## FOREWORD

The **2015 Foreign Trade Statistics of the Philippines** is an annual publication of the Philippine Statistics Authority. It presents information on value and quantity of Philippine trade with other countries and also provides comparative data for previous years as well as a historical table on Philippine trade dating back to 1890.

This Publication consists of two volumes, namely: Volume 1 - Imports and Volume 2 - Exports.

**Volume 1 - Imports** is divided into three sections: Special Feature: The Country's Foreign Trade Performance in 2015; Summary Statistical Tables on Foreign Trade; and Detailed Statistical Tables on Imports.

**Volume 2 - Exports** is divided into four sections: Special Feature: The Country's Foreign Trade Performance in 2015; Summary Statistical Tables on Foreign Trade; Detailed Statistical Tables on Exports; and Detailed Statistical Tables on Re-exports.

The PSA acknowledges with sincere thanks and appreciation the cooperation and valuable assistance extended by the Bureau of Customs and the Philippine Economic Zone Authority. We also express our deep gratitude to the traders and brokers who continue to provide us with source documents and reports needed in compiling foreign trade statistics.

# EXPLANATORY TEXT

## Introduction

Republic Act 10625 otherwise known as the Philippine Statistical Act of 2013 enacted on September 12, 2013, merged four statistical agencies, namely, the National Statistics Office (NSO), the National Statistical Coordination Board (NSCB), the Bureau of Labor and Employment Statistics (BLES), and the Bureau of Agricultural Statistics (BAS) and shall be known as the PHILIPPINE STATISTICS AUTHORITY (PSA).

One of the functions of the PSA stated under Section 6 of RA 10625 is to “prepare and conduct statistical sample surveys on all aspects of socioeconomic life including agriculture, industry, **trade**, finance, prices and marketing information, income and expenditure, education, health, culture and social situations as well as the government and the political sector for the use of the government and the public;

Also, under Section 13 of RA 10625, the Sectoral Statistics Office shall:

(a) Provide technical staff support to the PSA in the areas of agriculture, natural resources, agrarian reform, mining and quarrying, manufacturing, electricity, gas and water, energy, construction, **foreign and domestic trade**, services, science and technology, finance, investment, population, women and gender, health, nutrition, education, labor and employment, social welfare, governance, public order and justice.

In 1973, the former National Statistics Office became the sole agency to compile foreign trade statistics. Prior to this period, the Central Bank of the Philippines (now known as Bangko Sentral ng Pilipinas) also compiled and released foreign trade data. However, the differences in the concepts used by these two agencies resulted to a conflicting foreign trade data. This led to an agreement that made NSO the sole compiler of the official foreign trade statistics.

The Philippines adopts the "**General**" trade system of recording foreign trade statistics. The customs frontier (not the national boundary) is used as the statistical frontier. Under this system, all goods entering any of the seaports or airports of entry of the Philippines properly cleared through customs or remaining or under customs control are considered **imports**, whether the goods are for direct consumption, for merchandising, for warehousing or further processing. On the other hand, all goods leaving the country, which are properly cleared through the Customs, are considered **exports**. A distinction however, is made between export for goods grown, mined or manufactured in the Philippines (**domestic exports**) and exports of imported goods that do not undergo physical and or chemical transformation in the Philippines (**re-exports**).

## Coverage

The foreign trade data contained in this report relates to commerce between the Philippines and other countries by sea or air whether for private or government use or for commercial purposes, gifts or samples. It also includes animals for the zoo, for

breeding and the like. However, the following classes of goods are excluded in the compiled foreign trade statistics:

- a. Fish and other marine products landed by Philippine vessel direct from the sea
- b. Goods imported and exported by, or on behalf of diplomatic services and armed forces
- c. Exposed cinematographic films imported or exported on rental basis
- d. Personal effects of passenger on which no duty was paid
- e. Issued currency notes and coins
- f. Goods in transit to foreign countries
- g. Stores and fuels purchased abroad by ships and aircrafts of Philippine registry and
- h. Goods sent through parcel post.

Since 1982, goods are considered imported or exported on the date the carrying vessel or aircraft arrives or departs at the port or airport of unloading or loading.

The coverage of the annual publication is usually higher than the sum of monthly coverage, since it includes data from the documents, which arrived late for inclusion in their respective months. Monthly figures in this publication, however, include these corrections.

## **Sources of Information**

Foreign trade statistics are compiled by the Philippine Statistics Authority (PSA) from copies of import and export documents submitted to the Bureau of Customs (BOC) by importers and exporters or their authorized representatives as required by law.

Imported articles of commercial nature with dutiable value of two thousand pesos and above are cleared on formal import entry (BOC Import Entry & Internal Revenue Declaration -Form No. 236). Those with dutiable value of two thousand pesos or less and personal and household effects, are cleared on an informal import entry (Informal Import Declaration and Entry - BC Form No. 177) whenever duty, tax or charges are collectible.

Effective 1980, EPZA Import Tally (Form No. 8102) are used for clearing importations intended for Export Processing Zones. However, the Customs- EPZA Warehousing Entry (BC Form No. 242 - CEWE) which was implemented in 14 October 1991 revoked the use of the EPZA Import Tally. However, from early 1996 to the present, EPZA forms were renamed as PEZA (Philippine Economic Zone Authority) forms after the name of the agency.

Another source of import data used for clearance of cargoes is the Single Administrative Document (SAD), an electronic copy of the IEIRD. This is an on-line

submission of import documents either by brokers or companies in lieu of the manual filling-up of documents.

The sources of export data, on the other hand, are Export Permit (CB-ED Form No. 102R), Export Declaration (ED) with and without Foreign Exchange Proceeds (CBP 6-21-02 and CBP 6-21-04, respectively) and PEZA Export Tally (PEZA Form No. 8104). The first form is used by Board of Investments (BOI)-registered exporters, the second form by general exporters and the last form by exporters located inside the Export Processing Zones. Effective 1 October 1991, the Revised Export Declaration was implemented which can be used by all kinds of exporters including general, BOI registered and PEZA registered exporters. Starting 30 July 1996, this form was then implemented under the Department of Trade and Industry (DTI) from the Central Bank (CB) of the Philippines.

Other sources of export data are the General System of Preferences (GSP Form A), ASEAN Common Effective Preferential Tariff Scheme (Form D), ASEAN-CHINA Free Trade Area Preferential Tariff (Form E), ASEAN - KOREA Free Trade Area Preferential Tariff (Form AK), Agreement Between Japan and the Republic of the Philippines for an Economic Partnership (Form JP) and Agreement Establishing the ASEAN - AUSTRALIA - NEW ZEALAND Free Trade Area (Form AANZFTA/AANZ). These documents are issued by the Bureau of Customs to exporters whose products are eligible for preferential tariff treatment.

Monthly reports of selected electronic companies were also used as sources of export data. In addition, the Special Permit to Load (SPL) was used for those selected companies without corresponding export document.

Starting in 2003, the Automated Export Documentation System (AEDS), a paperless recording of export transaction at the ECOZONES covering semiconductor and electronic shipments loaded at Ninoy Aquino International Airport (NAIA) was included in the compilation of export statistics. This is due to the Joint Memorandum Order (JMO) No. 02-2002 section 3.9, which states that “in lieu of providing the NSO and DTI copies (paper) of the ED, the BOC shall provide electronic files of ED’s processed on a monthly basis to these government agencies”. The PSA collects this electronic files every 15<sup>th</sup> day of the month and integrates them to the PSA database system.

In addition to NAIA, all transactions that pass through AEDS in Subic and Mactan were also included in the compilation of export statistics starting in 2004 and 2005, respectively.

Revision in the import figures were done for the years 2000 to 2004. The revision on import statistics was based on the recommendation of the Inter-Agency Committee on Trade. The committee is composed of representatives from the National Statistical Coordination Board (NSCB), Bangko Sentral ng Pilipinas (BSP), National Economic Development Authority (NEDA), NSO, PEZA, BOC and DTI-Export Development Council (EDC) and Bureau of Export Trade Promotion (BETP). The NSCB Executive

Board approved the recommended methodology last May 8, 2005 through NSCB Resolution No. 8 Series of 2005 entitled "Interim Methodology for the Revision of Electronics Import Statistics". However, starting in 2006, import figures were adjusted based on the transactions that pass through the Automated Cargo Operating System (ACOS) of the BOC. Moreover, beginning March 2010, adjustments on import figures were based on the transactions that pass through the e2m (electronic to mobile) customs system; a system implemented through the BOC e-Customs Project. Through internet-based and wireless technologies, the e-Customs Project intends to streamline imports and exports processing and improve trade facilitation among BOC, other government agencies and its stakeholders anywhere, anytime - all towards the realization of the National and ASEAN Single Windows.

## **Commodity Classification**

The 2004 Philippine Standard Commodity Classification (PSCC) is used in compiling foreign trade data starting with July 2006. This is in compliance with NSCB Resolution No. 03, series of 2005 entitled "Approving and Adopting the 2004 Philippine Standard Commodity Classification" by all concerned government agencies and instrumentalists.

The commodities are classified in accordance with the 1993 Philippine Standard Commodity Classification Revised 2 (1993 PSCC Rev. 2), a classification scheme that is aligned with the United Nations Standard International Trade Classification (SITC), and the Harmonized Commodity Description and Coding System of the Philippines, otherwise known as Harmonized System of the Philippines (HSP) from 1999 to 2006. However, in July 2006, all commodities are both classified in accordance with the 1993 Philippine Standard Commodity Classification Revised 2 (1993 PSCC Rev. 2) and with the 2004 Philippine Standard Commodity Classification (2004 PSCC) groupings. This is in compliance with NSCB Resolution No. 03, Series of 2005 entitled "Approving and Adopting the 2004 Philippine Standard Commodity Classification" by all concerned government agencies and instrumentalities. The commodities for the months of January to June in 2006, on the other hand, were then backtracked to enable them to classify to 2004 PSCC. Subsequently, in 2007 this commodity classification was then being used up to the present.

The former NSO adopted a new coverage of electronic products beginning March 2003 to ensure the consistency and comparability of statistics used by several agencies in the country. The NSCB, through NSCB Resolution No. 12, series of 2002 dated 5 June 2002, approved the new coverage. This new coverage of electronics exports resulted from an interagency work participated in by the NSO, the BETP of the DTI, the Semiconductor and Electronics Industries of the Philippines, Incorporated (SEIPI), and the NSCB. The new coverage now includes 359 items as described in the PSCC as against to only 40 items in the previous years.

The 1993 PSCC Revised 1 (1993 PSCC Rev.1) was used in the classification of the commodities included in the trade statistics from 1994 to 1998 while the 1989 PSCC Revised (1989 PSCC Rev.) was used for the years 1991 to 1993 and the 1989 PSCC was employed from 1990 to 1991.

The 1977 PSCC was used from 1977 to 1990. It was basically patterned after the UN SITC, Rev. 2 and followed similar coding scheme up to the subgroup level (4-digit). Prior to 1977, the Revised Central Bank Commodity Classification Manual was used, which was an integration of the Central Bank Statistical Classification of the Philippines patterned after the original SITC.

## **Country of Origin**

The Country of Origin of an imported commodity is the country where the commodity is grown, mined or manufactured. Further processing or material added to it in another country must bring about a material transformation to render such country as the country of origin. The country of origin remains unchanged if the commodity is subjected to mere sorting, grading, cleaning, packaging or similar processing.

## **Country of Destination**

The Country of Destination is the country of ultimate destination or shipment. It is not necessarily the country where the commodity or shipment is to be unloaded, as in the case of shipment unloaded from one ocean liner but is destined to a country that is landlocked. In which case, the country of destination is the landlocked country.

## **Valuation**

Beginning in 1963, the rate of conversion for every independent transaction in computing the FOB peso value are the actual rates appearing on entries or as reported in the daily foreign exchange quotations of the BSP. Thus, there is no fixed rate conversion for imports and exports since the actual rate fluctuates daily. For imports, such variable rates have been used effective January 1963, whereas for the first semester of 1963, the FOB value corresponding to the dollar receipts derived from exports was computed by using the composite rate consisting of 80 percent at the free Market rate and 20 percent at the rate of two pesos to a dollar. Starting with the second half of 1963, the rate conversion has been changed to 100 percent free market rate. This latter procedure was adopted to obtain a more realistic FOB peso value and to give a true picture of the balance of trade position of the country.

The Free on Board (FOB) value is the value of the goods free on board the carrier at the frontier of the exporting country. It includes inland freight, export duty and other expenses. Ocean freight, insurance and consular fees, however, is excluded. The

dollar-peso average exchange rate for the year in review is 45.37 for exports and 45.87 for imports.

In addition, valuation of goods in the Philippine foreign trade statistics is FOB. However, Cost-Insurance-Freight (CIF) valuation could also be determined as the data on freight and insurance are available.

## **Processing**

Data processing is done both mechanically and manually.

Copies of import and export documents collected by NSO personnel from the customs houses in all ports and airports of entry in the Philippines are systematically controlled. Collected documents are sorted by month, by port, by single or multiple commodity entries and by value. About 100 entries are assigned with control numbers and folioed together for the convenience of coders and encoders and for easy processing of the processors. Each folio then undergoes the following stages of processing:

1. Coding - process of translating each item of information found in the source document to its equivalent alphabetic and or numeric code in accordance with the country, commodity, exporter, handling, carrier or port classification used
2. Code verification - process of determining the appropriateness of codes used
3. Computation - process of computing the FOB, insurance and freight values and converting each value into US dollars
4. Computation verification - process of checking the accuracy of computed data.

Quality control of coding and computation for both imports and exports is carried through sample verification. This method enables the verifier to decide after a number of entries have been verified whether to reject, continue or accept the folio. The number and type of errors are recorded and brought to the attention of the coder. Further training is given on pinpointed causes of errors of coders to improve the quality of their work.

Data encoding and editing are carried-out through the use of microcomputers. Inconsistent or erroneous entries are passed through several reject listings until such errors are fully corrected or rectified after which the monthly tabulations are finally generated.

Processing of electronic files provided by the BOC like Automated Export Documentation System (AEDS) and Automated Cargo Operating System (ACOS) and e2m are performed separately from the manually processed documents. For the AEDS, the data provided which is in the form of a delimited text file is converted to data base file to suit the structure of the International Merchandise Trade Statistics (IMTS) system. Aside from this, conversion of FOB, insurance and freight values to US dollars were also performed as there are some transactions that have used other currencies. In

addition, there is a need to recode the country of origin and port as both agencies used different code structure. Further validation of commodity codes are also done to ensure the accuracy of the data. In cases that commodity description does not tally with the PSCC codes or is not provided, the name of the importers or the importers' TIN is the final determinant of the commodity codes. After all these consistency checks and edits are achieved, then the modified data base file is appended to the export's master file to generate the preliminary export figure for the month.

Documents received after the cut-off dates for each month are accumulated, processed and the data are included in their respective months at the end of the calendar year. When all the monthly tabulations for a year have been completed and finalized, the annual tabulations are then prepared.

## **Other Available Data**

Preliminary monthly export and import statistics are released in the form of press releases 40 days and 55 days after the reference month, respectively.

The ***Foreign Trade Statistics of the Philippines*** publication comes out annually in two volumes, Volume I for Imports and Volume II for Exports.

There are other unpublished statistical tables that are available at the Trade Statistics Division, such as those requested by private entities both in the Philippines and abroad. They could be in computer printouts, electronic copy, and CD's depending on the needs of the researchers. Other special tabulations may also be made available upon request, addressed to the National Statistician, Philippine Statistics Authority, CVEA Building, East Avenue, Quezon City, Metro Manila.

# The Country's Foreign Trade Performance in 2015

## FOREIGN TRADE STATISTICS OF THE PHILIPPINES: 2015

### TOTAL EXTERNAL TRADE SUMMED UP TO \$129.894 BILLION IN 2015

The country's total external trade in goods in 2015 reached \$129.894 billion, expanding by 1.9 percent from \$127.500 billion in 2014. The positive growth of the external trade was due to the increase of inward trading of goods. Total imports went up by 8.7 percent to \$71.067 billion in 2015 from \$65.398 billion in 2014. However, total export receipts decreased by 5.3 percent from \$62.102 billion in 2014 to \$58.827 billion in 2015. However, the country's balance of trade in goods (BoT-G) registered a \$12.240 billion deficit in 2015 higher than the \$3.297 billion deficit in 2014 (*Table 1*).

### TOP 10 EXPORTS ACCOUNTED FOR 83.5 PERCENT OF TOTAL EXPORT RECEIPTS

Export sales from the top ten exported commodities totaled to \$49.096 billion, accounting for 83.5 percent of the total export revenue in 2015. This registered a decrease of 3.3 percent from \$50.788 billion in 2014 (*Table 2*).

**Electronic Products** continued to be the top earner and major exported commodity for 2015 with 49.1 percent of the total exports and which accelerated by 7.9 percent from \$26.790 billion in 2014 to \$28.904 billion.

**Other Manufactured Goods** placed second with a share of 6.8 percent and a total receipt of \$3.993 billion. It declined by 22.7 percent from the 2014 value of \$5.167 billion.

**Machinery and Transport Equipment** contributing 6.7 percent of the total export receipts, was the third top export in 2015 with revenue amounting to \$3.930 billion. This recorded a decrease of 3.5 percent from the 2014 value of \$4.075 billion.

**Woodcrafts and Furniture**, which ranked fourth with a share of 5.3 percent, declined by 6.2 percent from \$3.334 billion to \$3.128 billion in 2015.

## GLOSSARY OF TERMS

Terms	Definition
APEC <sup>2</sup>	Asia-Pacific Economic Cooperation. A forum established as a vehicle for multilateral cooperation among the market oriented economies of the region to better manage their growing interdependence and sustain economic growth. Begun in 1989 as an informal grouping of 12 Asia-Pacific economies (Australia, Brunei, Canada, Indonesia, Japan, South Korea, Malaysia, New Zealand, Philippines, Singapore, Thailand and the United States), APEC admitted the People's Republic of China, Chinese Taipei and Hong Kong in 1991, Mexico and Papua New Guinea in 1993, Chile in 1994, and Peru, Russia and Vietnam in 1998.
ASEAN <sup>2</sup>	Association of Southeast Asian Nations. A geopolitical and economic organisation of ten Southeast Asian Countries. Formed in 1967 by Indonesia, Malaysia, the Philippines, Singapore and Thailand and subsequently expanded to include Brunei, Burma (Myanmar), Cambodia, Laos and Vietnam. It aims to accelerate economic growth, social progress, cultural development; to protect regional peace and stability and to provide a forum for member countries to discuss differences peacefully.
Automated Export Documentation System (AEDS) <sup>4</sup>	The BOC system module for the receipt and processing of the Export Declaration SAD.
<i>Bonded Manufacturing Warehouse</i>	Includes the premises, rooms, compartments and other areas necessary for storing, processing, and manufacturing of imported raw materials and by-products or was incident thereto. This enables the proprietor to manufacture goods (in whole or in part of the imported materials) for export without being charged with duties.
<i>Bulk</i>	In trade, production or a mass (of a product) which is not package, bundled, bottled, or otherwise packed so that it is designated as bulk or bulk merchandise.
Coding	The Process of translating each item of information in the processing sheet in numeric code in accordance with the country, commodity classification.
Collect Freight <sup>2</sup>	Freight charges as shown on a B/L or air waybill that are payable to the carrier at the port of discharge or final destination. The consignee does not pay the freight charge if the cargo does not arrive at the destination.
<i>Commodity</i>	Something which affords convenience for profit, which can be exchanged for some other value. The commodity must be in such tangible form, whether goods or services, that it can be traded for something tangible (goods or service).

<b>Terms</b>	<b>Definition</b>
Commodity Classification	The determination of the proper class or group to which an imported article/commodity belongs. The classes or groups are known as heading or sub-heading numbers in the tariff schedule.
<i>Consignment</i>	That which is sent or consigned to be cared for and sold by the recipient for account of the shipper.
<i>Consignment Basis</i>	an export scheme in which the materials or components to be used in the manufacture of exported goods are supplied by the importer, while the labor will be provided for by the exporter.
<i>Consignor</i>	The person who ships goods to an agent.
CIF <sup>2</sup> (named port of destination)	Abbreviation for 'Cost, Insurance, Freight.' (Named Port). The seller is responsible for clearing the goods for export, loading the goods onto the vessel at the port of export and paying overseas freight and insurance charges, with the buyer named as beneficiary in the insurance policy. The title and risk pass to the buyer once the goods are delivered on board the ship by the seller. CIF terms of trade are generally used for sea or inland waterway transportation.
Country of Origin	The country where the commodity is grown, mined or manufactured. Further, a physical or chemical transformation is required to change the country of origin thus if the commodity remains unchanged or it was just subjected to mere sorting, grading, cleaning, packaging or similar processing then the country of origin remains unchanged also.
Customs <sup>2</sup>	The Government Service which is responsible for the administration of Customs law and the collection of duties and taxes and which also has the responsibility for the application of other laws and regulations relating to the importation, exportation, movement or storage of goods. (Kyoto Convention)
<i>Customs Tariff</i>	A systematic arrangement of customs duties levied on goods when they cross the border of a political unit; an official list or schedule setting forth the several customs duties to be imposed on imports, exports or goods in transit.
Domestic Export	is the export of goods grown, mined or manufactured in the Philippines
<i>Entry</i>	the set of document relating to importation of merchandise which passes government action, serving as a check value before such merchandise finally comes into custody of the importer.
Export Declaration-Single Administrative Document (ED-SAD) <sup>4</sup>	The electronic representation of the Export Declaration, in lieu of the DTI Export Declaration form which is used in the manual export declaration processes submitted electronically to the BOC E2M AEDS.

Terms	Definition
Exportation <sup>3</sup>	Refers to transporting or sending merchandise or goods or raw materials to other countries for sale or trade
Exporter	Any person or business concern granted by the Central Bank, bank or commercial bank with a permit or license to export.
Export Declaration <sup>3</sup>	Refers to the document required for every export shipment wherein the exporter or his duly representative declares and certifies the full particulars of a shipment
FOB <sup>2</sup> (...named port of shipment)	Free On Board (...named port of shipment). The seller is responsible for delivering the goods from their place of business, clearing Customs in the country of export and loading the goods onto the vessel at the port of export. At the point where the goods cross the 'ship's rails', the title & risk pass to the buyer. The buyer is responsible for overseas freight & insurance costs. Where Customs value is based on CIF, the cost of overseas freight and insurance must be added to the FOB value. FOB
<i>Formal Entry</i>	Documents issued on imported merchandise for immediate consumption or under irrevocable letter of credit, bank guarantee or bond for placing such articles in Customs Bonded Warehouse, constructing warehousing and immediate exportation.
<i>Insurance</i> <sup>1</sup>	<p>The activity of insurance is intended to provide individual institutional units exposed to certain risks with financial protection against the consequences of the occurrence of specified events.</p> <p>It is also a form of financial intermediation in which funds are collected from policyholders and invested in financial or other assets which are held as technical reserves to meet future claims arising from the occurrence of the events specified in the insurance policies.</p>
<i>Imports</i>	All articles, wares, goods or merchandise of every kind or class entering the jurisdiction of the Philippines from any foreign port, either with intent to unload therein, or which, after such entering, are assumed therein, or incorporated in the general mass or property of the Philippines.
<i>Manufactured Goods</i>	goods which need not be processed further e.g. durable goods and are directly consumed by households or industries.
<i>No Dollar Imports</i>	Imports of goods, which generally require prior CB approval, without direct foreign exchange payment from the Philippines. They are exempt from letter of credit and release certificate requirements.
Preferential Tariff	a kind of tax levied on import favoring one group of supplies of countries against others.

Terms	Definition
Re-Export	the export of imported goods, which do not undergo any physical or chemical transformation in the Philippines.  Exportation from a Customs territory of goods previously imported into that territory. (WCO) <sup>2</sup>
Single Administrative Document <sup>3</sup>	Document designed by the UNCTAD in documenting import and export transactions and which shall replace the Export Declaration (ED) in electronic form
<i>Warfage</i>	A charge made for the use of a wharf to load cargoes in the vessel.
