recorded in the Western district. (Table 3.7 and Chart 3.13)

CHART 3.13 – Average annual basic salary by sex, district of residence (LAU 1) and selected years

— DID YOU KNOW ?

In 2021, the discrepancy between the average annual basic salary for the males and females was more pronounced in the Malta region rather than in the Gozo and Comino region. Indeed, while for Malta region, male employees earned on average €2,076 more than female employees, in Gozo and Comino region the difference was of €253 more for female employees.

Notes:

1. Employment by place of residence is based on employee residence as declared by the employer upon engagement with Jobsplus.
2. Employment in persons comprise full-time and part-time (primary only) employment.
3. Employment in jobs exceeds employment in persons as it includes part-time secondary employment. The latter implies that a person may have more than one job.
4. Data for each year is as at 31 December.

Notes:

1. Annual basic salary refers to the annual basic salary received by employees before any social contributions and tax deductions. This amount excludes payments for overtime, allowances and bonuses.
2. The total average annual basic salary is calculated by taking the mean of the annual basic salary for the total employees. In addition, the average annual basic salary at district level is calculated by taking the mean of the annual basic salary for employees within each respective district.

METHODOLOGICAL NOTES

1. The data provided in this chapter is based on the latest data published by the National Statistics Office i.e. News Release 175/2022 – *Regional Labour Supply by Place of Residence and Work: 2021* (<https://nso.gov.mt/regional-labour-supply-by-place-of-residence-and-work-2021/>). The information contained in this chapter is subject to revisions.
2. Full-time and part-time status is determined by the employer's declaration (or that made by a self-employed person) in the engagement form which is required to be sent to Jobsplus upon commencement of employment.
3. (a) Employment by **place of work** takes into account those persons who effectively work in the regions of Malta and Gozo and Comino respectively, irrespective of their locality/region of residence.
(b) Employment by **place of residence** is based on employee residence as declared by the employer upon engagement with Jobsplus.
(c) **Gozo and Comino residents Commuter Workers (employed persons)** is calculated using the following formula: Gozo and Comino Total employed persons by place of residence (Table 3.1) - Gozo and Comino Total employed persons by place of work (Table 3.2) - Maltese residents working in the Gozo and Comino region.
(d) **Gozo and Comino residents Commuter Workers (full-time employment)** is calculated using the following formula: Gozo and Comino full-time employment by place of residence (Table 3.3) - Gozo and Comino full-time employment by place of work (Table 3.4) - Maltese residents working in the Gozo and Comino region.
4. During 2021, the total number of Maltese residents working in Gozo and Comino region amounted to 395.

Registered Unemployed provides data on the number of persons actively seeking work through Jobsplus. The data includes Part I and Part II of the unemployment register:
(a) **Part I of the unemployment register** includes new job seekers who have left school, re-entrants into the labour market and individuals who have been made redundant by their former employers.
(b) **Part II of the unemployment register** includes workers who have been dismissed from work due to disciplinary action, left work out of their own free will, refused work or training opportunities or were struck off the register after an inspection by the Law Enforcement personnel.
5. Labour Supply comprises the full-time gainfully occupied population and the registered unemployed population.
6. The annual basic salary refers to the annual basic salary received by employees before any social contributions and tax deductions. This amount excludes payments for overtime, allowances and bonuses.
7. The industry classification of this chapter is being published at NACE Rev. 2 at A*10/11.

4

ECONOMY

The first section of this chapter provides a summary of recent developments in the Maltese economy, highlighting major changes in regional economic statistics by industry NACE A*10/11 during the period 2016 – 2021. Macroeconomic activity and economic growth within each respective region are measured by Gross Value Added (GVA) at basic prices and Gross Domestic Product (GDP) at market prices, based on the production approach. The prevailing economic activity within the regions is explained by the respective GDP per capita. The second part of this chapter focuses on the development in the construction activity being measured by the number of approved buildings permits and new dwellings for the years 2018 – 2022.

4.1 REGIONAL GROSS DOMESTIC PRODUCT

GROSS VALUE ADDED

In 2021, the GVA at basic prices in the regions of Malta, and Gozo and Comino was estimated at €13,047.9 million and €581.2 million respectively; reflecting corresponding increases of 14.1 and 16.6 per cent over 2020 (Table 4.1.1).

Malta region

All industries registered increases in GVA during 2021. The industries of *wholesale and retail trade; repair of motor vehicles and motorcycles; transportation and storage; accommodation and food service activities* (G, H and I) registered the highest increase of 35.5 per cent over 2020 and accounted for 15.7 per cent of the total GVA. The industries comprising *public administration and defence; compulsory social security; education; human health and social work activities* (O, P and Q) contributed to the largest share of the GVA (17.4 per cent). These industries registered a growth in GVA of 11.5 per cent when compared to 2020 (Table 4.1.1, Charts 4.1.1a and 4.1.1b).

— DID YOU KNOW ?

During 2021, the industries of *wholesale and retail trade; repair of motor vehicles and motorcycles; transportation and storage; accommodation and food service activities* (G, H and I) registered an increase of 35.5% from 2020 and contributed to the second highest share in the GVA of Malta at 15.7%. In 2021, the industries of *public administration and defence; compulsory social security; education; human health and social work activities* (O, P and Q) topped the biggest share at 17.4%.

CHART 4.1.1a – Industry contribution to GVA of Malta region A*10: 2021

CHART 4.1.1b – Year-on-year changes in GVA of Malta region by industry A*10: 2021

During 2021, the industries of *public administration and defence; compulsory social security; education; human health and social work activities* (O, P and Q) accounted for the highest share of the GVA of MALTA contributing to 16.7 per cent. The industries comprising *wholesale and retail trade; repair of motor vehicles and motorcycles; transportation and storage; accommodation and food service activities* (G, H and I) contributed to the second largest share of the GVA of MALTA, accounting for 15.0 per cent in 2021. Conversely, the *agriculture, forestry and fishing* industries contributed the least to the GVA of MALTA during the period under review, contributing to 0.9 per cent (Table 4.1.1a). Analyses of the contributions to GVA by industry and by region (NUTS 3) are illustrated in Charts 4.1.2 and 4.1.3.

CHART 4.1.2 – Regional contribution to GVA (B.1g) by industry A*10/11: 2021 (NUTS 3)

CHART 4.1.3 – Distribution of regional GVA (B.1g) by industry A*10/11: 2021 (NUTS 3)

Gozo and Comino region

In 2021, the majority of industries registered increases in GVA when compared to the previous year, with the exception of the industries of *agriculture, forestry and fishing* (A) and *financial and insurance activities* (K). The industries of *public administration and defence; compulsory social security; education; human health and social work activities* (O, P and Q) accounted for the highest share of the GVA at 26.3 per cent and have registered an increase of 10.7 per cent over 2020. The industries comprising *wholesale and retail trade; repair of motor vehicles and motorcycles; transportation and storage; accommodation and food service activities* (G, H and I) accounted for the second highest share of the GVA at 17.7 per cent and have registered a growth of 26.2 per cent (Table 4.1.1, Charts 4.1.4a and 4.1.4b).

CHART 4.1.4a – Industry contribution to GVA of Gozo and Comino region A*10: 2021

CHART 4.1.4b – Year-on-year changes in GVA of Gozo and Comino region by industry A*10: 2021

During 2021, the industries of *public administration and defence; compulsory social security; education; human health and social work activities* (O, P and Q) accounted for the highest share of the GVA of MALTA, contributing to 1.1 per cent. Similarly, the industries comprising *wholesale and retail trade; repair of motor vehicles and motorcycles; transportation and storage; accommodation and food service activities* (G, H and I) contributed to the second largest share of the GVA of MALTA, accounting for 0.8 per cent. In contrast, the industries of *agriculture, forestry and fishing* (A) and *arts, entertainment and recreation; repair of household goods and other services* (R, S, T and U) contributed the least to the GVA of MALTA, both contributing to 0.1 per cent in 2021 (Table 4.1.1a, Charts 4.1.2 and 4.1.3).

— DID YOU KNOW ?

Across the 5-year period under review, the industries of *public administration and defence; compulsory social security; education; human health and social work activities* (O, P and Q) recorded year-on-year increases in the GVA of the Gozo and Comino region. Moreover, these industries accounted for the highest share of the Gozo and Comino region, contributing to an average of 26.7%.

GROSS DOMESTIC PRODUCT

In 2021, GDP at market prices in the regions of Malta, and Gozo and Comino was estimated at €14,323.9 million and €638.0 million respectively, corresponding to a contribution of 95.6 and 4.3 per cent to national GDP at market prices. Even though employment in jobs increased year-on-year in both regions, employment growth lagged GDP growth during the period under consideration, except for 2020 where the rate of change in GDP was negative in both regions. (Table 4.1.2, Charts 4.1.5 and 4.1.6)

CHART 4.1.5 – GDP and Employment: Malta region year-on-year change

CHART 4.1.6 – GDP and Employment: Gozo and Comino region year-on-year change

During 2021, GDP per capita at market prices increased in both regions. The per capita GDP at market prices for the Malta region as a percentage of the national was 102.5 per cent while that of the Gozo and Comino region was of 63.6 per cent. The per capita regional GDP does not reflect the income available to the private households of each respective region, but it strictly relates to the economic activity prevailing in each of the regions (Table 4.1.2, Chart 4.1.7).

CHART 4.1.7 – Per capita regional GDP at market prices by year (NUTS 3)

— DID YOU KNOW ?

During the period under review, Malta’s GDP per capita at market prices as a percentage of the national decreased slightly from 103.0 in 2016 to 102.5 in 2021. On the other hand, for the Gozo and Comino region, the per capita GDP as a percentage of the national increased from 58.5 in 2016 to 63.6 during 2021.

ACTIVE BUSINESS UNITS

In 2021, total active business population at the local unit level within the statistical business register in MALTA amounted to 56,921, an increase of 7.7 per cent, or 4,069 active units, over 2020 (Table 4.1.3, Maps 4.1.1).

Most of the business units (93.8 per cent) employed between 0 to 9 persons (micro). The population of small (10 – 49) and medium (50 – 249) enterprises accounted for 2,912 (5.1 per cent) and 522 (0.9 per cent) units respectively. The large businesses employing 250 persons or more accounted for the remaining active units. During 2021, the highest overall change in the number of active enterprises at local unit level occurred amongst businesses employing between 10 and 49 persons, which increased by 9.2 per cent when compared to 2020.

On a regional level, in 2021, the largest increase in the number of active businesses at local unit level in the Malta region was attributed to the population of small (10 – 49) enterprises, registering an increase of 9.5 per cent. This was followed by active businesses that employed 0 to 9 persons, which increased by 7.4 per cent from the previous year. In the Gozo and Comino region, the largest increase in the number of active businesses at local unit level was registered in the micro (0 – 9) enterprises, which rose by 409 units, or 10.6 per cent. These constituted the largest share (96.6 per cent) of the total active businesses at local unit level within the Gozo and Comino region. (Table 4.1.3)

MAPS 4.1.1 – 1km² grid showing active businesses at local unit level: 2021

MAPS 4.1.1 – Continued

- Notes:**
1. The data in the maps includes statistically relevant residential units and excludes government entities.
 2. Data for 2021 should be considered as provisional with a cut-off date of 26th May 2023.
 3. Each grid cell represents an area of 1km².
 4. Each grid cell shows the count of BRs in that particular area. Grid cells containing less than three BRs are omitted.

— DID YOU KNOW ? —

During 2021, more than one third of the total active businesses at local unit level operated in the Northern Harbour district (34.5%), whereas the Gozo and Comino district accounted for the least share at 7.8%.

Notes:

1. This data breaks down the total number of the 2020 and 2021 active business population at the local unit level by district and enterprise size class.
2. An enterprise size class consists of Micro (0 - 9), Small (10 - 49), Medium (50 - 249), and Large (250+) enterprises.
3. The data includes statistically relevant residential units and excludes government entities.
4. Figures presented in this table for 2020 and 2021 are based on provisional data with a cut-off date of 24th March 2022 and 26th May 2023 respectively.
5. 'c' refers to confidential data.

METHODOLOGICAL NOTES

- All data in this chapter is in line with the European System of Accounts (ESA 2010) (ISBN 978-92-79-31242-7) and the manual on Regional Accounts Methods (ISBN 978-92-79-32357-7). The European System of National and Regional Accounts is an internationally compatible accounting framework for a systematic and detailed description of a total economy (whether this is a region, a country, or a group of countries), its components, and its relations with other total economies. Regional accounts are a regional specification of the corresponding accounts of the total economy.
- The estimates of the national Gross Value Added (GVA) correspond to the news release *Gross Domestic Product: 2021 - NR037/2022* for 2016 and *Gross Domestic Product: Q3/2022 - NR218/2022* for 2017-2021.
- GVA estimates in this chapter are based on the Production Approach.** The estimates of regional GVA at basic prices using the Production Approach is equivalent to the difference between output at basic prices and intermediate consumption at purchasers' prices of industries physically located in each of the respective regions. Regional GDP is defined as regional GVA plus taxes less subsidies on products. **Regional GDP is not a measure of income or financial well-being but strictly relates to the economic activity prevailing in a particular region.**
- The nomenclature of territorial units for statistics (NUTS) provides a uniform breakdown of the economic territory of the European Union. The NUTS is the territorial classification for the compilation of regional accounts. The economic territory of a country can be divided into regional territories and the extra-regio territory. For the purpose of regional accounts, MALTA is divided as follows:

	NUTS 0	NUTS 1	NUTS 2	NUTS 3
MALTA	MT	MT0	MT00	
Malta				MT001
Gozo and Comino				MT002
Extra-Regio		MTZ	MTZZ	MTZZZ

The regional territory includes the region that is part of the geographic territory of a country and any free zones, including bonded warehouses and factories under customs control in the region. The extra-regio territory is made up of parts of the economic territory of a country that cannot be attached directly to a single region.

- Data users must be aware that the industrial activities of the General Government at national level are spread over 21 different NACE categories (at A88 divisions) and include local councils and extra-budgetary units that are financially dependent on Government. *Public administration and defence; compulsory social security* (NACE 84) is the largest division and, in terms of GVA, represented approximately 40.0 per cent of the General Government sector in 2021.
- Employment data provided by JobsPlus for the period 2016-2021 are subject to revision.

4.2 RESIDENTIAL BUILDING PERMITS

In 2022, 1,850 building permits for a total of 9,599 new dwellings were approved. When compared to 2021, the number of building permits increased by 8.6 per cent while the number of approved new dwellings increased by 26.7 per cent. (Tables 4.2.1 – 4.2.3) The average number of approved new dwellings per building permit stood at 5.2 (Chart 4.2.1).

CHART 4.2.1 – Approved new building permits and dwellings in MALTA by year

The highest numbers of both building permits as well as approved new dwellings in 2022, were recorded in the Northern Harbour district at 460 permits and 2,376 new dwellings respectively. This was followed by the Gozo and Comino district which registered 386 building permits and 1,885 new dwellings. The lowest number was recorded in the Western district at 201 building permits and 1,066 new dwellings. Additionally, the largest increases in the number of approved building permits were reported in the South Eastern (13.5 per cent) and Northern Harbour districts (10.6 per cent). On the other hand, the Western and Gozo and Comino districts recorded the highest increases in the number of new dwellings at 39.7 and 35.2 per cent respectively. When compared to 2018, almost all districts experienced drops in both building permits and new dwellings, with the exception of the Gozo and Comino district, which reported percentage increases of 15.6 in building permits and 77.7 in new dwellings. (Tables 4.2.2 and 4.2.3, Chart 4.2.2)

CHART 4.2.2 – Approved new building permits and dwellings by district (LAU 1) and selected years

In 2022, the majority of newly approved dwellings in MALTA consisted of apartments, accounting for 70.6 per cent of the total or 6,775 units. This was followed by penthouses with 1,505 units and maisonnettes with 910 units (Table 4.2.3 and Chart 4.2.3). All types of dwellings registered increases when compared to the previous year, except for the number of villas approved which dropped significantly from 70 in 2021 to 32 in 2022 (Table 4.2.3).

— DID YOU KNOW ?

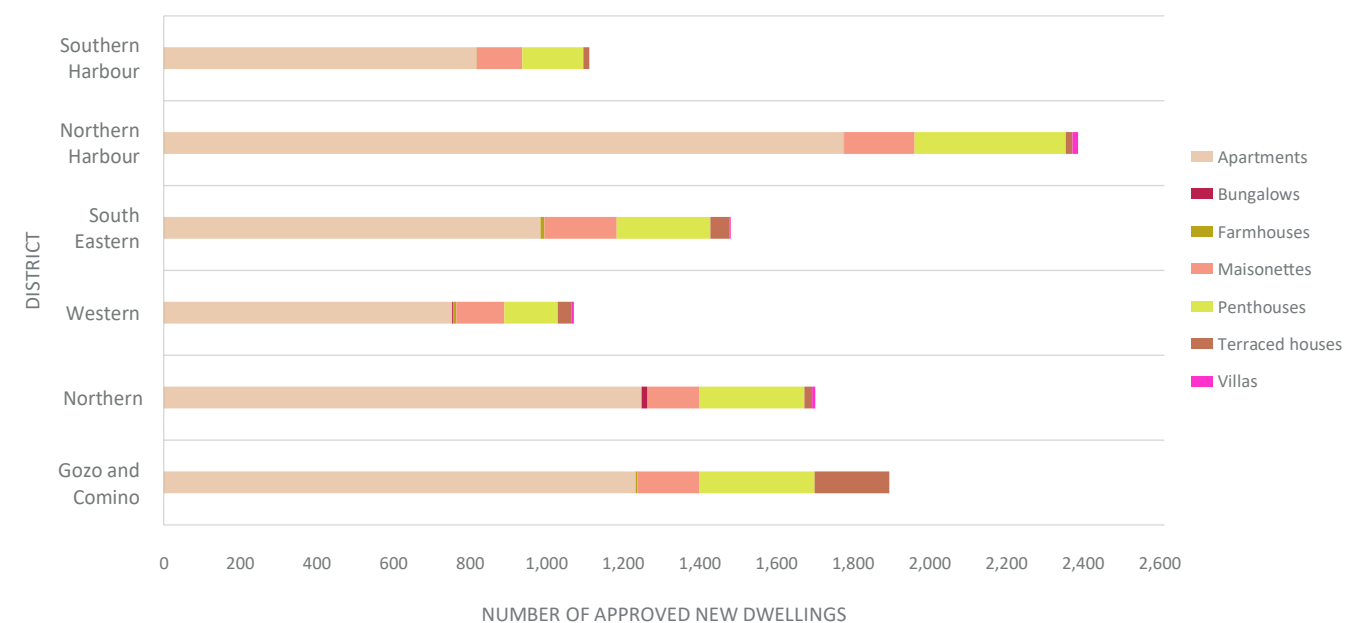

In the comparative analysis of the years 2018 and 2022, the Malta region exhibited substantial percentage decreases in the quantity of building permits (42.1%) as well as approved new dwellings (34.8%). In contrast, the Gozo and Comino region observed increases of 52 building permits and 824 approved new dwellings.

CHART 4.2.3 – Distribution of approved new dwellings in MALTA by type: 2022

Similar to the national level, both Malta and Gozo and Comino regions recorded apartments and penthouses as the most common types of approved new dwellings. Looking at districts, the Northern Harbour had the highest number of approved apartments (1,767), penthouses (393) and villas (15). The South Eastern district had the highest number of approved maisonnettes (188) and farmhouses (10), while the Northern district recorded the highest number of bungalows (14). Gozo and Comino had the highest number of approved new terraced houses (194). (Table 4.2.3 and Chart 4.2.4)

CHART 4.2.4 – Approved new dwellings by district (LAU 1) and type: 2022

The highest number of approved new dwellings were issued in San Pawl Il-Baħar (645). This was followed by Il-Mosta (420), Marsaskala (389), Is-Siġġiewi (370) and Ir-Rabat, Ġhawdex (367). (Map 4.2.1)

METHODOLOGICAL NOTES

1. The data source of the statistics provided in this section is the Maltese Planning Authority. It includes approved building permits for the:
 - construction of approved new dwellings,
 - change of use from non-residential buildings to residential ones.
2. Building permits for dwelling extensions, restorations, alterations, or demolitions that have no effect on the number of new dwellings are not being included in the statistics provided in this section.
3. Definitions:
 - **Building permit:** An authorisation to start work on a building project. It can include more than one approved new dwelling.
 - **Dwelling:** A room or suite of rooms and its accessories in a permanent building or structurally separated part thereof which by the way it has been built, rebuilt and converted, is intended for private habitation.
4. More information may be accessed at:

Statistical Concepts: <https://metadata.nso.gov.mt/concepts.aspx>

Metadata: <https://metadata.nso.gov.mt/reports.aspx?id=13>

5

TRANSPORT

This chapter focuses on regional land and sea transport statistics, covering period 2017–2022. The first section deals with road transport statistics covering rate of motorisation, stock of licensed vehicles, road traffic accidents and contraventions. The section related to sea transport statistics starts with information on fishing vessels and concludes with inter-island statistics on passenger and vehicle movements aboard trips operated by Gozo Channel Co. Ltd. and the fast ferry service.

5.1 ROAD TRANSPORT

STOCK OF LICENSED MOTOR VEHICLES: 2022

CHART 5.1.1 – Motor vehicle stock distribution by district (LAU 1): 2022

As at the end of 2022, the number of licensed vehicles in MALTA amounted to 424,904. The largest proportion of the stock was recorded in the Northern Harbour district, 26.7 per cent of the total licensed motor vehicles (Table 5.1.1 and Chart 5.1.1). This district registered the highest numbers of minibuses, route buses, motorcycles/ E-bikes/ PA-bikes, passenger cars and goods-carrying vehicles. The South Eastern district had the highest number of licensed coaches and private buses, accounting for 30.6 per cent of the total. Moreover, the Gozo and Comino district had the highest recorded number of agricultural vehicles and quadricycles (Quad) and All-Terrain Vehicles (ATVs). The Northern district had the highest number of special purpose vehicles (SPV's), E-kick scooters and road tractors. (Table 5.1.1)

Passenger cars totalled 317,232 or 74.7 per cent of the total number of licensed vehicles. In 2022, newly licensed motor vehicles amounted to 23,016; of these 15,314 were newly licensed 'new' vehicles and 7,702, were newly licensed 'used' ones (Tables 5.1.3 - 5.1.5).

— DID YOU KNOW ?

The count of newly licensed E-kick scooters in MALTA witnessed a near doubling from 1,075 to 2,131 between 2021 and 2022. In 2022, the Gozo and Comino region saw the highest prevalence (53.1%) of newly licensed motorcycles/E-bikes/PA-bikes among all newly licensed vehicles in that area. Conversely, in the Malta region, newly licensed passenger cars made up 55.6% of the overall newly licensed motor vehicles in the region during the same period.

DRIVING LICENCES: 2022

By the end of 2022, the total number of driving licence holders amounted to 276,715 or an increase of 1.6 per cent over 2021. The largest number – 72,437 or 26.2 per cent of the total – was registered in the Northern Harbour district. Gozo and Comino district accounted for 9.6 per cent of the total. (Table 5.1.6)

On a gender basis, there were 161,440 male and 115,275 female driving licence holders. The majority of driving licence holders were aged between 40 and 59 years (Table 5.1.7).

TRANSPORT INDICATORS: 2021/22

As at end of 2021, 795 vehicles per 1,000 total residents were recorded. The number of vehicles to 1,000 driving licence holders stood at 1,517 by the end of 2021. Gozo and Comino district registered the highest ratio of vehicles, 1,064 per 1,000 total residents, while the Northern Harbour district registered the lowest ratio with 683 vehicles per 1,000 residents. On the other hand, in 2021 the Gozo and Comino district registered the highest ratio of vehicles, 1,622 per 1,000 driving licence holders, while the South Eastern district registered the lowest ratio with 1,444 vehicles per 1,000 driving licence holders (Table 5.1.8).

In 2022, the average age of passenger cars in MALTA stood at 15.59 years. The Gozo and Comino district had the highest average age of passenger cars, 17.01 years, followed by that of the Southern Harbour district, 16.56 years (Table 5.1.9).

During the year 2022, the number of public transport commuters totalled to 49,222,424. October registered the highest number of commuters with 5,023,246 or 10.2 per cent of the total. On the contrary, January registered the least number of commuters totalling 2,829,738. The largest proportion of public transport commuters (95.8 per cent) pertained to Malta region and the remaining 4.2 per cent to Gozo and Comino region. (Table 5.1.10)

— DID YOU KNOW ?

In 2021, the highest ratio of passenger cars was registered in the Gozo and Comino region, with 691 per 1,000 total residents. This implies 95 more passenger cars per 1,000 total residents when compared to Malta region, the ratio of which was of 596 per 1,000 total residents.

TRAFFIC ACCIDENTS: 2022

In 2022, the number of reported traffic accidents reached 15,713, an increase of 1,578 cases, or 11.2 per cent over the previous year. The largest increase was recorded in the Southern Harbour district, up by 482 cases. The Northern Harbour district registered the highest number of accidents: 5,369 cases or 34.2 per cent of total accidents. The Gozo and Comino district registered the lowest number of accidents, with 1,012 cases. (Table 5.1.11 and Chart 5.1.2a)

CHART 5.1.2a – Road traffic accidents by district (LAU 1) and year

The number of traffic casualties amounted to 1,609 in 2022, up by 5.0 per cent over 2021 (Table 5.1.12). Of these casualties, 1,035 were drivers of whom 747 suffered slight injuries and 224 suffered grievous ones, while injuries sustained by 11 drivers proved fatal. During the same period, 225 passengers and 157 pedestrians, cyclists and other road traffic units suffered slight injuries, while 45 passengers and 110 pedestrians, cyclists and other road traffic units suffered grievous ones. Moreover, injuries sustained by one passenger and 16 pedestrians, cyclists and other road traffic units eventually proved fatal, thus raising the total number of fatalities in 2022 to 28. Once again, while the Northern Harbour district was the district with the highest reported traffic casualties, 497 cases or 30.9 per cent of the total traffic casualties, Gozo and Comino had 170 cases or 10.6 per cent of the total traffic casualties. (Tables 5.1.13-5.1.16)

— DID YOU KNOW ?

During 2022, the proportion of grievous injuries relative to the total injuries sustained at regional level amounted to 23.3% and 25.3% in the Malta and Gozo and Comino regions respectively. In contrast, the corresponding ratios in 2018 were both 18.9%.

Birkirkara was the locality with the highest rate of traffic accidents, with 1,073 cases. Ħal Qormi and Il-Mosta followed, with 784 and 767 reported accidents respectively. (Chart 5.1.2b and Map 5.1.1)

CHART 5.1.2b – Top 10 localities for road traffic accidents: 2022

MAP 5.1.1 – Road traffic accidents by locality (LAU 2): 2022

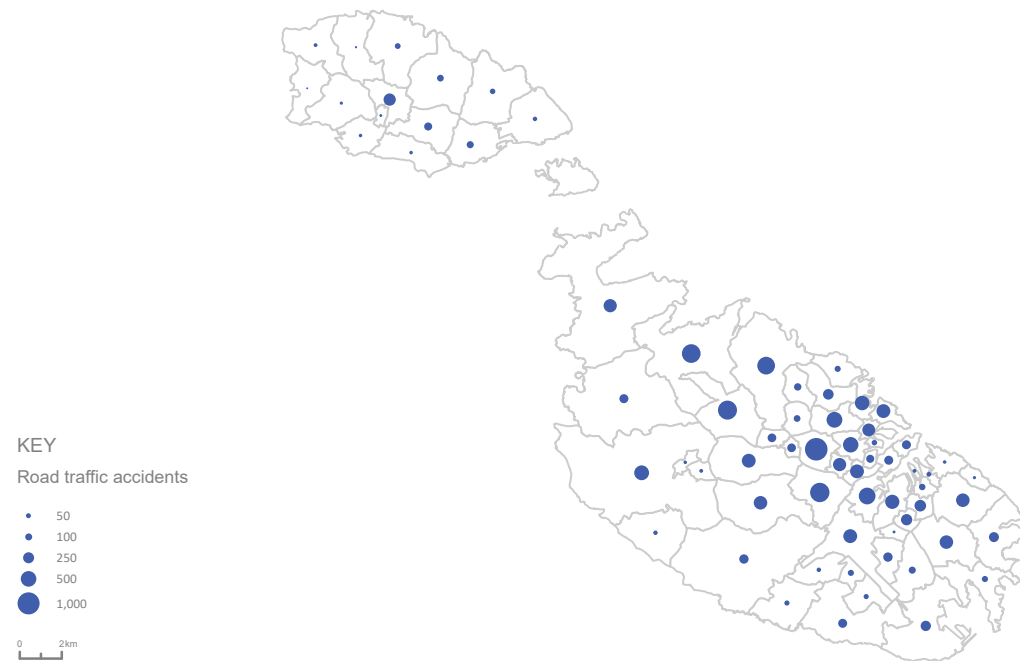

CHART 5.1.3b – Top 10 localities for transport-related contraventions issued by the Police: 2022

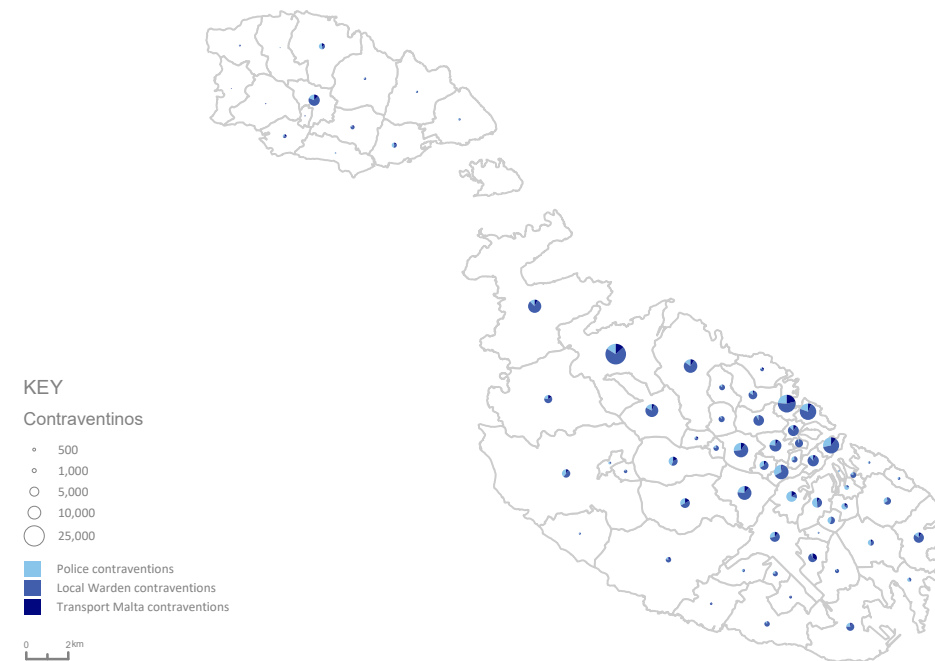

CONTRAVENTIONS: 2022

In 2022, traffic-related contraventions issued by Police amounted to 77,023, or 11.1 per cent less than 2021, with the majority being issued in the Northern Harbour district (Table 5.1.17 and Chart 5.1.3a). Il-Marsa was highest in terms of contraventions issued by Police, with 5,030 contraventions (Chart 5.1.3b and Map 5.1.2).

CHART 5.1.3a – Contraventions issued by the Police by district (LAU 1) and year

MAP 5.1.2 – Contraventions issued by the Police, Wardens and Transport Malta by locality (LAU 2): 2022

On the other hand, traffic-related contraventions issued by Wardens amounted to 199,949, a decrease of 13.2 per cent when compared to 2021. The majority (39.4 per cent) of the contraventions were also issued in the Northern Harbour district (**Table 5.1.18 and Chart 5.1.4a**). San Pawl Il-Baħar was the locality with the highest tally of contraventions issued by Wardens, with 19,002 or 9.5 per cent of the total. (**Chart 5.1.4b and Map 5.1.2**)

CHART 5.1.4a – Contraventions issued by Wardens by district (LAU 1) and year

CHART 5.1.4b – Top 10 localities for transport-related contraventions issued by Wardens: 2022

In 2022, traffic-related contraventions issued by Transport Malta amounted to 31,472, with the majority being issued in the Northern Harbour district (**Table 5.1.19 and Chart 5.1.5a**). San Ġiljan recorded the highest number of contraventions issued by Transport Malta, with 4,132 contraventions. (**Chart 5.1.5b and Map 5.1.2**)

CHART 5.1.5a – Contraventions issued by Transport Malta by district (LAU 1) and year

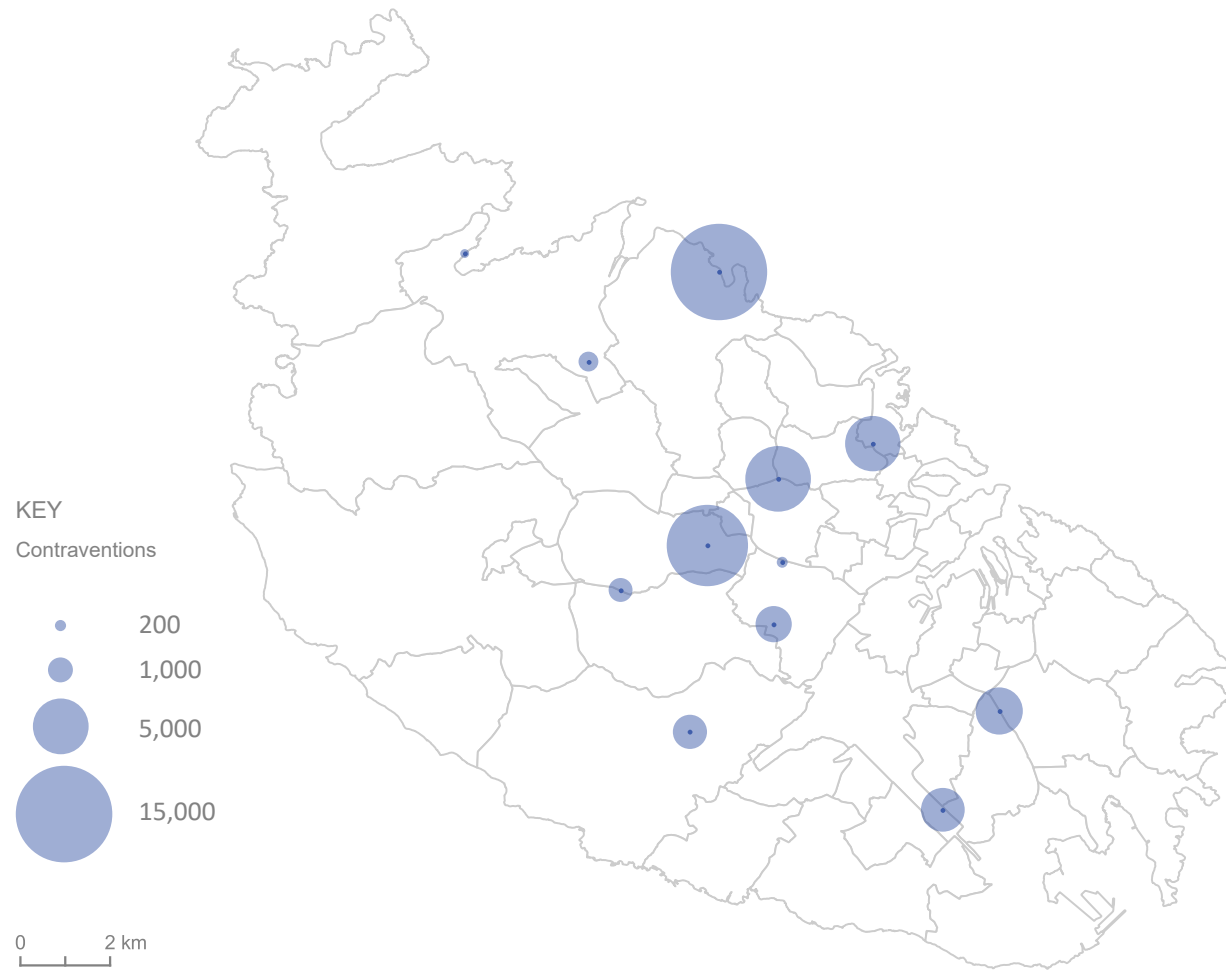

CHART 5.1.5b – Top 10 localities for transport-related contraventions issued by Transport Malta: 2022

In 2022, speed camera contraventions totalled 50,782. The camera which caught the most over-speeding vehicles was the one installed in Triq in-Nutar Zarb, H'Attard, totalling 10,782 contraventions (Map 5.1.3).

MAPS 5.1.3 – Speed camera contraventions by locality (LAU 2): 2022

Notes:

1. One point can include two speed cameras which are opposite in the same street.
2. The only point located on Naxxar's coastline includes the five speed cameras along Triq il-Kosta.
3. Gozo and Comino district is omitted from the map as there are no speed cameras.

VEHICLES STOLEN: 2022

In 2022, a total of 309 vehicles were stolen. The highest number of stolen vehicles was recorded in the Northern Harbour district (108) with 35.0 per cent of the total. On the other hand, Gozo and Comino had the lowest number of reported stolen vehicles (13). (Table 5.1.20)

METHODOLOGICAL NOTES

Road Transport

1. Any vehicle-related and driving licences data are based on data provided by Transport Malta.
2. This data may be subject to revision.
3. Definitions of road vehicles:
 - **Stock of road vehicles:** Number of road vehicles registered at a given date in a country and licensed to use roads open to public traffic.
 - **Road vehicle:** A vehicle running on wheels and intended for use on roads.
 - a. **Motor vehicle categories and classifications**
 - **Agricultural:** motor vehicle, normally a tractor, designed exclusively or primarily for agricultural purposes; licensed to use roads open to public traffic.
 - **Coach and private bus:** passenger road motor vehicle designed to carry more than 24 persons (including driver), and with a provision to carry seated and standing passengers.
 - **Minibus/mini-coach:** passenger road motor vehicle designed to carry 10-23 seated or standing persons (including the driver).
 - **Route bus:** bus licensed to operate on established bus routes.
 - **Motorcycle:** two-, three- or four-wheeled road motor vehicle not exceeding 400 kg of unladen weight. All such vehicles with a cylinder capacity of 50cc or over are included, as are those under 50cc which do not meet the definition of moped.
 - **E-Bicycle/PA-Bicycle:** cycle with supportive electrical power unit. Due to the negligible number of powered bicycles, such data is included with motorcycles.
 - **E-Kick Scooter:** a stand-up device that has a handlebar, a deck and small hard wheels powered by an electric motor and which also allows for human propulsion.
 - **Moped:** two-, three- or four-wheeled road motor vehicle which is fitted with an engine having a cylinder capacity of less than 50cc and a maximum authorised design speed in accordance with national regulations. In this chapter, mopeds are included together with motorcycles.
 - **Quad (Quadricycle)/ATV (All-Terrain Vehicle):** four-wheeled road motor vehicle not exceeding 400 kg of unladen weight. All such vehicles with a cylinder capacity of 50cc or over are included, as are those under 50cc which do not meet the definition of moped.
 - **Passenger car:** road motor vehicle, other than a moped, motorcycle or Quad/ATV, intended for the carriage of passengers and designed to seat no more than nine persons (including the driver). This category includes passenger cars, vans designed and used primarily for transport of passengers, taxis, hire cars, ambulances, motor homes (not caravans), hearses and microcars.
 - **Goods-carrying vehicle:** road motor vehicle designed, exclusively or primarily, to carry goods. This category includes: (i) light goods road motor vehicles with a gross vehicle weight of not more than 3,500 kg designed exclusively or primarily to carry goods, such as vans and pick-ups; (ii) heavy goods road motor vehicles with a gross vehicle weight above 3,500 kg designed to carry goods.
 - **Road tractor:** road motor vehicle designed, exclusively or primarily, to haul other road motor vehicles which are not power driven (mainly semi-trailers).
 - **Special purpose vehicle:** road motor vehicle for purposes other than the carriage of passengers or goods. This category includes: fire brigade vehicles; mobile cranes; self-propelled rollers; bulldozers with metallic wheels or track; vehicles for recording film, radio and TV broadcasting; mobile library vehicles; mobile kiosks; towing vehicles for vehicles in need of repair and other special purpose road motor vehicles.
4. Definition of Driving Licences categories:
 - **A:** Motorcycles and motor tricycles with a power exceeding 15 kW.
 - **A1:** (a) Motorcycles with a cylinder capacity not exceeding 125 cubic centimetres, of a power not exceeding 11 kW and with a power/weight ratio not exceeding 0.1 kW/kg.
(b) Motor tricycles with a power not exceeding 15 kW.
 - **A2:** Motorcycles of a power not exceeding 35 kW and with a power/weight ratio not exceeding 0.2 kW/kg and not derived from a vehicle of more than double its power.
 - **AM:** Two-wheel vehicles (mopeds) or three-wheel vehicles with a maximum design speed of not more than 45 km/h. Light quadricycles with a maximum design speed of not more than 45 km/h, and a power output not exceeding 4 kW in the case of other internal combustion engines, or whose maximum continuous rated power does not exceed 4 kW in the case of an electric motor.
 - **B:** (a) Motor vehicles with a maximum authorised mass not exceeding 3,500 kg and designed and constructed for the carriage of no more than eight passengers in addition to the driver, motor vehicles in this category may be combined with a trailer having a maximum authorised mass which does not exceed 750 kg.
(b) Without prejudice to the provisions of type-approval rules for the vehicles concerned, motor vehicles in this category may be combined with a trailer with a maximum authorised mass exceeding 750 kg, provided that the maximum authorised mass of this combination does not exceed 4,250 kg. Where such a combination exceeds 3,500 kg it shall be driven only after a test of skills and behaviour in accordance with Annex V of the Directive.
(c) Motor tricycles with a power exceeding 15 kW (provided that the holder of the licence is at least 21 years of age).
 - **B1:** Quadricycles
 - **BE:** Without prejudice to the provisions of type-approval rules for the vehicles concerned, combination of vehicles consisting of a tractor vehicle in category B and a trailer or semi-trailer where the maximum authorised mass of the trailer or semi-trailer does not exceed 3,500 kg.
 - **C:** Motor vehicles other than those in categories D1 or D, whose maximum authorised mass is over 3,500 kg and which are designed and constructed for the carriage of no more than eight passengers in addition to the driver. Motor vehicles in this category may be combined with a trailer having a maximum authorised mass which does not exceed 750 kg.
 - **C1:** Motor vehicles other than those in categories D1 or D, the maximum authorised mass of which exceeds 3,500 kg, but does not exceed 7,500 kg, and which are designed and constructed for the carriage of no more than eight passengers in addition to the driver; motor vehicles in this category may be combined with a trailer having a maximum authorised mass not exceeding 750 kg.
 - **C1E:** (a) Without prejudice to the provisions of type-approval rules for the vehicles concerned, combinations of vehicle where the tractor vehicle is in category C1 and its trailer or semi-trailer has a maximum authorised mass of over 750 kg provided that the authorised mass of the combination does not exceed 12,000 kg.
(b) Without prejudice to the provisions of type-approval rules for the vehicles concerned, combinations of vehicles where the tractor vehicle is in category B and its trailer or semi-trailer has an authorised mass of over 3,500 kg, provided that the authorised mass of the combination does not exceed 12,000 kg.
 - **CE:** Without prejudice to the provisions of type-approval rules for the vehicles concerned, combinations of vehicles where the tractor vehicle is in category C and its trailer or semi-trailer has a maximum authorised mass of over 750 kg.
 - **D:** Motor vehicles designed and constructed for the carriage of more than eight passengers in addition to the driver; motor vehicles which may be driven with a category D licence may be combined with a trailer having a maximum authorized mass which does not exceed 750 kg.
 - **D1:** Motor vehicles designed and constructed for the carriage of no more than 16 passengers in addition to the driver and with a maximum length not exceeding 8 metres. Motor vehicles in this category may be combined with a trailer having a maximum authorised mass not exceeding 750 kg.
 - **D1E:** Without prejudice to the provisions of type-approval rules for the vehicles concerned, combinations of vehicles where the tractor vehicle is in category D1 and its trailer has a maximum authorised mass of over 750 kg.
 - **DE:** Without prejudice to the provisions of type-approval rules for the vehicles concerned, combinations of vehicles where the tractor vehicle is in category D and its trailer has a maximum authorised mass of over 750 kgs.
 - **F:** Driving licences which before the 19th January 2013, were in category F were changed to category D1.
As from the 19th January 2013: Provided that persons who before the 19th January 2013, held a category F, driving licence may continue to drive motor vehicles which can carry up to 18 passengers until their category F licence expires.
 - **G:** Agricultural tractors on roads in Malta only.
5. **VERA:** Vehicle Registration and Administrative System Database. It is the only register that contains the complete details of all vehicles registered and licensed in Malta.

6. Contraventions data is supplied by Loqus.
7. Theft of vehicles data is compiled and provided by the Police Department.

Traffic accidents and injuries

8. Traffic accidents data is compiled from administrative information provided by the Police Department and the Malta Insurance Association (Guard and Warden Service House Limited).
9. The type of casualty (slight or grievous) is determined by the Health Department. The definitions of deaths caused by road accidents refer to the European Conference for Ministers of Transport (ECMT) and United Nations Economic Commission for Europe (UNECE).
10. Minor traffic accidents which are either not reported or directly reported to Insurance Agencies by means of the Traffic Accident Form (i.e. no Police or Wardens are called on the accident scene and are settled by the completion of the relevant form) are not accounted for.
11. A fatal injury is defined by UNECE as "Any person who was killed outright or who died within 30 days as a result of the accident".

5.2 SEA TRANSPORT

FISHING VESSELS: 2022

As at the end of 2022, the stock of fishing vessels stood at 2,744. MPVs comprised the largest proportion of fishing vessels with 1,219 or 44.4 per cent of the total. The largest share of fishing vessels was registered in the South Eastern district accounting for 28.4 per cent of the total. Fishing vessels registered in the Gozo and Comino district amounted to 20.8 per cent of the total (**Table 5.2.1**).

SEA TRANSPORT BETWEEN MALTA AND GOZO AND COMINO REGIONS: 2022

During 2022, trips between Malta and Gozo continued to increase, up by 2,286 or 5.9 per cent over 2021. Vehicle movements between the islands increased by 233,186 or 13.5 per cent over the previous year, while the number of passengers went up by 1,243,112 or 27.9 per cent. (**Table 5.2.2**)

During the year 2022, passenger traffic originating from Ċirkewwa was busiest on Fridays and Saturdays, whereas highest numbers from Mġarr were recorded on Sundays and Saturdays (**Tables 5.2.3, 5.2.4 and Charts 5.2.1a-c**).

In June 2021 the fast ferry service between Mġarr and Valletta was introduced. Total passengers making use of the fast ferry service during 2022 amounted to 476,180, whereas total trips amounted to 6,157. (**Table 5.2.5 and Map 5.2.1**)

CHART 5.2.1a – Scheduled sea transport between Mġarr and Ċirkewwa by day of the week, terminal and year

CHART 5.2.1c – Passenger movements between Mġarr and Ċirkewwa by day of the week, terminal and year

CHART 5.2.1b – Vehicle crossings between Mġarr and Ċirkewwa by day of the week, terminal and year

— DID YOU KNOW ?

In 2022, the majority of passengers utilised the fast ferry service during the months of August and July, accounting for 140,154, or 29.4% of the total passengers. The month of January recorded the least number of passengers, reaching only 17,700 or 3.7% of the total.

MAP 5.2.1 – Distribution of trips between Malta and Gozo during 2022

YACHT MARINAS: 2022

In 2022, the Creek Developments Plc yacht marina had the largest berthing capacity of 759 berths. This was followed by the Mġarr Harbour Marina with 282 berths. (Table 5.2.6)

TABLE 5.2.1 – Stock of registered fishing vessels by type, region (NUTS 3) and district (LAU 1): 2022

METHODOLOGICAL NOTES

Fishing Vessels

- The data regarding fishing vessels is supplied by the Department of Fisheries and Aquaculture
- Definitions of fishing vessels:
 - As stated in SL 425.07 – Fishing Vessels Regulations
 - MFA:** Professional Fishing Vessels - Full-time
 - MFB:** Professional Fishing Vessels - Part-time
 - MFC:** Non-Commercial Fishing Vessels i.e. recreational
 - As stated in the report entitled “The Maltese Fishing Industry - year 2000” drafted by Michael Darmanin, Senior Fisheries Officer,
 - Luzzu:** The most traditional fishing vessel. It is pointed at both ends, and is painted in folkloristic bright colours.
 - Kajjik:** Differs from the luzzu in being generally smaller (average length 4.6 metres) and being flat ended at the stern. Previously, they were made of wood, but in recent years, fibre-glass has been the hull material of choice.
 - As stated from “The Fishing Industry in Malta Past-Present-Future” - Stanley Farrugia Randon
 - Firilla:** Almost identical in design to the luzzu but, the bulwark (tappiera) is secured to the outside of the kontrarota. The stem posts found at each end of this boat are also much higher than those of the luzzu and it has a wider appearance.
 - Bimbu:** Has a stern resembling that of a lanca while its bow resembles that of a luzzu.
 - Trawler:** A fishing trawler, also known as a dragger, is a commercial fishing vessel designed to operate fishing trawls. Trawling is a method of fishing that involves actively dragging or pulling a trawl through the water behind one or more trawlers.
 - Frejgatina:** A common term referring to a small boat which in shape is similar to a kajjik or luzzu.
 - MPV:** Multi Purpose Vessel is a seagoing ship that is built for the carriage of a wide range of cargoes.
 - Other:** Any vessel that is not listed above and also include dinghy, longliners, recreational fishing vessel, ‘lanča’ and ‘skuna’.

Sea Transport between Malta and Gozo regions

- The source of the data included in this publication is administrative information provided by the Gozo Channel Co. Ltd. and Transport Malta.
- The fast ferry service operating between Mġarr and Valletta commenced on 1 June 2021.
- The table below illustrates the passenger and vehicle capacity of each Gozo Channel vessel:

Carrying capacity Vessel	Vehicles	Passengers
MV Gaudos	72	900
MV Malita	138	900
MV Ta' Pinu	138	900
MV Nikolaos	160	650 (Summer) / 350 (Winter)

Periods when vessels were out of service for docking purposes:

MV Gaudos: 04/01/2021 - 11/02/2021.
 MV Malita: 09/01/2019-31/01/2019, 06/02/2019-13/02/2019, 07/03/2019-08/03/2019, 25/11/2019-02/12/2019 and 06/01/2022-10/02/2022.
 MV Ta' Pinu: 06/01/2020-10/02/2020.
 MV Nikolaos started operating on 13/06/2019.
 MV Nikolaos was put temporarily out of service as from 27/04/2020-02/07/2020 and 25/04/2022-29/05/2022.

- The table below illustrates the passenger capacity of each fast ferry service vessel:

Carrying capacity Vessel	Passengers
Your Wisdom (Gozo Fast Ferry Ltd)	296
Your Faith (Gozo Fast Ferry Ltd)	296
San Pawl (Virtu Ferries Ltd)*	316
Gozo Express (Virtu Ferries Ltd)*	308
San Frangisk (Virtu Ferries Ltd)	316

*The fast ferry service vessel, Gozo Express (Virtu Ferries Ltd) replaced San Pawl (Virtu Ferries Ltd) on 17/05/2022.

- Data for passengers travelling between Mġarr and Ċirkewwa comprises of foot and vehicle passengers and vehicle drivers. The fast ferry service does not allow for the transport of vehicles, only foot passengers are included.
- Different approaches to data collection are being applied at the Mġarr and Ċirkewwa Harbours with regards to the Gozo Channel service. While the data source for the Mġarr side is the Automated Ticketing System (ATS), data for the Ċirkewwa side is dependent on the manual clicking system.

6

TOURISM

This chapter presents a regional dimension of tourism statistics in MALTA for the years 2018 – 2022, mainly based on survey data collected from ongoing direct enquiries with industry operators and visitors. The content is structured in three distinct sections: (i) the performance of collective accommodation establishments as reported by operators; (ii) regional tourism demand comprising domestic and inbound tourism as declared by visitors; and (iii) main characteristics of cruise passengers.

6.1 SUPPLY-SIDE SURVEY (OPERATORS)

NATIONAL OUTLOOK OF THE COLLECTIVE ACCOMMODATION

On a national level, in 2022, total guests reached 1,813,151, an increase of 84.7 per cent over the same period in 2021. Of this total, 86.0 per cent were non-resident guests while the remaining 14.0 per cent were resident guests. Total nights spent increased by 77.9 per cent, surpassing 8.2 million, with the majority (91.9 per cent) being non-resident guest nights. (Table 6.1.1 and Charts 6.1.1a, 6.1.1b)

CHART 6.1.1a – Total guests in collective accommodation by type, region (NUTS 3) and year

CHART 6.1.1b – Total guest nights in collective accommodation by type, region (NUTS 3) and year

Other collective accommodation, comprising of guesthouses, hostels and tourist villages registered the largest increases over 2021 of 100.1 per cent in guests and 100.9 per cent in nights spent. In 2022, the largest share of guests and guest nights were reported in 4-star hotels, accounting for 798,680 guests or 44.0 per cent of the total guests and 3,812,386 or 46.5 per cent of total guest nights. Guests in 3 and 2-star hotels registered the largest increase in hotel guests, 95.1 per cent, while 4-star hotels registered the largest increase in hotel guest nights spent over 2021, 84.8 per cent. (Table 6.1.1 and Charts 6.1.2a, 6.1.2b)

CHART 6.1.2a – Total guests in collective accommodation by type of accommodation and year

CHART 6.1.2b – Total guest nights in collective accommodation by type of accommodation and year

The net use of bed-places increased by 20.1 percentage points to 53.2 per cent. In 2022, the average length of stay in collective accommodation establishments stood at 4.5 nights, reflecting a slight decrease of 0.2 of a night when compared to 2021. (Table 6.1.1)

Active collective accommodation establishments during peak month (as at 31 August 2022) totalled 255, with a net capacity of 43,809 bed-places (Table 6.1.1).

REGIONAL OUTLOOK OF THE COLLECTIVE ACCOMMODATION (NUTS 3)

Total guests in Malta region reached 1,724,134, up by 89.0 per cent over 2021. Additionally, an increase of 80.0 per cent was recorded in the number of guest nights. Increases were registered across all hotel categories and ‘other collective’ accommodations. Compared to the previous year, the average length of stay decreased by 0.2 of a night to 4.6. The longest average length of stays of non-resident guests and resident guests to Malta region were reported in the 4-star and 3 and 2-star hotel categories respectively. The net occupancy rate increased from 33.1 to 53.9 per cent. (Table 6.1.2 and Charts 6.1.3a, 6.1.4)

Total guests in Gozo and Comino region increased by 27.8 per cent to 89,017, while total nights spent went up by 32.0 per cent to 258,141 when compared to the previous year. Similar to Malta region, for the case of Gozo and Comino region, all categories registered increases in both guests and nights spent over 2021. The ‘other collective’ accommodation category registered the largest increases in both guests (59.2 per cent) and nights spent (55.4 per cent) over 2021. The average length of stay increased slightly to 2.9 from 2.8 in 2021. On average, the longest duration of visit of non-resident and resident guests to Gozo and Comino region were reported in the 4-star and 5-star hotel categories respectively. The net occupancy rate increased from 34.5 to 37.9 per cent. (Table 6.1.3 and Charts 6.1.3b, 6.1.4)

— DID YOU KNOW ?

Between 2019 and 2022, the largest proportion of guests in collective accommodation in Gozo and Comino region shifted from 3&2-star hotels in 2019 (33.6%) to 4-star hotels in 2022 (32.4%). During the same period under review, 4-star hotels were the most popular for guests in collective accommodation in Malta region.

CHART 6.1.3a – Average length of stay in collective accommodation in Malta region by type of accommodation and guest: 2022

CHART 6.1.3b – Average length of stay in collective accommodation in Gozo and Comino region by type of accommodation and guest: 2022

CHART 6.1.4 – Net use of bed-places in collective accommodation by type of guest, region (NUTS 3) and year

DISTRICT ANALYSIS OF THE COLLECTIVE ACCOMMODATION (LAU 1)

In 2022, the largest share of guests was recorded in the Northern Harbour district, tallying to 873,158 or 48.2 per cent of total guests. This was followed by the Northern district. Guests in Gozo and Comino district accounted for just 4.9 per cent of the total guests. All districts registered an increase in guests when compared to 2021. (Table 6.1.4)

Furthermore, in 2022, collective accommodation in the Northern Harbour and Northern districts comprised 85.5 per cent of the non-resident guests, at 50.5 and 35.0 per cent respectively. Non-resident guests in Gozo and Comino district accounted for just 2.4 per cent (Table 6.1.4 and Chart 6.1.5a). On the other hand, most resident guests were registered in the Northern district amounting to 37.5 per cent of total resident guests. Gozo and Comino district’s share of resident guests accounted for 20.5 per cent of total resident guests. (Table 6.1.4 and Chart 6.1.5b)

Most guest nights were spent in the Northern Harbour district amounting to 3.8 million or 46.3 per cent of the total. This was followed closely by the Northern district. The share of guest nights in Gozo and Comino accounted for 3.1 per cent of the total guest nights. Almost all districts registered increases in guest nights over 2022, except for the Western district which reported a slight decrease of 1.5 per cent. The largest increase in guest nights (96.0 per cent) was registered in the Southern Harbour district. (Table 6.1.4)

The Northern Harbour district took the largest proportion of non-resident guest nights, comprising 47.1 per cent of total. The share of the Gozo and Comino district with respect to non-resident guest nights accounted for just 1.8 per cent of the total (Table 6.1.4 and Chart 6.1.6a). Most resident guest nights were spent in the Northern district accounting for 38.6 per cent of total resident guest nights, while Gozo and Comino accounted for 18.2 per cent of total resident guest nights (Table 6.1.4 and Chart 6.1.6b).

CHART 6.1.5a – Non-resident guests in collective accommodation by district (LAU 1) and year

CHART 6.1.5b – Resident guests in collective accommodation by district (LAU 1) and year

CHART 6.1.6a – Non-resident nights in collective accommodation by district (LAU 1) and year

CHART 6.1.6b – Resident nights in collective accommodation by district (LAU 1) and year

The Northern district had the longest average length of stay, 5.4 nights, followed by the Northern Harbour district which had an average length of stay of 4.3 nights. The average length of stay increased by 0.1 of a night in the South Eastern, Northern and Gozo and Comino districts. On the other hand, in the Northern Harbour and the Western districts, the average length of stay decreased by 0.5 and 1.9 nights respectively, and the Southern Harbour remained at 3.3 nights. **(Table 6.1.4)** The longest average duration of stay of non-residents was registered in the Northern district while that of residents was reported in the Northern Harbour district **(Table 6.1.4 and Charts 6.1.7a-b)**.

— DID YOU KNOW ?

During 2022, although the majority of guest nights were registered in the Northern Harbour district (46.3%), the Northern district recorded the longest average length of stay at 5.4 nights.

CHART 6.1.7a – Average length of stay in collective accommodation of non-resident guests by district (LAU 1) and year

CHART 6.1.7b – Average length of stay in collective accommodation of resident guests by district (LAU 1) and year

The highest net occupancy rate was recorded in the Northern district at 57.2 per cent, followed by the Southern Harbour district at the rate of 52.6 per cent. All districts registered higher occupancy rates when compared to 2021. Highest occupancy rates in collective accommodation by non-resident and resident guests were reported in the Northern district (52.9 per cent) and in Gozo and Comino (17.7 per cent) respectively. (Table 6.1.4 and Charts 6.1.8a, 6.1.8b)

CHART 6.1.8a – Net use of bed-places in collective accommodation by non-resident guests by district (LAU 1) and year

CHART 6.1.8b – Net use of bed-places in collective accommodation by resident guests by district (LAU 1) and year

CHART 6.1.9a – Net use of bedrooms in collective accommodation by non-resident guests by district (LAU 1) and year

CHART 6.1.9b – Net use of bedrooms in collective accommodation by resident guests by district (LAU 1) and year

In 2022, at 38.0 per cent, the Northern Harbour district recorded the largest share in terms of active collective accommodation establishments, followed by the Northern district which accounted for 20.4 per cent of the total. Gozo and Comino district accounted for 11.0 per cent of the total active collective accommodation establishments. **(Table 6.1.4)**

On the other hand, the largest proportion of bed-places was registered in the Northern Harbour district, at 46.9 per cent of the total bed-places, followed by the Northern district at 39.6 per cent. The net capacity of active collective accommodation establishments in Gozo and Comino district accounted for 4.6 per cent of total bed stock of the collective accommodation. **(Table 6.1.4)**

SELF-CATERING ESTABLISHMENTS IN GOZO AND COMINO REGION

As at end of 2022, total registered self-catering accommodation accounted for 78.6 per cent of total bedstock in Gozo and Comino region. This consisted of 1,348 self-catering accommodation premises, with a net capacity of 7,328 bed-places. Bedstock of other self-catering establishments, comprising of apartments and villas with pool, accounted for more than half of the total active holiday furnished premises. **(Table 6.1.5 and Chart 6.1.10)**

CHART 6.1.10 – Distribution of bedstock by type of accommodation in Gozo and Comino region: 2022

METHODOLOGICAL NOTES

Collective Accommodation Establishments Survey (Accomstat)

- The data provided in this chapter is based on the latest data published by the National Statistics Office i.e. News Release 040/2023 – Collective Accommodation Establishments: Q4/2022 (<https://nso.gov.mt/collective-accommodation-establishments-q4-2022/>). The information contained in this chapter is subject to revision.
- The objective of the Survey on Collective Accommodation Establishments is to estimate the utilisation rate of bed-places of all active collective accommodation establishments in Malta and Gozo and Comino. The variables collected from the survey include:
 - Number of residents;
 - Number of non-residents;
 - Nights spent by residents;
 - Nights spent by non-residents;
 - Number of room nights sold to non-residents;
 - Number of room nights sold to residents;
 - Number of bedrooms;
 - Number of bed-places;
 - Number of days the establishment was closed during the month under review.

The collection of the above variables and the calculation of occupancy levels are in line with Regulation (EU) No. 692/2011.

- The survey is distributed monthly to all collective accommodation establishments, namely hotels, guesthouses, hostels and tourist villages.
- The Malta Tourism Authority (MTA) classification of all accommodation categories are found in Legal Notice 351 of 2012. (<https://legislation.mt/eli/in/2012/351/eng/pdf>)
- Users are advised that comparisons between non-resident arrivals recorded in the Inbound Tourism survey (Tourstat, demand-side) and the Collective Accommodation survey (Accomstat, supply-side), should be undertaken in the knowledge that discrepancies will be found. These are mainly due to differences in definitions and methodologies. For more details, one can consult Concept 15.4 of the NSO's metadata file (<https://metadata.nso.gov.mt/reports.aspx?id=35>).
- In view of the COVID-19 situation, guests accommodated in any collective accommodation establishment, and for which their stay was related to health or safety reasons (not related to tourism purposes), have been considered out-of-scope for tourist accommodation statistics and therefore, not recorded for March 2020 - March 2022.
- Definitions:
 - Bedroom:** a unit formed by one room or group of rooms constituting an indivisible rental whole in an accommodation establishment or dwelling.
 - Bed-place:** in an establishment, this is determined by the number of persons who can stay overnight in the establishment, not taking into account any extra beds that may be provided to clients on request.
 - Residents:** Maltese/Gozitan residents who check into/out of a collective accommodation establishment. A person is considered to be a Maltese/Gozitan resident if:
 - S/he has lived for most of the past 12 months in Malta/Gozo and Comino;
 - S/he has lived in Malta/Gozo and Comino for less than 12 months but intends to return within a year to settle here.
 - Non-residents:** foreigners who do not necessarily follow the definition of a tourist and check into/out of a collective accommodation establishment.
 - Total guests:** the total number of residents and non-residents.
 - Total nights spent:** the total number of nights which guests actually spend or are registered to spend in a collective accommodation establishment.
 - Net use of bed-places:** the net occupancy rate calculated for all active accommodation establishments, net of seasonal closures and other temporary closures. The occupancy of bed-places is calculated by dividing the total nights during the reference period by the number of bed-places and the number of days when the bed-places are actually available for use during the reference period. The result is then multiplied by 100 to express the occupancy rate as a percentage.
 - Average length of stay:** the number of nights spent divided by the number of guests during a specified reference period.

6.2 DEMAND-SIDE SURVEY (VISITORS)

6.2.1 DOMESTIC TOURISM

Domestic tourism as compiled by the National Tourism Survey, comprises the activities of:

- i) Malta residents visiting Gozo and Comino region; or
- ii) Gozo residents visiting Malta region; and

staying for not more than 12 consecutive months for personal, business or other purposes.

Domestic tourism trips: (i) conducted within same region of residence; and (ii) made routinely by respective residents, at least once a week, are excluded.

In 2021, domestic tourist arrivals reached 389,561, an increase of 8.1 per cent when compared to 2020. The largest share was registered in the 25-44 age bracket (53.3 per cent). Domestic tourists aged 65 years and over experienced the highest increase of 49.2 per cent over 2020. The majority of domestic tourists travelled for holiday purposes (78.1 per cent) and spent between one and three nights (79.2 per cent). In 2021, the average length of stay decreased by 0.2 of a night over 2020 to 2.8 nights. **(Table 6.2.1.1)**

— DID YOU KNOW ?

During 2021, domestic tourism across regions stood at 389,561 total arrivals, an increase of 8.1% over 2020. Malta residents travelling to Gozo and Comino region accounted for the highest proportion at 93.8% of total domestic tourists.

CHART 6.2.1.1a – Domestic and inbound tourists by region (NUTS 3): 2021

CHART 6.2.1.1b – Nights spent by domestic and inbound tourists by region (NUTS 3): 2021

DOMESTIC TOURISM TO GOZO AND COMINO REGION

Domestic tourists to Gozo and Comino region assumed a share of 83.8 per cent of total tourism demand within the same region. In 2021, Gozo and Comino region received 365,252 domestic tourists, an increase of 4.8 per cent over 2020. (Table 6.2.1.1 and Chart 6.2.1.1a)

CHART 6.2.1.2a – Domestic tourists by type of accommodation, region (NUTS 3) and year

Domestic tourists to Gozo and Comino region, who stayed in non-rented accommodation establishments amounted to 152,328, an increase of 7.5 per cent over 2020. More than half of the domestic stays in rented accommodation (64.4 per cent) were in other rented accommodation establishments. (Table 6.2.1.2 and Chart 6.2.1.2a)

CHART 6.2.1.2b – Nights spent by domestic tourists by type of accommodation, region (NUTS 3) and year

Domestic tourist nights spent in Gozo and Comino region totalled 1,040,129. This accounted for 67.3 per cent of total overnights spent in Gozo and Comino region (Chart 6.2.1.1b). The majority of nights (62.4 per cent) were in rented accommodation, of which 73.1 per cent were spent in other rented accommodation. (Table 6.2.1.3 and Chart 6.2.1.2b)

Domestic tourism expenditure in Gozo and Comino region was estimated at €76.6 million, an increase of 32.4 per cent over 2020. The highest percentage increase (45.3 per cent) was recorded in the ‘other expenditure’ category. (Table 6.2.1.4)

DOMESTIC TOURISM TO MALTA REGION

Gozo and Comino residents who travelled to Malta region as domestic tourists increased significantly from 11,971 in 2020 to 24,309 in 2021 (Table 6.2.1.1). The largest proportion (52.2 per cent) of the Gozo and Comino residents who travelled to Malta region stayed in non-rented accommodation. (Table 6.2.1.2 and Chart 6.2.1.2a)

Domestic tourist nights spent in Malta region amounted to 49,984 nights, an increase of 101.3 per cent over 2020. Nights spent in non-rented accommodation accounted for 55.2 per cent of total domestic tourist nights spent in Malta region. (Table 6.2.1.3 and Chart 6.2.1.2b)

In 2021, domestic tourism expenditure in Malta region was estimated at €3.7 million, an increase of €2.1 million over 2020. (Table 6.2.1.4)

6.2.2 INBOUND TOURISM

CHART 6.2.2.1 – Inbound tourists by itinerary, region (NUTS 3) and year

Inbound tourist arrivals increased significantly from 968,136 in 2021 to 2,286,597 tourist arrivals in 2022. Single centre destination inbound tourism accounted for the majority of the trips, 97.2 per cent, the rest being twin centre destination trips. (Tables 6.2.2.1, 6.2.2.2 and Chart 6.2.2.1)

CHART 6.2.2.2 – Nights spent by inbound tourists by type of accommodation, itinerary, region (NUTS 3) and year

Total nights spent by inbound tourists to MALTA surpassed 16.6 million, an increase of 98.0 per cent over 2021. Inbound tourist nights in the Malta region accounted for 94.6 per cent of the total, while the Gozo and Comino region accommodated the remainder. In 2022, Gozo and Comino region registered an increase of 76.1 per cent, reaching almost 0.9 million nights. Nights spent by single centre inbound tourists accounted for 95.9 per cent of total nights spent in MALTA. The remaining 4.1 per cent were nights spent on twin centre destination trips. (Tables 6.2.2.1, 6.2.2.8 and Charts 6.2.2.2, 6.2.2.3b)

In 2022, total expenditure by inbound tourists to MALTA surpassed €2.0 billion, an increase of 131.1 per cent over 2021. Package and non-package expenditure constituted 20.6 and 40.1 per cent of the total respectively, while ‘other expenditure’ accounted for the remaining 39.3 per cent. Accommodation expenditure amounted to 59.2 per cent of the total non-package expenditure. Expenditure by inbound tourists on single centre destination trips accounted for 96.7 per cent of total. (Table 6.2.2.9)

INBOUND TOURISM TO MALTA REGION AS A SINGLE CENTRE DESTINATION

CHART 6.2.2.3a – Inbound tourism by itinerary and region (NUTS 3): 2022

— DID YOU KNOW ?

Out of the 2.2 million inbound tourists visiting Malta as a single centre destination during 2022, 75.8% were first-time visitors, whereas 43.9% spent at least 7 nights.

CHART 6.2.2.3b – Nights spent by inbound tourists by itinerary and region (NUTS 3): 2022

Malta region recorded the highest demand in terms of inbound tourist arrivals. In 2022, inbound tourists to Malta region as a single centre destination reached almost 2.2 million, reflecting a 2.4-fold increase when compared to 2021. (Tables 6.2.2.1, 6.2.2.3 and Charts 6.2.2.1, 6.2.2.3a)

Most of the inbound tourists were aged between 25 and 44 (39.8 per cent) and came from EU Member States (70.0 per cent), with the strongest market being Italy. With regards to Non-EU countries, most of the inbound tourists came from the UK, accounting for 38.7 per cent of the total inbound tourists from Non-EU countries. The majority of single centre trips (1.8 million) to Malta region were done for holiday purposes (82.2 per cent). First-time tourists accounted for 75.8 per cent while the remainder were repeat tourists. When compared to 2021, non-package trips increased by 139.3 per cent, implying that 75.6 per cent of trips in 2022 were non-package; the package trips increased by 143.9 per cent when compared to 2021. (Table 6.2.2.3 and Charts 6.2.2.4 - 6.2.2.6)

CHART 6.2.2.4 – Inbound tourists to Malta region as a single centre destination by main markets and year

Note:
* Refer to Methodological note 15.

CHART 6.2.2.5 – Inbound tourists to Malta region as a single centre destination by age group and year

CHART 6.2.2.6 – Inbound tourists to Malta region as a single centre destination by organisation of stay and year

CHART 6.2.2.8 – Inbound tourists to MALTA by itinerary and mode of travel: 2022

CHART 6.2.2.7 – Inbound tourists to Malta region as a single centre destination by mode and type of travel to MALTA and year

CHART 6.2.2.9 – Inbound tourists to Malta region as a single centre destination by type of accommodation and year

CHART 6.2.2.10a – Average length of stay of inbound tourists to MALTA by region (NUTS 3): 2022

CHART 6.2.2.10b – Average length of stay of inbound tourists to MALTA by itinerary: 2022

CHART 6.2.2.10c – Average length of stay of inbound tourists to Malta region by itinerary: 2022

CHART 6.2.2.10d – Average length of stay of inbound tourists to Gozo and Comino region by itinerary: 2022

More than half of the single centre inbound tourists, 60.5 per cent, travelled by low-cost airlines and 37.1 per cent by other airlines. In 2022, travelling by low-cost airlines registered the largest increase of 149.0 per cent, followed by travelling by other airlines which registered an increase of 128.4 per cent when compared to 2021. (Table 6.2.2.3 and Charts 6.2.2.7, 6.2.2.8)

Single centre inbound tourists to Malta region who stayed in rented accommodation reached 1.9 million, or 88.6 per cent, while the remaining 11.4 per cent opted to stay in non-rented accommodation. The majority of those staying in the rented accommodation, 73.5 per cent, preferred to stay in collective accommodation. (Table 6.2.2.3 and Chart 6.2.2.9)

In 2022, the average length of stay stood at 7.1 nights, down by 1.4 of a night. The largest percentage increase (192.2 per cent) was registered in the category of single centre inbound tourists to Malta region who spent between one and three nights. (Table 6.2.2.3)

Nights spent by inbound tourists to Malta region as a single centre destination went up by 101.2 per cent when compared to 2021, amounting to 15.3 million nights. (Table 6.2.2.8 and Chart 6.2.2.2)

CHART 6.2.2.11a – Expenditure of inbound tourists by category and itinerary: 2022

CHART 6.2.2.11b – Expenditure by inbound tourists to Malta region as a single centre destination: 2022

Total expenditure by inbound tourists to Malta as single centre destination, reached almost €1.9 billion. The largest proportions of total package and non-package expenditure were spent by single centre tourists to Malta region. The non-package expenditure by single centre inbound tourists to Malta region was higher compared to the package component. (Table 6.2.2.9 and Charts 6.2.2.11a, 6.2.2.11b)

In 2022, total expenditure per capita of inbound tourists that visited Malta region as a single centre destination decreased from €889 in 2021 to €873. The largest increase was in the air/sea fare expenditure per capita category which went up from €166 to €186. (Table 6.2.2.10 and Charts 6.2.2.7, 6.2.2.12)

CHART 6.2.2.12 – Per capita expenditure of inbound tourists by itinerary: 2022

During 2022, the top five places where single centre inbound tourists to Malta region stayed longest included San Ġiljan, San Pawl Il-Baħar/Buġibba/Il-Qawra, Tas-Sliema, Il-Mellieħa and Valletta (Chart 6.2.2.13).

CHART 6.2.2.13 – Top 5 localities where inbound tourists who visited Malta region as a single centre destination stayed longest: 2022

TOTAL VISITORS TO GOZO AND COMINO REGION

CHART 6.2.2.14 – Total inbound visitors to Gozo and Comino region by year

Visitors to Gozo and Comino region comprise same-day visitors as well as inbound tourists that visit the region as a single or twin centre destination. In 2022, total visitors to Gozo and Comino reached 1.3 million, up by almost 0.8 million from 2021. One-tenth of total visitors to Gozo and Comino (129,059) were inbound tourists, an increase of 82.7 per cent when compared to 2021. Tourism activity in Gozo and Comino remained highly skewed towards same-day visitors. (Tables 6.2.2.4, 6.2.2.5 and Chart 6.2.2.14)

SAME-DAY VISITORS TO GOZO AND COMINO REGION

Same-day visitors to Gozo and Comino accounted for 90.3 per cent of the total inbound visitors to Gozo and Comino, totalling to 1,203,891 visitors (Table 6.2.2.5 and Chart 6.2.2.14).

CHART 6.2.2.15 – Same-day visitors to Gozo and Comino region by main markets and year

Note:
* Refer to Methodological note 15.

CHART 6.2.2.16 – Same-day visitors to Gozo and Comino region by age group and year

CHART 6.2.2.17 – Same-day visitors to Gozo and Comino region by organisation of stay and year

The majority came from EU Member States (74.3 per cent), with major market being Italy and visited MALTA on a non-package trip (73.6 per cent). The UK was the strongest market in Non-EU countries, accounting for 58.7 per cent of total same-day visitors from Non-EU countries in 2022. Most same-day visitors were aged between 25 and 44 (39.2 per cent). Same-day visitors to Gozo and Comino on package organised trips increased by 152.3 per cent, whereas same-day visitors on a non-package stay went up by 157.2 per cent when compared to 2021. **(Table 6.2.2.5 and Charts 6.2.2.15 - 6.2.2.17)** In 2022, 84.2 per cent of the same-day visitors to Gozo and Comino visited MALTA for the first time. The remaining 15.8 per cent were repeat tourists, 16.3 per cent of which visited MALTA twice a year or more. **(Table 6.2.2.5)**

Since 2019, same-day visits to Gozo and Comino region by tourists travelling by low-cost airlines accounted for the highest share. In 2022, these stood at 749,777, or 62.3 per cent of the total same-day visitors to Gozo and Comino. **(Table 6.2.2.5 and Chart 6.2.2.18)**

— DID YOU KNOW ?

From 2021 to 2022, the portion of first-time tourists visiting Gozo and Comino as same-day visitors increased significantly from 0.4 million to 1.0 million, whereas the total repeat tourists reached almost 0.2 million in 2022, reflecting an increase of 0.1 million when compared to 2021.

CHART 6.2.2.18 – Same-day visitors to Gozo and Comino region by mode and type of travel to MALTA and year

INBOUND TOURISTS TO GOZO AND COMINO REGION AS A SINGLE CENTRE DESTINATION

In 2022, the Gozo and Comino region recorded an increase in terms of total inbound tourist arrivals of 82.7 per cent over the previous year, totalling 129,059. **(Tables 6.2.2.1, 6.2.2.4, 6.2.2.6 and Charts 6.2.2.1, 6.2.2.3a)**

Inbound tourists who visited Gozo and Comino region as a single centre destination amounted to 64,687, an increase of 116.4 per cent over 2021. This accounted for 50.1 per cent of the total inbound tourists to Gozo and Comino region. **(Table 6.2.2.1, 6.2.2.6 and Chart 6.2.2.3a)** While the majority came from EU Member States (56.0 per cent), the strongest market in 2022 was the UK. Most were aged between 25 and 44 (35.9 per cent). Trips for holiday purposes accounted for 79.5 per cent of the total and another 13.3 per cent were undertaken to visit relatives and friends. **(Table 6.2.2.6)**

CHART 6.2.2.19 – Inbound tourists to Gozo and Comino region as a single centre destination by main markets and year

Note:
* Refer to Methodological note 15.

CHART 6.2.2.20 – Inbound tourists to Gozo and Comino region as a single centre destination by age group and year

CHART 6.2.2.21 – Inbound tourists to Gozo and Comino region as a single centre destination by organisation of stay and year

CHART 6.2.2.22 – Inbound tourists to Gozo and Comino region as a single centre destination by mode and type of travel to MALTA and year

Non-package trips accounted for 87.6 per cent or 56,681 inbound tourists to Gozo and Comino region, an increase of 111.5 per cent over the previous year. The single centre package trips to Gozo and Comino region increased by 159.5 per cent over 2021. (Table 6.2.2.6 and Chart 6.2.2.21) More than half of the single centre inbound tourists to Gozo and Comino region, 54.2 per cent were first-time tourists. Slightly over half (57.2 per cent) of the single centre inbound tourists to Gozo and Comino region travelled by low-cost airlines and 42.5 per cent by other type of airlines. Single centre trips by low-cost airlines increased significantly from 15,507 in 2021 to 36,981 in 2022, while other airlines posted an increase of 92.4 per cent. (Table 6.2.2.6 and Charts 6.2.2.8, 6.2.2.22)

The majority of single centre tourists to Gozo and Comino region, 72.2 per cent, stayed in rented accommodation, with 65.1 per cent of them opting to stay in other rented accommodation (Table 6.2.2.6 and Chart 6.2.2.23).

CHART 6.2.2.23 – Inbound tourists to Gozo and Comino region as a single centre destination by type of accommodation and year

Most of the inbound single centre trips to Gozo and Comino region were within the bracket of seven nights or more. In 2022, the average length of stay of single centre inbound tourists to Gozo and Comino region decreased to 9.9 nights from 11.8 nights in 2021. (Table 6.2.2.6 and Chart 6.2.2.10d)

— DID YOU KNOW ?

Between 2019 and 2022, the per capita expenditure of inbound tourists in Gozo and Comino as a single centre destination was highest during 2022, reaching €965, while the lowest per capita expenditure was registered during 2019 (€826).

CHART 6.2.2.24 – Nights by inbound tourists to Gozo and Comino region as a single centre destination by type of accommodation: 2022

Nights spent by inbound tourists to Gozo and Comino region on single centre trips went up by 82.1 per cent when compared to 2021, amounting to 642,635 nights (Tables 6.2.2.1 and 6.2.2.8). The largest share of single centre nights in Gozo and Comino region, 63.8 per cent, were spent in rented accommodation with 69.4 per cent spent in other rented accommodation. (Table 6.2.2.8 and Charts 6.2.2.2, 6.2.2.24)

Expenditure by inbound tourists to Gozo and Comino region as single centre destination was estimated at €62.4 million in 2022, an increase of 123.2 per cent when compared to the previous year. Non-package expenditure by single centre inbound tourists to Gozo and Comino region was almost four times higher than the package component (Table 6.2.2.9 and Charts 6.2.2.11a, 6.2.2.25).

CHART 6.2.2.25 – Percentage share of total expenditure by inbound tourists to Gozo and Comino region as a single centre destination: 2022

In 2022, total expenditure per capita of inbound tourists that visited Gozo and Comino region as a single centre destination increased from €936 in 2021 to €965. An increase was recorded in the air/sea fare expenditure category of 10.1 per cent. (Table 6.2.2.10 and Chart 6.2.2.12)

CHART 6.2.2.26 – Top 5 localities where inbound tourists who visited Gozo and Comino region as a single centre destination stayed longest: 2022

Iż-Żebbuġ (Għawdex), Il-Munxar, Ix-Xagħra, Ir-Rabat (Għawdex) and L-Għarb featured as the top five places where single centre inbound tourists to Gozo and Comino region stayed longest (Chart 6.2.2.26). It is worth pointing out that here the situation is incomplete contrary to the situation in Malta region, since most inbound tourists visit Gozo and Comino as twin centre destination, and in most cases, exclude locality stayed in Gozo and Comino.

INBOUND TOURISTS TO MALTA AND GOZO AND COMINO REGIONS AS TWIN CENTRE DESTINATION

In 2022, inbound tourists who visited Malta and Gozo and Comino regions as twin centre destination totalled 64,372, an increase of 57.9 per cent when compared to 2021. (Tables 6.2.2.1, 6.2.2.4, 6.2.2.7 and Charts 6.2.2.1, 6.2.2.3a)

CHART 6.2.2.27 – Inbound tourists to Malta and Gozo and Comino regions as twin centre destination by main markets and year

Note:
* Refer to Methodological note 15.

CHART 6.2.2.28 – Inbound tourists to Malta and Gozo and Comino regions as twin centre destination by age group and year

CHART 6.2.2.29 – Inbound tourists to Malta and Gozo and Comino regions as twin centre destination by organisation of stay and year

CHART 6.2.2.30 – Inbound tourists to Malta and Gozo and Comino regions as twin centre destination by mode and type of travel to MALTA and year

The majority of inbound tourists on twin centre trips were first-time tourists (79.2 per cent) and came from EU Member States (73.8 per cent) with the strongest market being France. The largest share of twin centre inbound tourists was in the 25 - 44 age bracket (44.5 per cent). Majority of twin centre trips were carried out for holiday purposes (88.6 per cent). Non-package twin centre trips accounted for 90.3 per cent, an increase of 51.3 per cent over 2021. Over half of the twin centre inbound tourists travelled by low-cost airlines (51.9 per cent), 42.9 per cent by other airlines and the remaining by sea. All modes of travel recorded increases when compared to 2021. (Table 6.2.2.7 and Charts 6.2.2.8, 6.2.2.27 - 6.2.2.30)

CHART 6.2.2.31 – Inbound tourists to Malta and Gozo and Comino regions as twin centre destination by type of accommodation and year

Most of the twin centre tourists stayed in rented accommodation, while the remaining 10.1 per cent stayed in non-rented accommodation. More than half (51.1 per cent) of those opting for rented accommodation chose collective accommodation. (Table 6.2.2.7 and Chart 6.2.2.31)

Total nights spent by twin centre tourists went up by 54.1 per cent when compared to 2021, amounting to 675,889 nights (Tables 6.2.2.1, 6.2.2.8 and Charts 6.2.2.2, 6.2.2.3b). The majority of inbound twin centre tourist nights, 81.7 per cent, were spent in rented accommodation, 50.3 per cent of which sought other rented accommodation. (Table 6.2.2.8 and Chart 6.2.2.2)

Expenditure by twin centre tourists amounted to €67.2 million in 2022. Non-package expenditure by twin centre inbound tourists was almost five times higher when compared to package expenditure. The package expenditure component increased drastically by 167.3 per cent when compared to 2021. (Table 6.2.2.9 and Chart 6.2.2.11a)

In 2022, total expenditure per capita of inbound tourists who visited Malta and Gozo and Comino regions as twin centre destination decreased from €1,098 in 2021 to €1,044. The largest growth was recorded in the air/sea fare expenditure per capita which increased from €180 to €203. (Table 6.2.2.10 and Chart 6.2.2.12)

— DID YOU KNOW ?

In 2022, total nights spent by inbound tourists visiting Malta and Gozo and Comino as a twin-centre destination increased by more than 1.5 times from 2021 to 675,889 nights. The total expenditure spent by the same tourist profile also increased by 1.5 times when compared to 2021, reaching €67.2 million during 2022.

METHODOLOGICAL NOTES

National Tourism Survey and Inbound Tourism Survey (Tourstat)

- In 2014, the National Statistics Office introduced a new tool to measure National Tourism to satisfy the concepts and definitions as outlined by Eurostat. The collection consists of tourism demand data on domestic and outbound trips as required by Regulation (EC) No. 692/2011 of the European Parliament and of the Council concerning statistics on tourism statistics. The Regulation aims at giving a complete and comprehensive picture of tourism in Europe and allows the comparability of results with other EU member states. Data is collected via a quarterly Computer-Assisted Telephone Interviewing (CATI) survey.
- Domestic tourism excludes individuals aged 0 to 14 years and overnight stays within the same region of origin, such as, weekend breaks in Malta region by Malta residents.
- Inbound tourism data are collected from an ongoing frontier national survey known as Tourstat. Tourist air departures are collected through a continuous survey carried out at the departure lounge of the Malta International Airport. A two-stage sampling design is used to collect data on air passengers. In the first stage, alternate days and nights are selected. In the second stage, within each shift, a sample of air passengers is selected systematically. Every crossing air passenger is counted and respondents are selected using a pre-defined interval of 1:20, with the exception of July 2020 and the period October 2020 to June 2021, where the pre-defined interval was 1:10.
- Tourstat measures the number of tourist trips carried out during a reference month. 'Tourist trips' differ from the 'number of tourists' in that the same person can make more than one trip during the same period.
- Tourist sea departures are collected through a regular survey carried out at the Valletta Cruise Port during three separate months every year. A quota sample is used. Survey data is supplemented by administrative data provided by ferry operators.
- Definitions:
 - Usual Environment:** The geographical area, though not necessarily a contiguous one, within which an individual conducts his regular life routines and shall be determined on the basis of the following criteria: the crossing of administrative borders or the distance from the place of usual residence, the duration of visit, the frequency of visit, the purpose of visit.
 - Resident:** A person is considered to be a resident of Malta/Gozo and Comino if:
 - S/he has lived for most of the past 12 months in Malta/Gozo and Comino;
 - S/he has lived in Malta/Gozo and Comino for less than 12 months but intends to return within a year to settle here.
 - Traveller:** A person who moves between different geographic locations, for any purpose and any duration.
 - Visitor:** The three fundamental criteria used to distinguish visitors from travellers are:
 - The trip should be to a place other than that of the usual environment**, which would exclude short-distance local transport and commuting, i.e. more or less regular trips between the place of work/study and the place of residence;
 - The stay in the place visited should not last more than twelve consecutive months**, beyond which the visitor would become a resident of that place (from the statistical standpoint);
 - The main purpose of the visit should be other than the exercise of an activity remunerated from within the place visited**, which would exclude migratory movements for work purposes.
 - Tourist:** A visitor who stays at least one night in a rented and non-rented accommodation in the place/country visited.
 - Domestic tourism:** Comprises the activities of a resident visitor within the country, i.e. Maltese residents visiting Gozo and Comino and vice versa and staying for not more than 12 consecutive months for personal, business or other purposes.
 - Inbound tourism:** Comprises the activities of non-resident visitors travelling to Malta (i.e. outside their usual environment) and staying for not more than 12 consecutive months for personal, business or other purpose. The number of inbound tourists cannot be equated to monthly passenger data released by the MIA because the latter includes departing Maltese and transit passengers.
 - Outbound tourism:** Comprises the activities of residents of Malta travelling to, and staying in places outside Malta and therefore outside their usual environment.
 - Same-day visitor:** A visitor who does not spend the night in rented or non-rented accommodation in the country/place visited.
 - Single centre destination:** Refers to inbound tourism trips with overnight stays in one region only.
 - Twin centre destination:** Refers to inbound tourism trips with combined overnight stays in two regions, i.e., Malta and Gozo and Comino regions.

- **Total nights spent:** Nights which a guest actually spends or is registered to spend in a rented accommodation establishment or in a non-rented accommodation.
 - **Average length of stay:** The number of nights spent divided by the number of trips during a specified reference period.
 - **Rented accommodaton:** Consists of the following two sub-categories:
 - (a) **Collective accommodation:** comprises hotels, guesthouses, hostels, tourist villages, holiday complex, Bed & Breakfast and campsites.
 - (b) **Other rented accommodation:** comprises holiday furnished premises (farmhouses, flats and villas), host families, marinas, paid-convents, rented yachts and student dormitories.
 - **Non-rented accommodaton:** Comprises own private residence (owned dwellings, owned caravans and yachts), staying with friends or relatives (even if charged - includes also friends' private apartments) and other private accommodation (oil rig, free-convents or timeshare, etc.).
 - **Total expenditure:** Refers to the amount that is going to be paid for the acquisition of consumption goods and services, as well as valuables during tourism trips. It includes expenditures by visitors themselves, as well as expenses that are paid for or reimbursed by others. The total expenditure is broken down by the following expenditure items:
 - (a) **Package expenditure:** refers to the whole amount of money spent on transport, accommodation and other services such as rental of a car, activities or outings during the trip.
 - (b) **Non-package expenditure:** is the amount of money spent on transport and accommodation reported separately.
 - (c) **Other expenditure:** is the amount spent on shopping, souvenirs, tickets for concerts or sports events, entrance to museums or zoos and day excursions during a tourism trip. It also includes durables and valuable goods, that is, the amount spent on cars, computers, paintings, jewellery and works of art.
7. Arrivals and nights spent in time-share accommodation are being categorised in 'Non-rented Accommodation' instead of 'Collective Accommodation' as per Eurostat recommendation. In this regard, there may be minor differences between these statistics and statistics published in tourism supply due to the fact that hotels report time-share accommodation under 'Collective Accommodation'.
 8. Prior to comparing and interpreting differences between demand-side (based on Tourstat) and supply-side (based on Accomstat) tourism statistics, users are strongly advised to consult concept 15.4 of the NSO's metadata file (<https://metadata.nso.gov.mt/reports.aspx?id=35>).
 9. Absolute changes between one survey estimate and another must be treated with caution since minor changes (i.e. less than 1,500 trips) might be the result of sampling error. Percentage changes for tourists based on counts of less than 1,500 are not presented due to sampling errors.
 10. The expenditure data in this publication should not be equated to national tourism earnings.
 11. In view of the COVID-19 situation, the Tourstat survey was suspended between 12 March and 30 June 2020. Statistical methods were applied to cover the period from 13 March to 20 March 2020, when scheduled passenger flights were still in operation.
 12. In view of the COVID-19 situation, prohibition of non-essential travel between Malta and Gozo came into effect on 03 April 2020 and was lifted on 04 May 2020 (L.N. 118 of 2020: Public Health Act (Cap. 465); Mandatory Non-essential Travel between Malta and Gozo Order, 2020 (<https://legislation.mt/eli/ln/2020/118/eng>)).
 13. Malta International Airport reopened on 1 July 2020. The first group of destinations that reopened for travel comprised: Germany, Austria, Italy, France, Spain, Poland, Cyprus, Switzerland, Iceland, Slovakia, Norway, Denmark, Hungary, Finland, Ireland, Lithuania, Latvia, Estonia, Luxembourg, Czech Republic, Greece and Croatia. Restrictions on all other flight destinations were lifted on 15 July 2020.

14. During the COVID-19 situation, the following tourism-related sequence of events took place in 2020:

28th February	People flying in from Italy, China (including Hong Kong, Singapore, Japan, Iran, South Korea) from 26th February onwards needed to stay in quarantine for 14 days upon arrival.
8th March	Flights from/to Milan were suspended.
10th March	Flights from/to Italy were suspended.
10th March	The last Cruise call.
11th March	Flights from/to France, Switzerland, Germany, Spain, were suspended.
11th March	People flying in from France, Switzerland, Germany, Spain, needed to stay in quarantine for 14 days upon arrival.
13th March	All people flying in from all destinations needed to stay in quarantine for 14 days upon arrival.
18th March	The last Virtu' Ferries service for passengers between Malta and Sicily.
21st March	All flights from/to all destinations were suspended.
1st July	Re-opening of Malta International Airport. The first group of destinations that reopened for travel comprised: Germany, Austria, Italy, France, Spain, Poland, Cyprus, Switzerland, Iceland, Slovakia, Norway, Denmark, Hungary, Finland, Ireland, Lithuania, Latvia, Estonia, Luxembourg, Czech Republic, Greece and Croatia.
15th July	Restrictions on all other flight destinations were lifted.
21st August	First cruise liner call since March 2020.

15. Owing to the UK's exit from the European Union (with effect from 1st February 2020), UK data is statistically classified as Non-EU. Comparability between comparative periods should be treated with caution.

6.3 CRUISE PASSENGERS

In 2022, there were 283 cruise liner calls in MALTA with a total of 489,571 cruise passengers, almost 3.5 times the total passengers who visited MALTA in 2021. At 85.2 per cent, transit passengers accounted for the vast majority of total traffic reaching 417,250. The average passengers per vessel in MALTA stood at 1,730. (Table 6.3.1) A total of 2,656 passengers visited Gozo and Comino region, while 43,723 spent at least one night on board their berthed cruise liner. (Tables 6.3.1 and 6.3.2)

Visitors from the EU Member States comprised 59.3 per cent of total traffic, the major market being Germany at 94,020 passengers. The German and Spanish markets recorded the largest increases, advancing by 79,397 and 23,737 passengers, respectively. (Table 6.3.1)

During 2022, the largest share of passengers was in the 40 to 59 age bracket (34.9 per cent), followed by those aged between 60 and 79 years (29.6 per cent). (Tables 6.3.1)

Source: Transport Malta

METHODOLOGICAL NOTES

1. The majority of passengers embarking on cruise liners from Malta generally end their trip at the same destination. Embarkations are therefore not included in total traffic figures, in order to avoid double counting.
2. Cruise liners calling at both Malta and Gozo and Comino regions during a single voyage are recorded as one liner call.
3. Owing to the UK's exit from the European Union (with effect from 1st February 2020), UK data is statistically classified as Non-EU from January 2020 for all the tables. Requests for further clarification may be directed to the Tourism and Education Statistics Unit.
4. Due to the UK's re-classification following exit from the European Union on 1st February 2020, comparability of totals between same periods should be treated with caution.
5. Definitions:
 - **Cruise passenger traffic:** comprises transit passengers and passengers who land in Malta.
 - **Embarkations:** comprise all cruise passengers who are either Maltese or who are foreigners who arrive in Malta by other means of transport.
 - **Transit passengers:** comprise all cruise passengers who arrive in and leave Malta on the same cruise ship.
 - **Landed passengers:** comprise all cruise passengers who arrive in Malta on a cruise ship and leave by other means of transport, or alternatively, stay in Malta.
 - **Passengers staying overnight:** comprise passengers who spend at least one night in the Maltese Islands either onboard the cruise ship or on land.

7

AGRICULTURE AND FISHERIES

This chapter provides statistics on the agriculture and fisheries activities by region in MALTA for the years 2017 to 2022. The first part provides information on the sales by quantity and value of produced fruit and vegetables. Following this, a series of indicators related to livestock show the number of heads and type of livestock that were reared as well as the number of licences that were operating locally. Then, the last part covers the local fisheries sector and portrays data on the quantity and value of fish landings recorded in MALTA by the different fish species.

7.1 AGRICULTURE

PRODUCTION OF FRUIT AND VEGETABLES

During 2022, the total quantity of fruit and vegetables produced and sold in the local organised markets exceeded 33,400 tonnes, with vegetable produce accounting for 94.1 per cent of the total marketed products, and the rest being accounted for by fruit produce. The wholesale value of fruit and vegetables reached €24.5 million in 2022, of which €20.8 million (84.5 per cent) was generated through the sales of vegetables. When compared to 2017 the total quantity of fruits and vegetables sold in MALTA decreased by 6.3 and 12.3 per cent respectively. On the other hand, the wholesale value of fruit and vegetables increased by 31.3 and 16.8 per cent correspondingly. On a regional level, during 2022, the Malta region produced 93.6 per cent of the total quantity of marketable vegetables, while the Gozo and Comino region produced 6.4 per cent of the total quantity. These sales generated €19.1 million and €1.6 million respectively for the Malta and the Gozo and Comino regions. Moreover, the production of fruit in the Malta region made up 87.6 per cent of the total quantity recorded in 2022 whereas the Gozo and Comino region produced the remaining 12.4 per cent of the total, generating €3.5 million and €0.3 million respectively. (Table 7.1.1)

— DID YOU KNOW ?

Between 2017 and 2022, the total quantity of fruit and vegetables sold through organised markets decreased by 3,662 tonnes in the Malta region and by 878 tonnes in the Gozo and Comino region.

LIVESTOCK

In 2022, the number of livestock heads that were being reared in MALTA amounted to 29,554 pigs, 14,465 sheep, 14,200 cattle, and 6,519 goats. On a regional level, the Malta region accounted for 94.8 per cent of the total number of reared pigs, 75.1 per cent of goats, 71.4 per cent of sheep and 63.4 per cent of cattle. The remaining shares were accounted for by the Gozo and Comino region.

Map 7.1.1 displays the number of livestock heads by locality. The Western and South Eastern districts had the highest concentration of pigs and goats respectively, while dairy cows, cattle and sheep concentrations were predominantly registered in the Gozo and Comino district. With regards to the distribution of licences, it transpired that 52.4 per cent of the licences in MALTA were registered as rearing sheep. The Malta region accounted for 91.0 per cent of the pig licences, 81.4 per cent of the cattle licences, 73.1 per cent of the goat licences and 69.5 per cent of the sheep licences. Pig licences in MALTA, which amounted to 89 in 2022 were the only category of licences which indicated a decline over the previous years, this also reflected a decrease in the number of reared pigs, which represented a decline of 26.2 per cent over the preceding year. (Tables 7.1.2 and 7.1.3, Charts 7.1.1 - 7.1.3)

CHART 7.1.1 – Distribution of livestock heads by region (NUTS 3) and selected years

CHART 7.1.2 – Distribution of livestock licences by region (NUTS 3) and selected years

MAP 7.1.1 – Livestock heads by locality (LAU 2): 2022

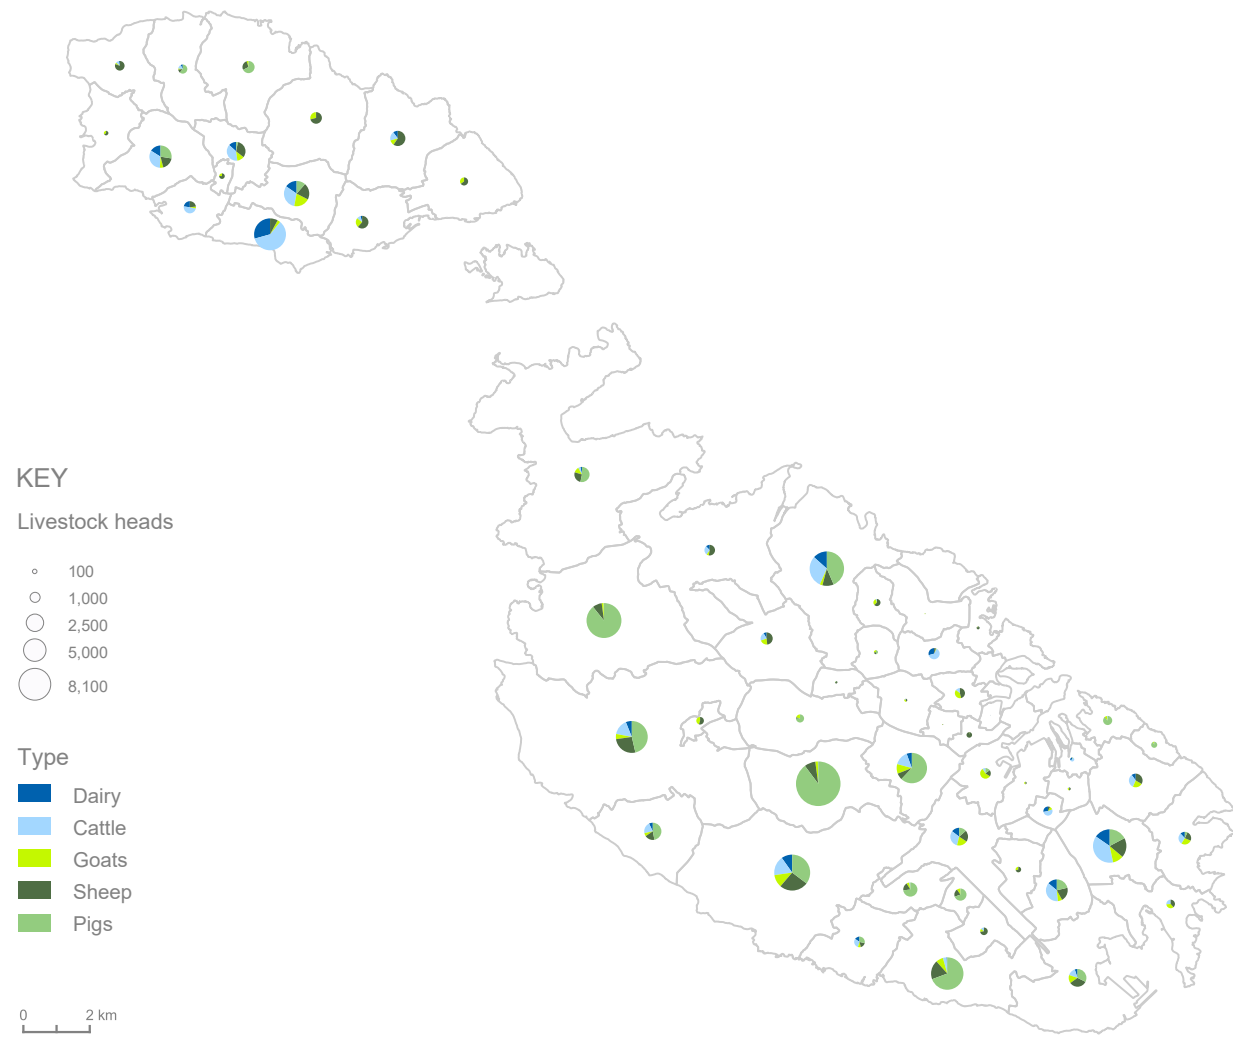

CHART 7.1.3 – Livestock heads and respective licences by region (NUTS 3): 2022

— DID YOU KNOW ?

Between 2017 and 2022, the largest increase in livestock heads in the Gozo and Comino region was registered in the number of sheep, by 591 heads, while the number of reared pigs registered the largest decrease of 1,149.

METHODOLOGICAL NOTES

1. Information on agricultural output that is sold through organised markets is compiled by the NSO via administrative data received on a monthly basis.
2. Regional data on the sales of fruit and vegetables that is collected through the administrative sources is dependent on the residency of the respective farmer and independent of the final place of the farmer's consignment at any of the local organised markets.
3. Data is recorded by crop, quantity, value and average unit price.
4. Data collection on cattle, pigs, sheep and goats is in accordance with EU Regulation (EC) No. 1165/2008.

7.2 FISHERIES

FISH LANDINGS

When analysing the quantity of fish landings by species in MALTA during 2022, the Atlantic chub mackerel claimed the largest share at 25.8 per cent of the total. The Malta region was the main contributor in terms of total fish landings. In fact, the share of fish landings originating from the Gozo and Comino region amounted to 9.7 per cent of the total. In MALTA, the Swordfish landings generated the highest total value of €3.5 million or 26.4 per cent of the total. By comparison, the Gozo and Comino region accounted for 9.6 per cent of the total value generated by the entire industry in MALTA. (Tables 7.2.1, 7.2.2 and Chart 7.2.1)

— DID YOU KNOW ?

Between 2017 and 2022, the highest increase in fish landings for the Malta region was registered for the Atlantic chub mackerel by 401,754 kilogrammes, whilst for the Gozo and Comino region the highest increase was registered for the Atlantic bluefin tuna by 7,708 kilogrammes. The Common dolphinfish generated the highest total value at €0.5 million or 36.6% of the total fish value generated by the Gozo and Comino region, whereas in the Malta region, the Swordfish contributed to the largest value, at 28.3%.

CHART 7.2.1 – Quantity of fish landings by species and region (NUTS 3): 2022

Note:
1. Allis shad species was removed as no data was recorded.

METHODOLOGICAL NOTES

1. Monthly data on fish landings is collected on a quarterly basis through an administrative source; which is in turn collected via the daily returns of sales as submitted by the fishermen at the fish market or directly by themselves.

8

RESOURCES

This chapter is split into three sections, covering regional statistics on water, waste and renewable energy harvesting. Statistics for water production and consumption are based on information supplied by the Water Services Corporation. Waste statistics comprise separate waste collection through bring-in sites, civic amenity sites and door-to-door collection, together with municipal waste generation. Statistics on renewable energy harvesting refer strictly to data on photovoltaics (PV) installations, peak power rating in kWp and energy harvesting in GWh.

8.1 WATER

Water production in MALTA mainly encompasses groundwater and reverse osmosis production, which increased from 33.1 million m³ in 2017 to 35.4 million m³ in 2022. In 2022, the region of Malta accounted for 91.9 per cent of the total water production which mainly reflects the size of the region and the production facilities available. On a regional level, water consumption in Malta registered an increase of 3.4 per cent in 2022 over 2021, while in Gozo and Comino region, an increase of 1.1 per cent was recorded. Malta region consumed 92.2 per cent of the total water, with the rest being consumed in the Gozo and Comino region. **(Chart 8.1.1)** The percentage of network losses in MALTA decreased from 12.0 in 2017 to 10.3 per cent in 2022. In 2022, the percentage of network losses in the region of Malta was lower than that of Gozo and Comino, with a discrepancy of 4.2 percentage points. **(Table 8.1.1)**

The year 2022 was the first full calendar year during which the Gozo reverse osmosis plant was operational. Almost 1.2 million m³ of water were produced by this plant, helping to relieve pressure upon groundwater sources and giving greater water production autonomy to the Gozo and Comino region. Figures show that when compared to 2021, this development led to a decrease of 49.7 per cent in the water that was transferred from Malta region to Gozo and Comino region and a decrease of 20.1 per cent in the groundwater production of the Gozo and Comino region. A substantial amount of water was also transferred to the Malta region for the first time in 2022. **(Table 8.1.1)**

— DID YOU KNOW ?

Between 2021 and 2022, total water production in Malta region increased by 3.9%, totalling 32.6 million m³ in 2022. The Gozo and Comino region registered a lower increase of 1.6% over 2021, reaching 2.9 million m³ of water production during 2022.

CHART 8.1.1 – Water consumption by region (NUTS 3) and year

When analysing the monthly water consumption pattern longitudinally, a seasonal pattern was observed throughout the years under review. Seasonal peaks and troughs were even more pronounced in the Gozo and Comino region, characterised with sharper increases in demand during summer months. **(Chart 8.1.2)**

CHART 8.1.2 – Monthly water consumption by region (NUTS 3) and year

Note:

1. Public water supply comprises the potable water production of the Water Services Corporation.
2. Consumption is the input into the distribution network less network losses.
3. Network losses comprise leakages from the underground water distribution through mains and pipes.

Source: Water Services Corporation (WSC)

Notes:

- Public water supply comprises the potable water production of the Water Services Corporation.
- Groundwater production includes the summation of pumping stations and boreholes.
- Total production for Gozo and Comino is calculated as the summation of groundwater production, reverse osmosis production and transferred water from Malta less the polishing plant reject, transferred water to Malta and washout losses.
- Total production for Malta is calculated as the summation of groundwater production, reverse osmosis production and transferred water from Gozo and Comino less the transferred water to Gozo and Comino and washout losses.
- Input into the distribution network is not equal to the total production because of water stocks (storage in reservoirs).
- Consumption is the input into the distribution network less network losses.
- Network losses comprise leakages from the underground water distribution through mains and pipes.
- Washout losses are water losses that may occur during various stages of the production process, before the water is inputted into the distribution network.
- Consumption is inclusive of water which is unaccounted for by the billing process of ARMS Ltd.
- The Hondoq ir-Rummien reverse osmosis plant in Gozo started operations in December 2021.

8.2 WASTE

COLLECTION OF SEPARATED DRY RECYCLABLES

In 2021, the collection of separated dry recyclables through bring-in sites amounted to 3,605 tonnes in MALTA; this was slightly lower than in 2017 (3,852 tonnes). Out of this total, 84.0 per cent was collected in the region of Malta, with the remaining 16.0 per cent collected in Gozo and Comino region. On a regional level, when compared to 2017, the collection of separated dry recyclables through bring-in sites in 2021 was higher in Malta region by 49 tonnes, while Gozo and Comino region recorded a drop of 295 tonnes. During 2021, the collection of glass constituted the highest share of all the material collected through bring-in sites in both Malta and Gozo and Comino regions with 75.7 and 49.0 per cent respectively (**Table 8.2.1 and Chart 8.2.1**).

Collection of separated dry recyclables via door-to-door collection was significantly higher when compared to the collection of separated dry recyclables from bring-in sites, reaching 31,303 tonnes in MALTA in 2021. During 2021, the collection of mixed paper, plastic and metal (grey/green bag) accounted for the largest share (89.6 per cent) from door-to-door-collection and registered an increase of 46.2 per cent over 2017. On a regional level, in 2021, the collection of grey/green bag stood at 26,321 tonnes compared to 17,752 tonnes in 2017 in the region of Malta, while collection of glass via door-to-door collection stood at 3,005 tonnes in 2021. In the Gozo and Comino region, the grey/green bag collection in 2021 amounted to 1,730 tonnes, an increase of 20.9 per cent over 2017, while glass collected via door-to-door collection amounted to 247 tonnes in 2021. (**Table 8.2.1 and Chart 8.2.1**)

— DID YOU KNOW ?

Over the five-year period under review, the collection of separated dry recyclables via door-to-door collection has increased, attaining a local maximum in 2019. In Malta region, the collection of this type of waste through door-to-door collection increased from 19,124 tonnes in 2017 to 29,326 tonnes in 2021, whereas in Gozo and Comino region, door-to-door waste collection went up from 1,611 tonnes in 2017 to 1,977 tonnes in 2021.

CHART 8.2.1 – Collection of separated dry recyclables by material and region (NUTS 3): 2021

COLLECTION OF SEPARATED WASTE FROM CIVIC AMENITY SITES

During 2021, the collection of separated waste from civic amenity sites stood at 38,584 tonnes in MALTA, an increase of 49.4 per cent over 2017. Non-hazardous waste amounted to 94.1 per cent of waste collected from civic amenity sites. In the region of Malta, waste collected from civic amenity sites in 2021 increased by 11,463 tonnes over 2017 to 34,737 tonnes. Non-hazardous waste constituted 94.1 per cent of all waste collected from civic amenity sites in Malta region, the majority being mixed construction and demolition wastes. In 2021, the collection of waste from civic amenity sites in the Gozo and Comino region increased by 1,287 tonnes to 3,847 tonnes over 2017, with non-hazardous waste constituting 93.8 per cent of all waste collected, of which, mixed construction and demolition wastes comprised the biggest share. In both regions, most of the hazardous waste collected through civic amenity sites was made up of waste electrical and electronic equipment. (Table 8.2.2 and Chart 8.2.2)

CHART 8.2.2 – Collection of separated waste from Civic Amenity Sites by material and region (NUTS 3): 2021

Note:
1. 'Compost' and 'Chemicals and gases' categories were removed as no data was recorded.

MUNICIPAL WASTE GENERATION

Municipal waste generation in MALTA amounted to 316,603 tonnes during 2021, an increase of 4,944 tonnes over 2017. Mixed municipal waste constituted the highest share at 47.7 per cent of all municipal waste generated. In the region of Malta, the generation of municipal waste increased by 1.2 per cent over 2017 to 298,518 tonnes in 2021. During 2021, the majority of municipal waste generated in this region consisted of mixed municipal waste and bulky waste, representing 47.2 and 18.5 per cent of all municipal waste respectively. Similarly, municipal waste generated in the region of Gozo and Comino stood at 18,085 tonnes in 2021, representing an increase of 7.9 per cent over 2017. Mixed municipal waste and mixed packaging were the two municipal waste types that were mostly generated in the Gozo and Comino region, accounting for 56.2 and 10.3 per cent of all municipal waste in 2021 respectively. (Table 8.2.3 and Chart 8.2.3)

— DID YOU KNOW ?

Throughout the five-year period under review, whilst total municipal waste generation in Malta region has undergone minor shifts, reaching a local maximum of 333,617 tonnes in 2019 and then going down to 298,518 tonnes in 2021, total municipal waste in Gozo and Comino region has mainly retained a steady growth, decreasing only in 2020, and reaching a total of 18,085 tonnes in 2021.

CHART 8.2.3 – Municipal waste generation by material and region (NUTS 3): 2021

Note:
1. * Includes hazardous waste.

Notes:
 1. Data for the Gozo and Comino region is sourced from the input into the Tal-Kus (Gozo) waste transfer station and the output of the Tal-Kus Civic Amenity Site.
 2. 2019 was the first full calendar year during which the nationwide collection of organic waste from households took place (classified under Bio waste - kitchen and canteen). Full coverage of localities in the Gozo and Comino region was implemented in 2017.
 3. 2021 data is provisional.
 4. Data is in line with NSO news release 222/2022.
 5. Totals may not add up due to rounding.
 6. * includes hazardous waste

STOCK OF PVs: 2022

In 2022, the stock of PV installations amounted to 32,452 of which 85.2 per cent were installed in the region of Malta and 14.8 per cent were in the Gozo and Comino region. The Northern Harbour and Western districts accounted for 37.5 per cent of the total stock of PV installations, with 6,316 and 5,861 installations respectively. When compared to 2021, the stock of PV installations increased by 4.9 per cent. The percentage increases were highest in the South Eastern district (5.7 per cent) and lowest in the Gozo and Comino district (4.0 per cent) (Table 8.3.1, Chart 8.3.1 and Map 8.3.1).

CHART 8.3.1 – Stock of PV installations by district (LAU 1) and year

Maps 8.3.1 to 8.3.3 illustrate the concentration of grid-connected PVs, featuring point data on 250m² grid cells. During 2022, the domestic sector accounted for 93.5 per cent of the total stock of PV installations, followed by the commercial and public sectors, accounting for 5.7 and 0.8 per cent respectively. Most increases in new PV installations resulted from the domestic sector. The Northern Harbour district had the highest stock of PV installations in the domestic sector. (Table 8.3.2, Chart 8.3.2, Maps 8.3.2 and 8.3.3)

MAP 8.3.1 – Total PV installations using 250m² grid cells: 2022

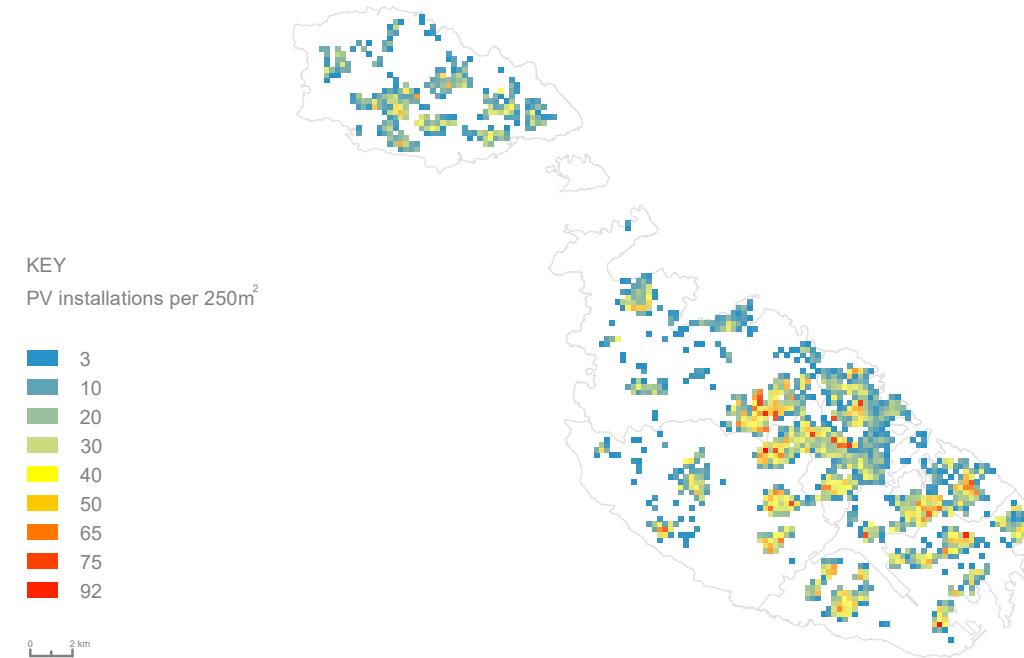

Notes:
1. Each grid cell represents an area of 250m².
2. Each grid cell shows the total number of PVs installed in that particular area. Grid cells containing less than three PV installations are omitted.

CHART 8.3.2 – Stock of PV installations by sector and year

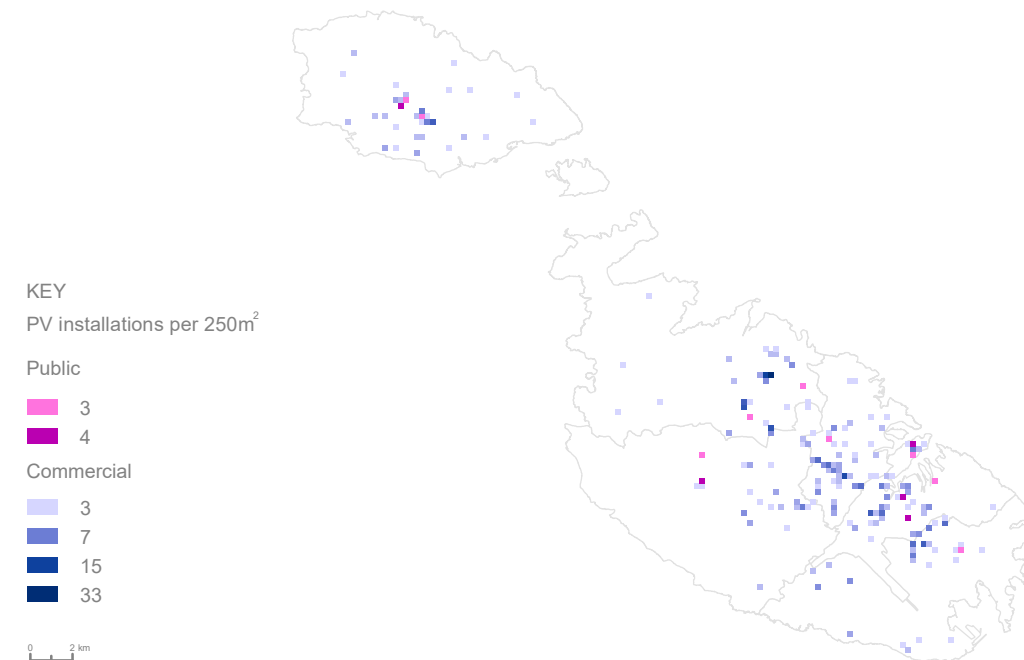

MAP 8.3.2 – Domestic PV installations using 250m² grid cells: 2022

Notes:
1. Each grid cell represents an area of 250m².
2. Each grid cell shows the total number of PVs installed in that particular area. Grid cells containing less than three PV installations are omitted.

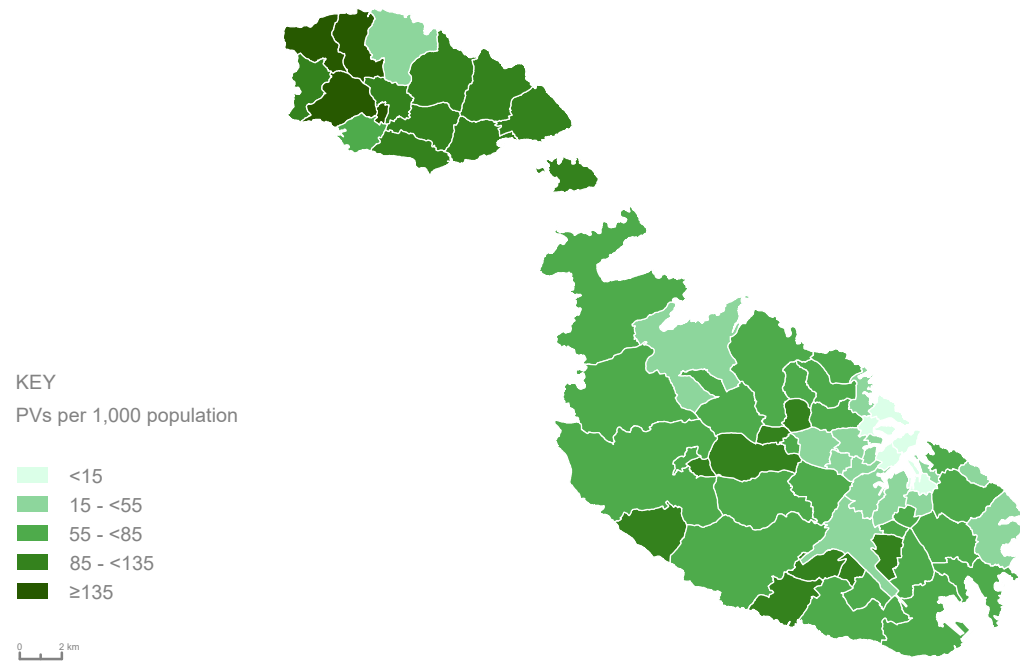

MAP 8.3.3 – Public and commercial PV installations using 250m² grid cells: 2022

Notes:
1. Each grid cell represents an area of 250m².
2. Each grid cell shows the total number of PVs installed in that particular area. Grid cells containing less than three PV installations are omitted.

Map 8.3.4 illustrates the spread and intensity of domestic PV installations per 1,000 population by locality, indicating that the top 10 localities were in the region/district of Gozo and Comino. When analysing the results by district, Gozo and Comino district had an average of 114 domestic installations per 1,000 population, followed by the Western and South Eastern districts at 84 and 68 installations respectively. The lowest ratio was registered in the Northern Harbour district, with 37 installations per 1,000 population.

MAP 8.3.4 – Total PVs installed in the domestic sector per 1,000 population: 2022 (LAU 2)

PRODUCTION OF ENERGY FROM PVs: 2022

Total kWp amounted to 221,148.1, an increase of 8.3 per cent over 2021. The commercial sector accounted for 52.0 per cent of total kWp, followed by 45.6 and 2.3 per cent in the domestic and public sectors respectively. The peak power rating of an average PV system in the domestic sector stood at 3.3 kWp, whereas that for the commercial and public sectors amounted to 62.1 and 19.2 kWp respectively. (Table 8.3.3, Charts 8.3.3-4 and Map 8.3.5)

CHART 8.3.3 – Total kWp of grid-connected PVs by sector and year

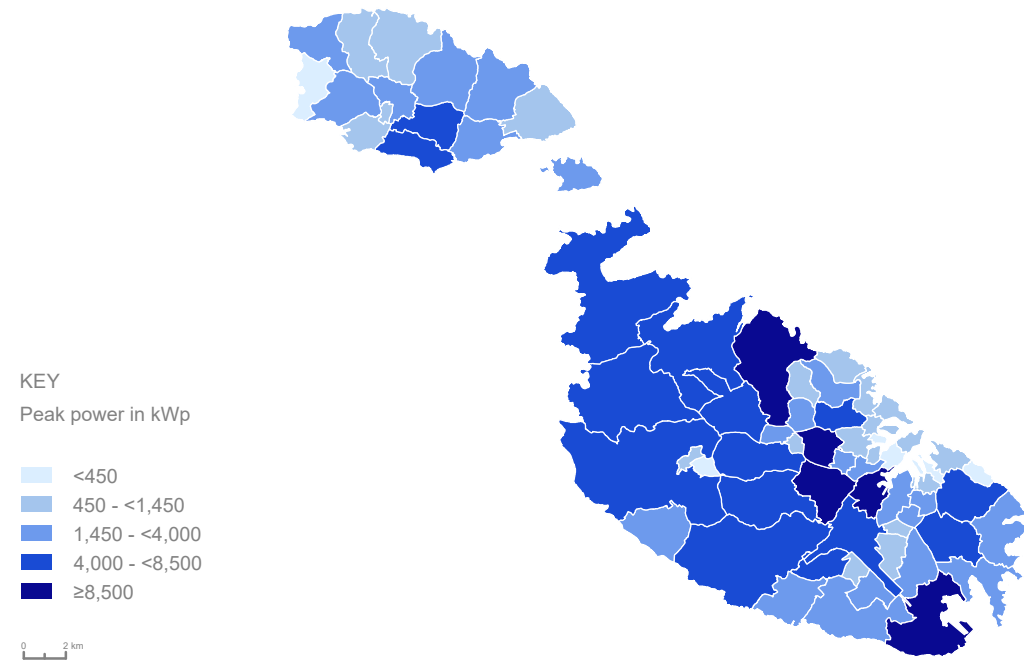

CHART 8.3.4 – Distribution of total kWp of grid-connected PVs by sector and district (LAU 1): 2022

— DID YOU KNOW ?

In 2022, the total kWp of grid-connected PVs in both Malta, and Gozo and Comino regions was dominated by the commercial sector, with a share of 52.4% and 49.5% of the total kWp of their respective region.

MAP 8.3.5 – Total kWp of PV installations by locality (LAU 2): 2022

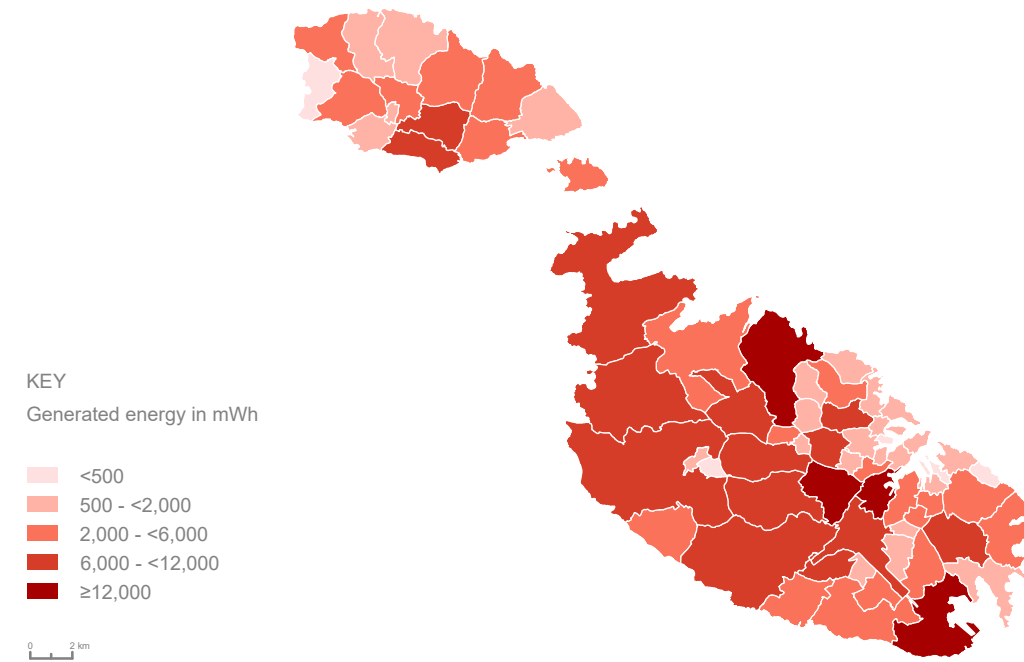

When compared to the situation in 2021, generation of energy from grid-connected PVs increased by 13.2 per cent, totalling an estimated value of 289.5 GWh. Most energy was generated in the South Eastern and Northern districts at 22.8 and 17.1 per cent of the total GWh respectively. Increases were highest in the Southern Harbour district (14.8 per cent) and lowest in the Western district (9.7 per cent). (Table 8.3.4, Chart 8.3.5 and Map 8.3.6)

CHART 8.3.5 – Estimated total output in GWh from grid-connected PVs by district (LAU 1) and year

MAP 8.3.6 – Total estimated mWh of PV installations by locality (LAU 2): 2022

— DID YOU KNOW ?

In comparison to 2020, the projected overall electricity production in GWh from grid-connected PV systems witnessed a rise of 19.5% in the Gozo and Comino region and a 22.7% increase in the Malta region during 2022.

Notes:

1. Estimated output (GWh) for MALTA was based on data provided by the Energy and Water Agency based on PV meter readings. Estimated output (MALTA) was based on the relation between actual data (kWh) provided by Enemalta plc. to the Energy and Water Agency and the kWp installations as provided by the Regulator for Energy and Water Services.
2. Estimated output for regions (NUTS 3), districts (LAU 1) and localities (LAU 2) was estimated on the basis of the corresponding kWp effectively connected to grid.
3. Figures presented in this table are based on data available as at the cut-off date 31st March 2023.

Source: NSO estimates based on actual data provided by the Energy and Water Agency

METHODOLOGICAL NOTES

1. The main source of data is the Regulator for Energy and Water Services. Point data showing location of PV installations was obtained from Enemalta plc.
2. Statistics for years 2021 - 2022 are provisional and may be subject to revision.
3. Definitions:
 - **Photovoltaic (PV) system:** A complete set of components for converting solar radiation into electricity by the photovoltaic process, including the array/s of photovoltaic modules that collect and absorb sunlight for conversion into electricity, inverter/s and associated balance of system components.
 - **kWp:** kilowatt peak - in the solar industry, kilowatt peak means the peak power rating of a panel.
 - **kWh:** kilowatt hour - a unit of energy equal to 1,000 watt-hours. It is normally used as a billing unit for energy delivered to consumers by electricity providers. The units of measurement are as follows:
 - **kWh:** kilowatt hour = 1 thousand watt-hours
 - **MWh:** megawatt hour = 1 million watt-hours
 - **GWh:** gigawatt hour = 1 billion watt-hours
4. Commercial sector includes industry.
5. Public sector includes institutional households.
6. The term installation refers to a collection of PV panels installed as one PV system.
7. Installation date refers to the date when the PV system is actually connected to the Feed-in Tariffs grid.
